

MERCERVILLE SCHOOL TO HAVE A PROGRAM

The Mercerville school under the supervision of their teacher, Miss Evelyn Meade, is planning for a program at the city library Wednesday evening, October 27 at 8 o'clock. This program will be open to the public and the theme will be Hallowe'en, Indians and Columbus day. The Mercerville children have been doing a number of interesting things including special drill on spelling and emphasis on library reading.

The following is a letter sent out by Miss Meade to the patrons of their school:

"The first six weeks of schools are nearly over. They have been very busy and very happy weeks for all. There are ten pupils enrolled in our room. We have only the first four grades this year.

"The schoolroom looks very pretty with its Hallowe'en, Indian and Columbus day decorations. Each grade is keeping up with the course of study and also doing a great deal of supplementary work. The spelling horse race has proved to be very effective in raising the spelling grades.

"Wednesday night, October 27th, at 8 o'clock the pupils will present a program. This program is to be held at the Plattsburgh library. Will you please tell your friends about the program and invite them to come?"

Supreme Court Docket Crowded This Session

American labor Wagner act challenged

Supreme Court building

Boulder dam Power program protested

Stock Exchange SEC under scrutiny

Current session of the supreme court promises to be another epochal one. More than 500 cases are on the docket, many of them involving important New Deal measures. Three of the most vital issues scheduled for scrutiny by the court include the securities and exchange commission and the Wagner labor act, both of which have been challenged

as to the scope and nature of their authority, and the federal power program which has been protested by private utilities which claim that federal financing cannot constitutionally be granted to a publicly operated utility which is in competition with a private power development. Other test cases equally important are scheduled.
