Sound Logic

Do not be deceived by buyers of Cream at Cream Stations who tell you they set the price for Cream. We have no cream stations and therefore have no station expense or transportation cost. When we buy your Cream the amount you are paid (always a top price) is our only cost. We have the same overhead if we churn a large or small amount each week, therefore it is very plain that the more cream we receive the more money we can pay for your cream. Help us to operate at capacity by bringing us more cream, and we can pay you still higher prices for it.
