Adolph Wesch Writes from Old Home in Baden

Well Known Farmer Enjoying Visit With Relatives in Germany—Visits Black Forest.

Adolph Wesch, well known farmer residing west of this city, who is now on a trip to his old home in Germany, writes to friends under the date of August 23 from the old home in Baden, Germany.

Mr. Wesch states that he had been visiting with the parents at their home in an attractive village of the Black Forest region of Germany, a part of the country filled with much of the charm and romance of the old Germany of the past centuries. The parents are 73 and 76 years of age and celebrated their golden wedding anniversary just after the arrival of Mr. Wesch from the United States.

Mr. Wesch tells of the many beauties of the Black Forest, the great pine trees that tower from seventy to eighty feet and are so thick that the sun is seldom able to penetrate extensively into the forest and in the spaces where the trees are less thick antelope are to be found grazing.

The scenery along the Rhine is very beautiful, Mr. Wesch states, and the large castles centuries old, dot the hillsides of the historic river. In this section fruits and the vineyards are excellent and show great yields.

At the time of writing the letter Mr. Wesch was contemplating going the next week to Berlin where he would visit a sister and then go east through the Polish country to East Prussia to visit relatives of the Siemoneit family who reside there.

The developments of the days since the letter was written have, however, changed the plans of Mr. Wesch, as war is now prevailing over that part of Europe. Now the German army and the Poles are battling through the areas where Mr. Wesch was to make his journey and the French and British armies are now moving into the sections that threaten the Black Forest section.
