# Chamber of Commerce Drive for Members

Important to Development of City That All Classes of Citizens Find Place of Duty.

The drive for membership in the senior Plattsmouth Chamber of Commerce is now being launched and the committee in charge is finding a most favorable reaction to the appeal for membership.

With a membership united in effort the city's best interests can be materially advanced and it is with this in view that the drive is now being handled.

The committee has prepared ten reasons for membership which points out in a clear cut manner just what the Chamber of Commerce means to the community:

**First: Its Purpose—**  
 The Chamber of Commerce is organized to forward those public interests, civic and commercial, which have long been neglected because "everybody's business is nobody's business." The sole object of the acts of the Chamber of Commerce is the public's good.

**Second: Its Membership—**  
 Because membership in the Chamber of Commerce is open to everybody without distinction of any sort—a democratic institution in the best sense of the word: The town meeting restored.

**Third: Its Method—**  
 Free speech and open-handed dealing are employed on the public questions large and small, which arise in the community.

**Fourth: Cooperation—**  
 Membership in the Chamber of Commerce shows your sympathy with an organized effort to better of the city, and life within it. The things that are worth doing are brought to successful issue, only through united demand and interest.

**Fifth: Your Duty—**  
 If a man can afford \$5 to join the Chamber of Commerce, it is a public duty to make that contribution for the development of Plattsmouth.

**Sixth: Reacts on You—**  
 A man in business is broader and more successful when he has a more active interest in municipal affairs, civic and commercial.

**Seventh: A Chance to Work—**  
 As a member of the Chamber of Commerce you are afforded an opportunity to work for the conditions you have, as a good citizen, long hoped for: You can help things happen.

**Eighth: You Get Out What You Put In—**  
 If one gives his best efforts he is justified in looking for results favorable to himself, material and ethical. He profits in dollars and cents through the increased prestige of his city; but best of all in personal satisfaction at having come out of his own shell of self-interest and broadened his horizon.

**Ninth: For Future Generations—**  
 He is a small man, if not mean, who cares only for his own success and for the prosperity of his own generation alone. Therefore, the broad-minded citizen seeks to ally himself with those forces which are building the city of the future, for his children, and his children's children.

**Tenth: In Short—**  
 The Chamber of Commerce movement ought to prove a big impetus to the growth of the city in every phase of its life. Don't you want to have part in this?

**PARKING LOT SERVICE**  
 The H. M. Soenichsen store announces in their Black and White ad this week parking lot service for patrons. The parking lot at the rear of their store will be lighted, with a paid watchman on duty, Wednesday and Saturday nights.

A good number of cars can be accommodated in this parking lot, relieving some of the congestion on the streets these two busy nights of each week.

The city also maintains a parking lot at 7th and Main, a little farther removed from the business section. No parking charge is exacted at either of these convenient parking spaces.

**VISIT AT FRANKLIN**  
 Attorney W. A. Robertson and Robert M. Walling, of the Thomas Walling Abstract Co., are spending a short time at Franklin in the southwest part of the state on a combined business and pleasure trip. Many years ago in the eighties the Franklin Land Co., was organized and a great deal of land sold and interest raised through eastern Nebraska over the prospects for the future in the comparatively new country near the Republican river. Among those interested in land there was James M. Robertson, who had not long before arrived from his native land of Scotland to become interested in the rock and quarry business as well as Thomas Walling, a young man from Wales who had come to the new world to seek his fortune. Both of these men located at Franklin for a time but Mr. Robertson soon returned to Lincoln and later at Louisville to engage in the sand and gravel business. Mr. Walling, however, remained at Franklin for a longer time until locating at Plattsmouth. Their sons find the visit at Franklin interesting for the sentimental touch of the one time associations of their fathers.
