Fred Hirz, who is a democratic candidate for sheriff and John Blotzer, both of Plattsmouth, were in Avoca last Tuesday calling on the voters of this vicinity.

Mr. and Mrs. Jordan Kokjer, who have been visiting his parents here since the close of his school term at Franklin, Nebr., went to Crete last week for a visit at the home of her parents.

Edward Shackley and daughter, Mueller, departed last Saturday for Northboro, Iowa, where they visited for most of the week at the home of another daughter, Mrs. Charles Parmenter and family.

J. M. Frieselman and wife, who formerly resided here but now live at Sioux City, visited over Sunday and Memorial day in Avoca, being guests at the home of Mr. and Mrs. William Maseman.

Frank Dean and family of Murdock were guests last Sunday and Memorial day at the home of Mr. and Mrs. Elmer Corbin. All went to North Branch to look after the decoration of the graves there.

Mr. and Mrs. George Maseman and their son Fred and daughter Jeanne, all of Lincoln, were spending last Sunday with friends and relatives in Avoca, being guests while here at the Henry Maseman home. They returned home Monday.

Prof. Sotley, the new superintendent of the Avoca schools, has rented the house known as the Thomas property, in which Mr. Jensen resided, and moved his household goods to Avoca, where they will be stored for the time being, as the family will not come till later.

Gust Lang was shelling and delivering corn last Tuesday to the elevator in Avoca. The following day he was shelling at the home of Henry Dedenhoff. A number who had planned to shell have been held back on account of the rains and the next few weeks will see considerable corn disposed of.

A niece and nephew of Mr. and Mrs. Wm. Gollmer, who reside at Hamlet in the western part of the state, with the close of their school work there are entering the State Normal school at Peru for a summer course, and came this way to pay a short visit at the home of their aunt and uncle before taking up their school work.

Attended Race in Indianapolis  
A party of the younger men of Avoca, composed of John Marquardt, Henry Dankliff, Paul Dreurey and Sterling Baier, departed last Saturday for Indianapolis, where they attended the annual speedway race on the board track, witnessing the new record that was made as well as the killing of a driver and spectator as a wheel flew off one of the speeding cars. The boys say the country between here and the Indiana capital city looks good and crops are most promising.

Work Halted on Highway  
The crew of workmen who were engaged in applying the finish coat of oil to the highway were stopped last week, when inspectors found the oil received for the job was not of the proper grade. The crew went to Murray and Plattsmouth to finish some black top stretches of road at these two points and expect to be back here as soon as a supply of the right grade of oil for the work here can be secured.

Complain of Much Rust  
Farmers of this vicinity are complaining of the over abundance of rain which they say is causing rust on the wheat. It is of the red rust variety which the grain can stand much better than black rust. One of the farmers was telling of a white dog chasing a jack rabbit through his wheat field, and when the dog emerged from the field, it was red instead of white. Some clear weather and a little wind to stir the rapidly growing wheat foliage will go a long way toward remedying this defect, and anyway it is better to have a little too much moisture than not any as has been the case for several years past.

Visiting in Avoca  
Wendell Burchard, a cousin of Fred Marquardt, was a visitor in Avoca for a time last week, coming to visit with the folks here and to look for employment. He has just returned from Los Angeles, where he has been employed in an airplane manufacturing plant. He says there is a lack of work in the west at the present time, just the same as over the country generally.

Memorial Services in Avoca  
Memorial day services in Avoca included the regular service at the Congregational church together with the decoration of graves in the local cemetery by a committee of town-folk who were interested in seeing that this custom of many years which was brought to us by a group of southern women shortly after the Civil war and maintained for many years by the Grand Army members is not discontinued now that all of these old soldiers have passed on.

An abundance of flowers were placed on the graves of loved ones by relatives and friends and the cemetery presented a beautiful appearance.

CARPENTER BLASTS BYRAN  
SCOTT'S BLUFF, June 3 (UP)—Former Gov. Charles W. Byran didn't need the urging of the Bowker old age pension or any group to file for governor, Terry Carpenter said in commenting on the Bowker plan to draft Byran as an independent.

