APPROVE MONEY TO FARMERS

WASHINGTON, May 4 (UP)—A senate appropriations subcommittee today approved additions totaling \$338,000,000 to the agriculture supply bill to provide "parity payments" to farmers and for distribution of surplus crops.

The committee voted \$225,000,000 for parity payments and added \$113,000,000 to the \$90,000,000 fund already available for distribution of surplus crops.

In addition the group recommended that the senate suspend the rules to consider a proposal by Senator John H. Bankhead, D. Ala., for a cotton export subsidy. The rules must be suspended to permit consideration of legislation on an appropriation bill. The house had turned down demands of farm state representatives for increased benefits.

Crescent Rolls

RICH little butter rolls like these are always a luxurious addition to any menu. When made into attractive crescent shapes, family and friends will vow they were made by an artist as well as an excellent cook. The picture shows how easy the process is. A salad luncheon is complete if Crescent Rolls are on the menu.

DOLLARS MUST ALSO FIGHT

WASHINGTON, May 5 (UP)—The senate military affairs committee today approved a bill to draft dollars as well as men in the event of war.

The measure introduced by Senator Josh Lee, D., Okla., would authorize the president to take a "wealth census" of the country in event of an emergency in which draft of manpower was involved and to classify all citizens according to wealth.

If the need for war funds arose the treasury would be empowered to issue fifty-year bonds. Each person whose net wealth exceeded \$1,000 would be required to purchase the bonds on a percentage of wealth basis along the lines of the income tax scale. The bonds would bear 1 per cent interest.
