

Railroad Heads Prepare a Two Point Program

Will Present Plan to President Roosevelt on His Return Today to Washington.

WASHINGTON, April 2 (UP)—Railway executives and labor leaders today drafted for submission to President Roosevelt Monday a two-point program to relieve the financial distress of railroads.

Their program is expected to differ materially from the unrevealed recommendations made to Mr. Roosevelt by a special committee of three interstate commerce commissioners, headed by Chairman Walter M. W. Splawn. Neither railway management nor labor considers the Splawn report the complete solution to their problem.

It was understood that the executive-labor program will stress two points:

1. Restoration of credit to railroads so that they can catch up on long deferred maintenance, thus creating business for the heavy goods industries.

2. Reduction of heavy debt structures through voluntary reorganization of railroads particularly those systems near bankruptcy; legislation to curtail power of minority creditors, who now are able to delay debt reduction programs advocated by majority creditors.

Proposals of the railroads for wage reductions were dismissed, it was understood after brotherhoods made it plain they would call a nation wide strike before agreeing to pay cuts.

CRITICIZES GOVERNOR

KANSAS CITY, Mo., April 2 (UP)—Of all the democrats "Boss" Tom Pendergast has helped into office only one failed to congratulate him on his recent Kansas City election victory. That one was Governor Lloyd Stark. In an unusually talkative mood, Pendergast let it be known to newsmen that he did not like it a bit.

In no uncertain terms he "told off" the man who he said had carried his political favor, yet failed to make good on his political debts. Stark's appointments, it has been known, have not always met with the Pendergast sanction.

"Let me say," said the boss, "that he will have to live with his conscience the same as the rest of we humans. If his conscience is clear, I know mine is, I now say let the river take its course."

To which the governor responded: "I am perfectly willing to let all of the people of Missouri be the judges of my honesty and integrity and my actions and my democracy." Pendergast responded with: "I am perfectly willing to let the democrats who voted for Governor Stark be the judges."

TENNIS STAR OPERATED ON

TAKE CHEERFUL VIEW

BOSTON, April 1 (UP)—A survey of nineteen business depressions in the United States since 1857 "shows quite clearly that present decline" has now gone about as far as usually experienced even in periods of severe depression," the American Institution of Finance reported today. The current decline has already exceeded in extent the declines seen in all previous periods of minor and moderately severe depression," the report said, "except in 1929 to 1933."

CHURCH INTERIOR COMPLETED

The First Christian church is just completing one of the most extensive redecorating and renovating campaigns that it has had for several years. The interior of the auditorium has been all redecorated, walls being attractively papered and the ceiling painted, the two being in tones of cream and buff and which blend attractively. The painting and papering has been carried out by Charles Fulton and Albert Sedak very artistically.

A new oak floor was also placed in the auditorium by John Alwin and his staff. These improvements with the changes made in the basement of the church in the past year, makes the plant one of the most attractive church buildings in the city.
