FRANK DICKSON,
County Clerk.

IN AND AROUND THE TOWN.

Dr. Miller of Omaha has telegraphed the president his acceptance of the appointment to the position of surveyor of the port of Omaha. Dr. Miller will take possession of the office in about ten days. He will appoint Con Gallagher as his assistant.

THE MEANEST MAN.
 The meanest man in Havelock lives in Lincoln. During the recent cold snap he went out into his back yard, soaked his head in a bucket of water, let it freeze and then broke it off, just to cheat the barber out of a hair-cut.—Havelock Mechanic.

Best mixed paints, oils, brushes, etc., at Gering & Co's. drug store.

The citizens' ferry committee are having passes printed, which they will distribute to the people living on the other side of the river. This will prevent the ferrymen from being imposed upon by transients claiming to be residents of Mills or Fremont counties.

The Murdock Columbian says: "Deputy Sheriff Holloway was in town Tuesday, but Scott Haru is still shoveling grain from the lower part of the elevator. Zable is trying to break the wind on top of his store to keep the chimney from blowing it down. Babbitt is hunting a job. Doctor Madding went to join President Cleveland in a duck hunt. Sam Lehman was seen numbering the postoffice boxes, but went to count potatoes in the cellar. Carter stood his ground but turned white under the eyes but supposed he had been handling the paint brush. Deford declared up and down that he had never been there."

A full line of perfumeries and toilet articles at Gering & Co's. drug store.

Climatic Influence on Health.
 It cannot be denied that the influence of climate upon health is great, and it is in recognition of this fact that physicians send patients suffering with pulmonary diseases to great distances for "change of air." But when the sufferer happens to be too poor to act upon the advice his lot is hard indeed. But it is not necessarily hopeless. Dr. Pierce's Golden Medical Discovery can be had at any medicine store, and to it thousands whose cases were considered desperate owe their lives.

Up to the certain point in the progress of consumption, Dr. Pierce's Golden Medical Discovery is a positive remedy. But delay is dangerous with consumption. In all the conditions that lead to it, the "Discovery" is the remedy. With severe lingering coughs or weak lungs, nothing acts so promptly. Every disease that can be reached through the blood yields to this medicine. The scrofulous affections of the lungs that's called consumption is one of them. For this and for every other form of scrofula or all blood-taints and disorders, and all chronic bronchial, throat, and lung affections, the "Discovery" is the only remedy so certain that it can be guaranteed. If it ever fails to benefit or cure, you can have your money back.
 "Can anything else be 'just as good' for you to buy? Don't you believe it."
 Lawyer Matt Gering, counsel for Murderer Harry Hill, will journey to Lincoln next Monday and file a transcript of the late trial held in this county with the supreme court. It is thought that nothing will be done at that time except the granting of a stay of the decree of the lower court calling for Hill's execution on April 13th.

