

## New Coach is Guest of the Rotary Club

Bion Hoffman Talks of Athletic Work in Public Schools—David Fowler Gives Violin Number.

The Rotary club Tuesday had as their guests two of the members of the high school faculty, who have come into the city system this fall as instructors. These were David Fowler, music instructor and Bion Hoffman, who this week took over the coaching work at the high school.

The members of the club were very much pleased to have the teachers present and who contributed a real worthwhile program.

Mr. Hoffman discussed his line of work in the school, stressing particularly that of football with which the program is now busily occupied. He discussed the game as a whole and its effect on the character of the young men and boys participating in this athletic sport as well as up-building of the youth physically and making them more mentally alert. He also discussed new changes in the rules covering passing as well as describing for the benefit of the club members the formations and particularly that of the single wing and double wing back formations so often used in the game. The talk of Mr. Hoffman was very much enjoyed and with his alertness and clear understanding of the game, all felt that the athletic program of the school was in excellent hands.

David Fowler, musical teacher of the schools, also was presented and as his part of the program gave a very beautiful violin number, Mrs. L. S. Devoe being the accompanist. Mr. Fowler in his first month of the school work has demonstrated his ability in handling the musical section of the high school work and maintaining the high standard that has characterized this part of the educational program.

This being the last meeting of the month the two high school students who were members of the club for the month of September, sang their swan song. These are Ronald F. Rebal, senior and Allan White, junior. Both young men gave excellent talks and a review of their impressions of Rotary and its fine idealism in international affairs which is so much needed today in a troubled world.
