MEN LOVE GIRLS WITH PEP
If you are peppy and full of fun, men will invite you to dances and parties. BUT if you are cross, listless and tired, men won't be interested. Men don't like "quiet" girls. When they go to parties they want girls along who are full of pep. So in case you need a good general system tonic, remember for 3 generations one woman has told another how to get "smiling thru" with Lydia E. Pinkham's Vegetable Compound. It helps build up more physical resistance and thus aids in giving you more pep and lessens distress from female functional disorders. You'll find Pinkham's Compound WELL WORTH TRYING!
