John Kunz held a sale of his farming equipment and will move to town to reside in the Spencer Ledger home.

A group of Plattsmouth Legionnaires came over Thursday evening to attend the scheduled meeting of the Elmwood post and the members here to the 12th district convention at Plattsmouth November 30.

The Methodist Ladies Aid Society meeting last Tuesday afternoon at the home of Mrs. Orville Quellhorst was well attended. The business session was followed by a pleasant social hour, climaxed with the serving of delicious refreshments by the hostess.

Donald Kelly was in Lincoln one day last week securing some supplies for the restaurant which is operated by his mother, Mrs. Thessie Wall, and which the son has chosen to name "Mom's Pantry." He was accompanied by Henry Mollen who secured some supplies for his shoe shop while in the capital city.

All present enjoyed the meeting and the luncheon that followed.

Visited at Central City Mr. and Mrs. Jay Stanton enjoyed a good night's rest and early Sunday morning drove to Central City, Nebraska, where they were able to kill a few pheasants. The return trip was made by way of Columbus where they inspected the power plant and lake, as well as looking over the town of Columbus itself, arriving home just before the sun went down and darkness spread itself over the countryside.

Several Attended Convention The Elmwood fire department met last Monday night and discussed various subjects of interest as well as making arrangements for whoever desired to attend the state convention at Fremont Tuesday and Wednesday. It was stipulated that the sum of \$3 per day be allowed those who went and returned home the same day and \$4 per day for those who went and stayed over night. A number from here went for one

or more days, among them Loran Dennis, Donald Parish and James Lytle, who took in both days of the meeting, also another carload who drove up Wednesday to spend the one day only.

They speak well of the hospitable treatment accorded them at Fremont, where a new municipal auditorium has made possible the holding of large gatherings of all kinds.

Most Pleasant Pheasant Hunt A party composed of Charles West and son Kenneth, Ralph Gabel, Ernest Brockman, Eldro Patton and Arthur Beasley, the latter of Lincoln, left here at 10:30 Saturday night after the closing of the West barber shop and drove to Coleridge, in the northern part of the state to engage in hunting pheasants on the opening of the season Sunday morning. Charles Melvin, a brother-in-law of Charles West, resides in Coleridge and is also engaged in the barber business there. He had gone home pretty well tired out after closing his shop Saturday night and had not expected to be routed out, but on arrival of the Elmwood group they connived with the town marshal to get him down town at the early hour of 4 o'clock Sunday morning. From Coleridge they all went out to the hunting grounds reach there just at daybreak and in time to secure a supply of the birds.

Mr. West was so pleased with the trip that he arranged to take another one the latter part of the week. Just after the departure of Charles West and son Kenneth with a party of pheasant hunters Saturday night, and with Shorty in Lincoln, Mrs. West, who was home alone, heard the gate leading to the chicken pen click, followed by a stirring among the hogs in a pen at the back of the house and later the chickens making a lot of noise. Hastening to the door, she called out to the night watchman, who came running and frightened the chicken thieves away, but not without some loss, for it was found they had carried away four fine pullets.

OIL CONVERSION OF COAL IS MADE IN TWO HOURS

COLLEGE PARK, Md. (UP)—High Grade American bituminous coal can easily be converted into oil, Dr. H. H. Storch of the Bureau of Mines reported to the University of Maryland college of engineering.

The change, he said, is made under pressure in a reaction vessel. In about two hours, approximately 75 per cent of the coal is converted into a heavy oil. The other 25 per cent is released as gaseous hydrocarbons. He said the Bureau of Mines planned to experiment with lower grades of coal to see if they could be reduced in a similar manner.

Although America is not faced with an immediate oil shortage, Storch said United States coal deposits were much more extensive than oil deposits.

He said plans for breaking down coal would be particularly valuable to some European countries which have few natural oil reserves. In time of war, when oil importations would be blocked, Storch said these countries could turn to coal for lubricants.

Motor Industry is Calling Many Back to Work

Henry Ford Will Call for 35,000 of His Men to Return, Say Detroit Reports.

DETROIT, Oct. 22 (UP)—Henry Ford may call 35,000 men to jobs within a few days, bringing his huge plant to peak production and the automobile industry generally to its highest level of the year, trade observers said today.

About 50,000 men are at work now in Ford's River Rouge plant, according to Ward's Automotive Survey. With final assembly of 1939 models already started, it was believed Ford production would reach full stride next week. The plant operates with 85,000 workers in peak production periods.

