## \$225 IN TAXES FOR EVERY TELEPHONE EMPLOYEE!

There is no necessary relation between taxes and employes—although, obviously, money spent for taxes cannot be spent for payrolls. But the ratio of \$225.00 in taxes to every person on our payroll is another measure of the magnitude of the tax burden which the telephone industry must bear.

### TAXES ARE 21% OF PAYROLL!

Payroll is the largest single item of expense, but taxation is growing rapidly. We do not object to reasonable taxes—but it is obvious that an increase of more than \$82,000 in this Company's taxes during the past ten years is taking money which cannot be used for payrolls!
