One of the features of the demonstration was setting the car to run in a circle and allowing it to operate minus a driver. Another stunt in connection with their demonstration was the pulling of a loaded grain car on the Missouri Pacific siding, a feat that no other car could perform. It will be recalled that the Carter car featured a disc drive that permitted of a wide speed ratio, running from almost nothing up to the top speed for cars of that day, and had lots of power on its slow speed, often being put to such tests as climbing steps, etc. A few years later that principle of transmission was discarded and the Carter Car company like many others that pioneered in automobile manufacture went out of existence. **WANTED**  
As announced a few days ago, the Korn Karnival Committee would like to pay honor to the largest family in Cass or Sarpy counties as one of the features of this year's Korn Karnival. In order to do this, we must have the names and addresses of such families at once so we can get this on our program. Send names to C. C. Wescott, chairman Program committee, Plattsouth, Nebraska.

In order to qualify, these families must be:  
1st—Monogamous, that is from one father and mother.  
2nd—They must be present in person at the Korn Karnival on Friday afternoon, September 23.  
3rd—It is not necessary for both father and mother to be living, but if living both must be present. However, either the father or the mother must be living and present.

4th—Grandchildren will not be counted, but will be recognized if present.  
The trend toward smaller families and no families emphasizes the importance of the large family idea which dominated the early settlers of this western country and is still the fashion in some of our rural communities. Some of us think it is a big job to rear and educate one or two kiddies, but all honor to the father and mother who can feed and dress and buy shoes for eight, ten or a dozen children. There are, undoubtedly a number of such heroes within the boundaries of these two counties, and old King Korn IV would like to know who they are and give them the recognition they deserve.

If you belong to such a family or if you know of any such in Cass or Sarpy county, please let us have the name and address.  
PROGRAM COMMITTEE.
