LIFE AND DEATH

In Memory of Mr. Wm. Highfield and O. D. Gapen, Deceased

Life is so uncertain that it may pass away too soon,
Death seeks it by day, night or by the glittering of the moon;
Life like other earthly living beings, may so quickly vanish,
Death disconnects the cord of life, and then we must perish.

The life knows not the time when the reaper shall call,
But when the summons arrive, we must go, one and all;
The length of time that we live, "Our God" is the timekeeper,
When our work is completed, He sends for us the grim reaper.

The fruits of our life are not valued by the time we live,
But by our charitable deeds, how we forget and forgive;
Life upon earth is the forerunner of another life beyond,
Where eternity never ends, a place where greater happiness is found.

A new life brings happiness to humanity of all mankind,
Death again brings sorrow and grief to those left behind;
Life is our hope which propels us to strive and carry on,
Death is the message to those left behind, when we are gone.

Our sympathy to you all is most heartily extended,
In a time when your hearts in grief and sorrow are blended;
We hope your life shall be filled with new vision and gleam,
For mortal earthly life is only a hope and a lingering dream.

Msgr. Adolph Mosler Honored on 38th Jubilee

Former Pastor of Holy Rosary Church in Plattsmouth Tendered Party Sunday Evening, July 9

From Friday's Daily—

Today, July 14 marked the thirty-eighth anniversary of the ordination of Rt. Rev. Monsignor Adolph M. Mosler, V. F. V. G. former pastor of the Holy Rosary church at 1610 Pearl street and now pastor of the St. Patrick's church at Havelock. The occasion was marked in a fitting manner with a high mass celebrated by Monsignor Mosler at the St. Patrick's church in the presence of a large number of his congregation.

Monsignor Mosler made his theological studies in Louvain, Belgium, and was ordained there July 14, 1901. His entire life as a priest has been spent in the Lincoln diocese. Monsignor Mosler came to Plattsmouth to serve as pastor of the Holy Rosary church on June 18, 1936 from Beatrice and stayed fifteen months. During his pastorate here Very Rev. Adolph Maria Mosler was elevated to the monsignori on Sunday, April 25, 1937. He was appointed vicar general of the Lincoln diocese on November 9, 1932. Monsignor Mosler was a prominent figure in this city where he resided only a short time. While here he was active, not only in the formation of church organizations, but in the civic organizations as well. During his stay in Plattsmouth he was a member of the Rotary club and was a priest well liked in this city. Monsignor Mosler left his pastoral duties at the Holy Rosary church on September 10, 1937, and was succeeded by Rev. Joseph R. Sinkula, who has served in that capacity since that time. Monsignor Mosler was appointed by the Rt. Rev. Louis B. Kucera, bishop of the Lincoln diocese, to serve as pastor of the St. Patrick's church in Havelock.

The St. Patrick's church parishioners at Havelock tendered a party for the Rt. Rev. Monsignor A. M. Mosler Sunday evening, July 9, on the church lawn to celebrate the 38th anniversary in the priesthood. Today was the anniversary date, but because of the party that the Altar Society ladies of the church were sponsoring, the celebration was held last Sunday. Songs were sung by the choir and Monsignor Mosler gave a talk. Refreshments were served to those present, and a purse was presented to the prelate.

REVEALS PLAN FOR EXTENSION OF CORN LOANS

Cass county farmers will have the opportunity to extend the loans on corn they have under government seal, announces Mr. Gausemer, chairman of the county agricultural conservation committee.

Secretary of Agriculture Wallace has announced plans for an extension of the loans for a 12-month period, from August 1, 1939, the date on which the loans are originally due, to August 1st, 1940. The extension will apply to any farmer now having a loan on 1937 or 1938 corn.

When approved, the loan extension will affect 73,128 bushels of Cass county corn of the 1937 crop resealed at 57 cents per bushel last fall and 334,750 bushels of the 1938 crop sealed in the county last fall and winter under the 57-cent loan.

To encourage farmers to hold their corn during the 12-month period, the program provides for the payment to farmers of 6 cents per bushel if they deliver corn in payment of the loan at the end of that time. If the price of corn is higher than the loan rate, plus carrying and storage charges, and farmers redeem the loans, they will not receive the storage credit, but in effect will receive it in the higher corn price.

A special provision is being made for the farmer who may find it necessary to provide additional storage space on his farm by offering the 6-cent charge in the form of an advance at the time the loan is renewed. This advance must be used for providing corn storage facilities, and it will be in the form of an additional lien against the corn.

Corn of the 1937 crop must be stored as shelled corn. Farmers may store shelled corn in approved bins on their farms, or make agreements to store it in a local elevator in the community in which the corn is produced.

Farmers will have until October 1, 1939, to extend their loans. No deliveries on corn which is not resealed will be accepted in payment of existing loans until September 1, 1939, or until such time as the size of the 1939 corn crop can be determined.

All corn eligible for a loan must be grade No. 3 or better, and be stored in suitable storage cribs or bins. When stored as shelled corn, it must not contain more than 13 1/2 per cent moisture, and when stored as ... corn, not more than 15 1/2 per cent moisture. All corn will be re-inspected and resealed.

Question Box

Q. Is it important for the farmer to keep the allotment notices?
A. Yes, because that is the basis on which the farm will be checked for seeded wheat.

MAIL 1940 WHEAT ALLOTMENTS

Individual farm allotments of wheat for 1940 harvest will be mailed to Cass county's 2,100 wheat growers July 20th, 1939 from the county agricultural conservation committee office.

Along with the allotments, will be a notice of each farm's wheat yield and premium cost per acre.

Mr. Gausemer, chairman of the county agricultural conservation committee, points out that these allotment notices are reaching farmers more than a month ahead of the earliest notices mailed under the 1939 farm program. Thus they will be in the hands of practically all farmers before their ground is prepared for 1940 wheat to be planted this fall. If a tenant anticipates changing farms in 1940 he should write to the county office for wheat allotment on land he is going to farm in 1940, giving the legal description of the land.

Farmers of Cass county joined those of other Nebraska counties and of the entire United States this year in bringing the enormous wheat supply of 1938 under control. By planting within their 1940 allotments, they will make a further contribution toward stabilizing the wheat supply and price situation in the United States.

Two payments will be available to farmers who plant within the wheat acreage allotment for 1940, a price adjustment payment and an agricultural conservation payment.