"That was his plan from the start," said Carpenter. "He fixed it some time ago when he intentionally killed my \$50 a month pension in order to try again to pass himself onto the taxpayer."

It really makes no difference whether Byran does or does not run, said Carpenter. "He'll get as many votes one way as the other. Nothing is quite so dead or stenchy so perfectly as a dead politician."

"I dare Byran to run in the primary against Gov. Cochran. If he runs I will guarantee to stay out of the primary race I'm sure this would show just how dead politically Byran really is."

DEATH AND BIRTH RATE  
LINCOLN, June 2 (UP)—Births exceed deaths in Nebraska by 9,056 during 1937. Dr. P. H. Bartholemew director of the state health department announced today. There were 22,256 births last year not including the still births and 13,200 deaths. A compilation by counties included Cass County 185 births and 175 deaths. Otoe County 278 births and 169 deaths. Richardson County 322 births and 168 deaths. Nemaha County 215 births and 121 deaths.

Watch Your Kidneys!  
Help Them Cleanse the Blood of Harmful Body Waste  
Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.

Symptoms may be nagging headache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder may be burning, scanty or too frequent urination.

## Camporee to be Held This Mon.-Tuesday

Boy Scouts of Arbor Lodge District Looking Forward to Pleasant Two-Day Outing Here.

This Monday and Tuesday, at Camp Wheeler, south of Plattsmouth, there will be held the Arbor Lodge District Camporee of the Boy Scouts, bringing 150 or more boys here from the towns of Nemaha, Otoe and Cass counties that have Scout troops.

The boys are due to arrive about 4 p. m. and continuing up to 7, if impractical to get here earlier. They will come in cars to the Murray corner, from which point they will hike to the camp, a distance of one and three-quarters miles, carrying their personal equipment and food the same as though going on an overnight hike, which is what a camporee really amounts to, with this difference, instead of one troop there will be ten or twelve, and inter-troop competition will be engaged in for camping honors.

The regulations prescribe that tents and heavy equipment may be taken into camp by auto.

On arrival at the camp, the different troops will be assigned camping sites, facing on a company street, and proceed at once with the erection of their tents and making preparations for their overnight stay, including the preparation of their evening meal. All camps are to be ready for inspection by 7 p. m. A possible 300 points can be secured based on the following: Condition of equipment; how carried; its completeness and the percentage of troop members present.

The day will close with a Council Fire, around which the troops will gather for an evening of competitive stunts, yells and songs. Taps will be blown at 10 p. m.

Tuesday morning, reveille and colors at 6 a. m., followed by cookcraft competition in the preparation of breakfast. Each troop may prepare additional food, but judging will be on bacon, scrambled eggs and cocoa. The noon meal at 12:15 is also to be judged as part of the cookcraft project. Again other dishes may be added to the menu, but the articles on which scoring will be done include hunter's stew, cornbread, hoe cake or twist on a stick and rice pudding. The total point score on this is 250.

Personal inspection comes at 7:45 a. m. 125 possible points. The final camp inspection with 520 possible points, based on condition of all camping equipment, kitchen, shelter, beds, etc., will be held during the early forenoon, followed by a program of six highly competitive field-events.

The total possible points a troop may make is 2255. Troops scoring 1825 or better will be rated "A," while those scoring 1350 or more will be awarded "B" rating. Anything over 675 rates "C."

The local troop committee will furnish in addition to its campsite, a goodly number of adults as guides and scorers for the different events, wood for cooking and campfire, a tank of water for dish washing and personal cleanliness, as well as provision for fire protection. Numerous citizens of the community are being contacted by E. H. Westcott, general camporee chairman to lend their aid to the committee in making this the first camporee of Arbor Lodge district a success.

The public is invited to visit the camp at any time, especially during the evening of the opening day when the Council Fire follows the evening meal.

A high standard of camping will be the foremost aim. Troops will be under close observation from the time of their arrival at the Murray corner, until the grounds have been

## WHICH FOOT IS YOURS?

Noted Foot Authority says every type of Foot CAN be comfortably fitted—in the proper shoe.

