Harking Back to By-Gone Days Years ago when Albert Zierot was residing on the farm (before autos became our chief mode of conveyance) he maintained a carriage and drove in style. Later the carriage gave way to more modern methods, and has not been used for many moons, but is still in fair state of preservation, and was recently traded to Paul Stock on the purchase of a new side delivery rake. Mr. Stock brought the carriage to town and left it standing outside his place of business. The young boys of the community, always full of life and activity, have been making good use of it as they take buggy rides in the ancient vehicle. While some ride there are others who have to grasp the tongue and pull and still others who have to get behind and push, but by taking turns they have been able to keep the vehicle going pretty steadily without a "sitdown" strike on the part of the workers. Thus this ancient vehicle that was once the pride of its owner, is serving the second (and perhaps third) generation.

### CLEANED SCOUT CABIN

From Saturday's Daily— A group of American Legion Auxiliary members aided by Boy Scouts, spent most of the day yesterday at Camp Wheeler, where they gave the Scout cabin a thorough cleaning—the first of this kind since it was opened in 1934. The Arbor Lodge district camporee is to be held there Monday and Tuesday, and although the troops will neither use the cabin for preparation of meals or sleeping, they will be in and out a great deal and a few of the adult supervisors may even sleep there. Telephone service has been resumed for the summer season and as a result of the ladies' clean-up work the rooms are in apple-pie order for the big event Monday.

A truck load of wood was transported to the grounds today, for use of the different troops in cooking the three meals they will eat there, and for Monday night's council fire. The city's sprinkler wagon, to which faucet connections were recently made for use at the cemetery, will be sent out Monday to provide water for dish washing and personal cleanliness, but drinking water will be carried in milk cans from a nearby spring or well.

Final details for the camporee have been worked out, and if the weather is favorable, a large attendance is expected. The public is invited to visit the camp any time after 5 p. m. Monday up to the time of breaking camp at 2 p. m. Tuesday. An especially interesting council fire program will be held Monday evening from 8 to 10.

Visitors may drive into camp, but are requested to turn east off the paved highway at the corner a mile north of the Murray corner where the troops unload, going to the schoolhouse on the old telegraph road, thence south a hundred yards past the Rock Creek bridge, turning left into the camp grounds.

RETURN FROM HOSPITAL Mrs. Charles Reuner has returned home from the Methodist hospital where she has been for some time. She has undergone a quite serious operation and is now improving but still far from well.
