

Death of Mrs. Joseph Lake on the West Coast

Former Plattsmouth Resident Passes Away Suddenly From a Heart Attack.

The death of Mrs. Joseph Lake, Sr., 73, a former Plattsmouth resident, occurred on Christmas night at her home 316 South 41st street, Tacoma, Washington, word received here by Mrs. Henrietta Ofe, an old neighbor, states.

Mrs. Lake had spent the Christmas holiday with her daughter, Mrs. Will Streight and family, who also live in Tacoma, going home in the early evening and she apparently had passed peacefully away in her sleep.

The Lake family made their home in Plattsmouth for many years, Mr. Lake being engaged as a foreman in the coach shop of the Burlington here, leaving here some thirty-five years ago for the west coast. While here they resided in the southeast part of the city near the home of the Ofe family, Mrs. Ofe was a guest at the Lake home two years ago while in the west and was greatly shocked to learn of the passing of the old friend.

Mr. Lake preceded the wife in death some seven years ago, leaving to mourn the death of the mother, a family of seven children.

The funeral services were held on Wednesday at Tacoma.

Later in the evening Santa Claus came with a well packed sack, gave little ones a toy and gave everybody candy. Meat Consumption is Increased 3 1/2 lbs. a Person

128 Pounds per Capita Compared to 124.4 Last Year—Lower Prices Bring Increase in Sales.

CHICAGO, Dec. 30 (UP)—Did you eat your extra 3 1/2 pounds of meat during 1938?

If you didn't it wasn't the fault of the nation's farmers and meat packers.

This year America's per capita meat consumption averaged 128 pounds as compared with 124.4 last year. Total 1938 meat consumption amounted to about 16,500,000,000 pounds compared with about 16,000,000,000 pounds in 1937.

Other year-end meat trends noted today by William Whitfield Woods, president of the Institute of American Meat Packers:

1—Wholesale prices of most meats are substantially lower than a year ago.

2—Upswing in meat production.

3—Farm prices of livestock during recent months have remained at relatively higher levels than farm prices of grains, cotton and cottonseed, fruits, truck crops and dairy products.

4—Farmers' income from meat animals in 1938 approximated the sum of \$1,900,000,000.

5—Meat exports increased from 77,000,000 pounds in 1937 to an estimated 107,000,000 pounds this year; lard exports from 137,000,000 to about 208,000,000 pounds, while meat imports declined from 170,000,000 pounds in 1937 to approximately 135,000,000 in 1938.

"With the exception of some grades of beef and of some smoked pork products, the wholesale prices of most meats are lower now than they were a year ago," Woods said, pointing out that pork loins are about 12 per cent lower, bacon 20 per cent lower, lard 18 per cent lower, veal 10 per cent lower and dressed lamb 15 per cent lower.

He asserted that notwithstanding the lower level of 1938 livestock prices, farmers have been receiving "relatively more for their meat animals during recent months than have producers of numerous other farm products, especially crops."
