The horse is in a pasture which contains a well and which is used by a large number of the residents of that part of the city for their water supply.

Mrs. Woods was in the pasture Thursday and was drawing a bucket of water when the horse came charging at her and snapping as it came. DESIRES NO REHEARING

The Missouri Pacific railroad has requested the state railway commission to indefinitely postpone a rehearing, scheduled for July 27, concerning discontinuance of its bus line from Lincoln to Union. To the commission it appears like an agreement or desire for more time to determine the company's ultimate course.

The company originally took off a train, substituted an electric train and later a bus. Application was made for leave to continue this service and the commission granted the request subject to filing of objections prior to July 1. The order was final and the bus taken off. There were subsequent objections and the company reinstated the service on its own volition subject to rehearing. There was never held a formal hearing on the application. It is assumed that the service will be continued.
