Deafness Can't Be Cured by local applications, as they can not reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that we cannot cure by taking Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c.

ON the plantation of John H. Roberts, near Robertville, S. C., there is a tree, if not destroyed by the turpentine hands, that does not touch the ground by six feet. A pine sapling, cut down at some period unknown to the oldest inhabitant, lodged on the limb of an adjacent tree. The growth of the tree and limb gradually closed around it until it became completely imbedded. Drawing its life from the tree, it grows and presents a luxurious appearance. All trace of the stump from which it was cut has long since disappeared.

From the Herald of Faith, St. Louis, Missouri, August 10, 1887:

Referring to Shallenberger's Antidote for Malaria, the business manager of the Herald of Faith would say, that he gave this medicine a personal trial, and was speedily cured of an unpleasant Intermittent Fever. He then recommended it to F. J. Tiefenbach, 115 1/2 Main street, and to police officer Meidinger, at the Union Depot, both of whom were cured by it of chills and fever of several years' standing. Recently his wife, after a fever of several days' duration, took a single dose and was perfectly cured. In view of these remarkable cures, and remembering how much money is spent for quinine, so little to be depended upon, and often so injurious, we can only wish that Shallenberger's Antidote would come into general use.

"This is the worst snap I ever struck," remarked the woodchuck when he got caught in a steel trap.—Binghamton Republican.

Must not be confounded with common emetic or purgative pills. Carter's Little Liver Pills are entirely unlike them in every respect. One trial will prove their superiority.

Talking of patent medicines—you know the old prejudice. And the doctors—some of them are between you and us. They would like you to think that what's cured thousands won't cure you. You'd believe in patent medicines if they didn't profess to cure everything—and so, between the experiments of doctors, and the experiments of patent medicines that are sold only because there's money in the "stuff," you lose faith in everything.

And, you can't always tell the prescription that cures by what you read in the papers. So, perhaps, there's no better way to sell a remedy, than to tell the truth about it, and take the risk of its doing just what it professes to do.

That's what the World's Dispensary Medical Association, of Buffalo, N. Y., does with