New stimulants were being injected into the rising automobile industry. Leaders were confident that the industry, in the past a reliable barometer of general business conditions, again was setting the pace for general business recovery.

With Ford at full production, the industry's "big three" will have lifted production to levels in the neighborhood of those of the "golden era" before 1929.

Last night the Chrysler Corporation, which this week called back 34,000 employes to start work on 1939 models, announced salary increases for between 10,000 and 11,000 office workers receiving \$300 a month or less. The increases are restoration of pay cuts made last March 16.

It was the second encouraging move in the industry of the week. Earlier, General Motors corporation announced jobs for 35,000 more workers in its 69 factories and restoration of cuts for all salaried employes receiving less than \$300 a month.

At the same time Ward's reports disclosed that automobile production this week reached the highest level since Dec. 18, 1937. Alfred H. Ward, president of the trade publication, estimated production at 65,630 units as compared with 50,540 last week. He said constantly rising orders at all factories had caused the spurt.

At the Plymouth factory, 80,000 unfilled orders were on the books. Other concerns also reported unfilled orders and dealers throughout the country were clamoring for cars. Many autoists, it was reported, are buying cars unseen.

Ward predicted that this year from 3,500,000 to 4,000,000 cars and trucks would be put up for sale.

General Motors led the parade in the back-to-work movement sweeping the industry. Re-employment of 35,000 will bring that corporation's total employment to 295,000 workers by November 1.

Chrysler, calling back 34,000 men, increased production schedules 20 per cent. About 54,000 men in Chrysler plants were supplying orders for 137,000 new 1939 cars.

Last night, President K. T. Keller of Chrysler announced. "In view of the anticipated increase in the volume of general business and the favorable reception of the corporation's models for 1939, the following revisions in salary compensations will be made effective as of Oct. 31 1938, and to cover the two weeks just preceding; those employes prior to March 16, 1938, who were compensated on a basis of \$300 a month or less, will be restored the salary cuts made effective on that date."

Paris plants in other parts of the nation naturally were affected by the production movement. In Toledo, for instance, 51 major plants had added from 100 to 700 workers weekly for the last six weeks.

LINCOLN, Oct. 20 (UP)—Nebraska hunters have shot an estimated 200,000 ducks and 100,000 pheasants since the season opened last weekend, Secretary Frank B. O'Connell of the state game commission said today.

Pearce of Kansas State college was elected president of the Kansas-Nebraska section of the society for the promotion of engineering education at the concluding session at the University of Nebraska today. JEWISH REFUGEES NEED AID

PRAGUE, Oct. 20 (UP)—American Minister Wilbur Carr has forwarded to refugee organizations here an appeal from 200 Jewish refugees who have been camping on a strip of land between the German occupation area and Czechoslovak territory and are nearly starved, it was understood today.

The refugees sent their appeal by a Czech truck driver who took them blankets and canned goods four days ago.

They were Sudetenlanders in the area ceded to Germany. They were not molested by German troops who occupied the area but were expelled by Austrian Nazi storm troops who took over police work after the troops left. Czechoslovak authorities said it was impossible for them to admit the refugees who are now German subjects. They have been living in a ditch in "no man's land." One man became demented because of the hardship. One woman is expecting a baby at any time.

TAKE OVER CONTROL

BERLIN, Oct. 21 (UP)—German civil authorities took over control from the army today of the 10,885 square miles of Sudetenland ceded by Czechoslovakia.

Adolf Hitler, back at his mountain retreat near Berchtesgaden after a chief visit to Linz, Austria, telegraphed Gen. Walther Von Brauchitsch, commander in chief of the army, expressing thanks for the army's completion of the job of occupying the area.

Brauchitsch, in turn, ordered the military administration of the area terminated and thanked Konrad Henlein, Sudeten leader, for the welcome accorded the army of occupation.

It was announced that all decrees promulgated under the army administration in the area would remain in force.

CLOSE BECAUSE OF NEW LAW

CHARLESTON, S. C., Oct. 21 (UP)—About 750 persons were made idle today when three firms announced they were closing because of inability to comply with the new wage-hour law which goes into effect next

F. G. Davies, vice president of the Tuxbury Lumber Co., said his plant, employing 300, has stopped operations for at least 30 days. He said resumption depended on whether new developments arise in the wages and hour law.

The Charleston Bagging Mill, employing 400 announced it had suspended operation. The third closing was the Hirsch company, a plant for reworking used bags and bagging. The Hirsch company employed about 50 persons.