The man who has done more than any American individual to help America regain its feet (physically)—Dr. Wm. M. Scholl, says that there is really no foot that is too hard to fit—if the shoes are of the proper type and construction, and if modern, scientific shoe-fitting methods are employed. Here are some unusual types of feet.

There is the long, thin type of foot; the foot with a painful bunion; crooked, overlapping toes; the short, stubby foot; the weak foot or flat foot; the foot that has corns or tender toes; and there is the foot with the high arch. When ordinary shoes are fitted in the ordinary manner these feet do present a shoe-fitting problem, but such should not be the case, says this world famous Foot Authority who pioneered foot health thirty-three years ago.

These shoes will be offered at the same prices as in Dr. Scholl's Foot Comfort Shops in New York, Chicago, Los Angeles, and other big cities—\$7.75, \$8.50, \$9.50, \$11.00 and \$12.75.

We learn that this is the first event of its kind ever held in this city at any time and that in the interests of foot health and shoe-fitting satisfaction everybody who has any foot of shoe troubles should attend.

We are told that in addition to demonstrating the fitting qualities of Dr. Scholl's Shoes, this factory expert will also show how simple and inexpensive it is to obtain relief from common foot troubles merely by wearing or using the proper appliance or remedy. We would say that this is indeed a welcome event in our city. Let all of us in this community strive to get "back on our feet" too. Perhaps this is our big chance!

Demonstration in This City Thursday, June 9, at Fetzter Shoe Co.

In order to prove his point, Dr. Scholl has arranged to have his representatives direct from the Chicago factory, visit the above store in order to conduct an all day shoe-fitting demonstration and display of Dr. Scholl's Scientific Shoes.

Every type, size and width (men's 6 to 14—women's 2 1/2 to 13; widths AAAA to EEE), shoes in proper size for children and growing girls will be included. In all, there will be 622 fittings. Advance Fall and Winter styles will also be shown. Fittings will be by X-ray. Stepping on this device and looking at your feet through the visor, you can see through your shoe not only the bones of your feet and their position, but the tissues as well. Other methods of scientific shoe fitting, perfected by Dr. Scholl, will also be used.

Dr. Scholl's Shoes are designed on

policed after the noonday meal Tuesday and the command is given to "break camp."

Bulletins have been sent out by the local committee with final instructions on how to reach the camp and other last minute details, and all are looking forward to a most enjoyable two-day outing.

The camporee will be under the direct supervision of Willis V. Elliott, associate Scout executive of the Cornhusker Council, who comes here from Lincoln early Monday morning to complete the final arrangements.

As stated above, he will be assisted in grading the troops by local adult merit badge counsellors and others interested in boys and outdoor life.

Scoutmaster Raymond Larson reports 19 Scouts from Plattsmouth troop No. 364 have signified their intention of attending the camporee next Monday and Tuesday. According to present arrangements, six of these boys will occupy shelter (pup) tents and the remainder will occupy larger tents.

For convenience and organization, the Scouts who will attend the camporee have been divided into three provisional patrols just for the duration of the camp. After the camp, the boys will continue in their old patrol organizations.

The composition of the three provisional patrols is as follows:

First Patrol, Corbin Davis, patrol leader; Nason Babbitt, Gerald Hennings, Billy Robertson, Jim Brown and Bob Webb.

Second Patrol, Ed Hiber, patrol leader; Bill Cloldt, Lars Larson, Billy Hula, John Soennichsen and Keith Dashner.

Third Patrol, Johnny Morris, patrol leader; Cary Marshall, Richard Hitt, Raymond Evers, Sanford Short, Ralph Hilt and Don Martin.

The Scouts will meet at Ofc's Filling Station at 3:00 p. m. Monday, each with personal equipment and food, properly arranged to carry with them on their march from the Murray corner to camp. Cars will be provided to transport them to the Murray corner as well as haul in the tents and heavier equipment as the regulations permit.