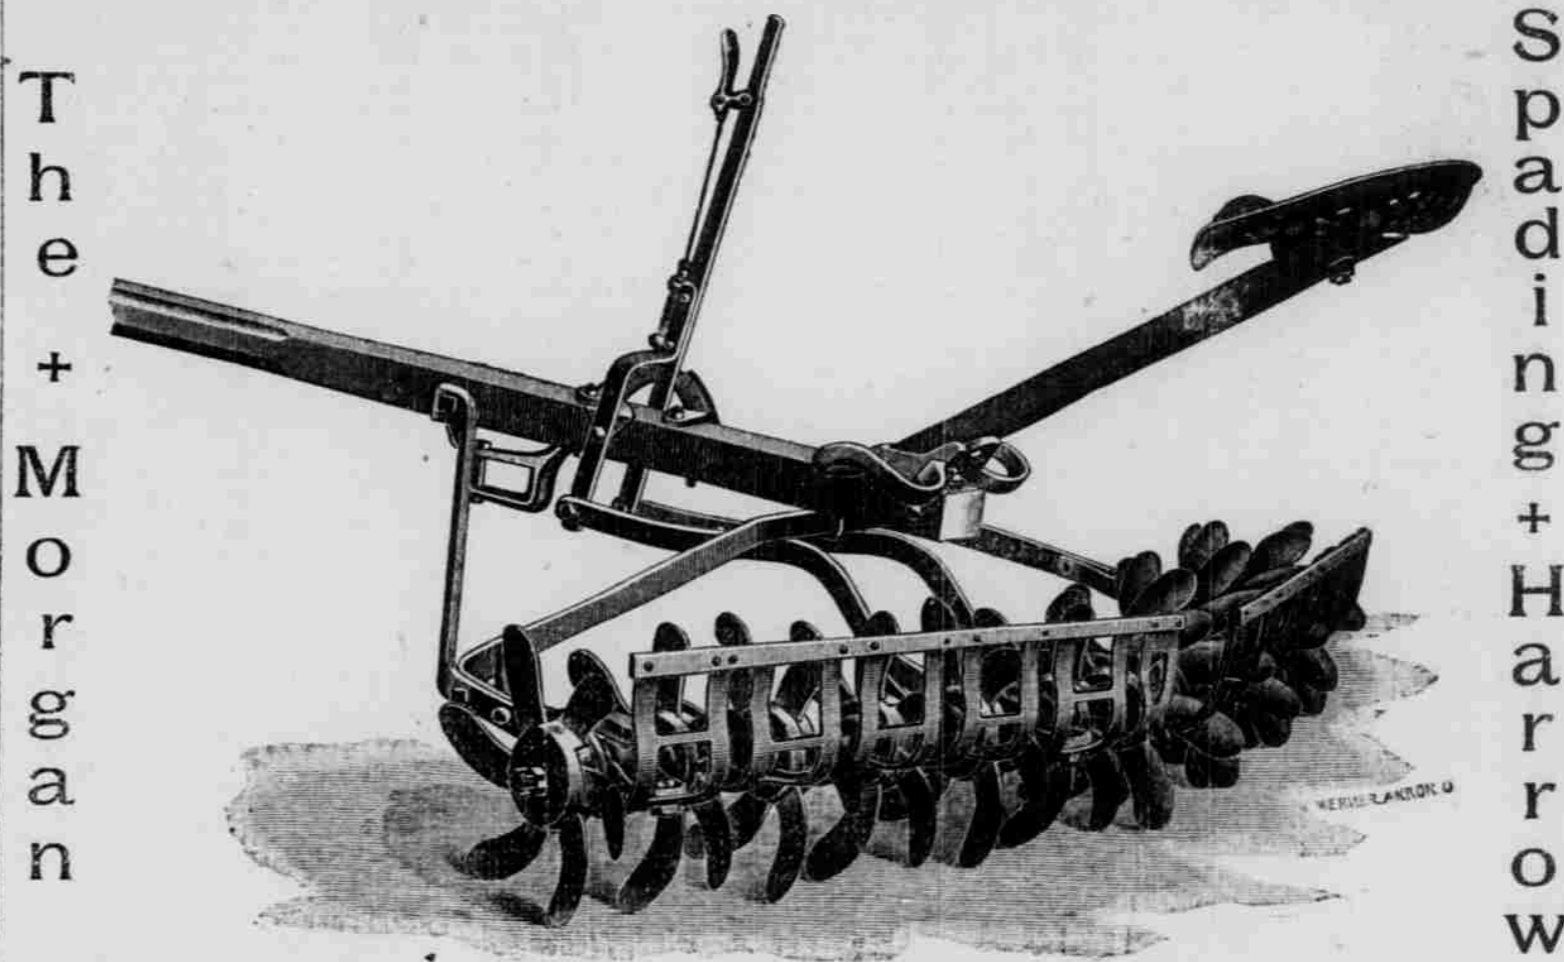

Beware of Ointments for Catarrh that contain Mercury.
 As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free. Sold by Druggists, price 75c. per bottle.

The Morgan Spading Harrow

HAS PROVEN TO BE A MOST REMARKABLE MACHINE
 And fills a long-felt need—something you have long been looking for, viz: A machine that will put in oats in standing stalks when the ground is wet, do a nice job and not clog. For pulverizing fall or spring plowing or sod it has no equal. They were sold all over the east last year and, although introduced late in the season, had an enormous sale and gave unended satisfaction.
 Jacob Falter, jr., is the first farmer in this community to invest in the "Spading Harrow" and, although he has only owned it for a short time, he cannot praise it too highly.

The Morgan Spading Cultivator
 Is also just as much of a success as the Spading Harrow. It has no equal in the implement market. MEISINGER & LOHMANN, of Plattsmouth have the exclusive agency for these two machines for this territory, and in order that Cass county farmers may have an opportunity to test the excellence of these two machines a public test will be given on FRIDAY AFTERNOON, MARCH 23d, between the hours of two and four o'clock, at the farm of Mr. Falter (the former Henry Jasper place) five miles west of Plattsmouth. All farmers who are interested in the perfection of farm machinery should by all means attend.
