Do you want bankers' panics repeated at the will of Wall street? If you do, support the gold standard.

MR. CLEVELAND is still permitting the gold shippers to draw gold out of the treasury by presenting greenbacks to ship to Europe. Wednesday a round million dollars was thus drawn out and sent to Europe. Yet they say there is plenty of gold in the world to do business on.

THE banking fraternity and the cuckoos dominated the democratic convention of Iowa, as was expected, and the party decided to commit part-kari by sticking to the Chicago platform. The cowardice of the party will justly be defeated by probably 100,000 majority.

THE republican party is a body organized for political rule and not to perpetuate principles or carry out policies. From the party of freedom it has gone back and become the organ of monopoly and usury. In Iowa it is for prohibition; in Nebraska it is against prohibition. It is anything for power.

AS THE treasury is again being depleted of its gold coin for shipment to Europe the hope of making the single gold standard permanent goes glimmering. If, with the biggest money syndicate in Europe backing the treasury, it cannot hold its gold, what will it do when the whole combination goes to grabbing for it?

IT is admitted that but for the politicians Kansas would have no state campaign this year, and that the supreme judge, the only state officer to be elected, would be placed on all the tickets by common consent, and then only county officers would be to elect. But the republican politicians demand a convention, and there is a row on foot over the matter.

HAS our esteemed goldbug contemporary, the News, heard the news from Missouri, where the decadence of the silver sentiment is so pronounced that the democrats have adopted a 16 to 1 free coinage platform without a dissenting voice! And they also sent a message of congratulation to Senator Blackburn and took complete control of the party organization.

CHARLES F. CRISP, ex-speaker of the house of representatives, is sight-seeing in London. He recently visited the place where he was born, in Sheffield, Jan. 29, 1845, while his parents were visiting in that city. The bimetallic league invited Mr. Crisp to a conference and he will be dined previous to his departure for his home by the speaker of the house of commons, William C. Gully, and by John Hare, the actor.

IN Jackson's time the power of the United States bank was so great that it threatened the overthrow of the government itself unless its demands were complied with. Had some weaker man than Jackson been in the presidential chair the probability is a revolution alone would have saved the country from its domineering influence. But Jackson was equal to the occasion and at once ordered the governmental deposits removed to the treasury. At present the banking combine, unfortunately, has the president on its side and the people have no defender.

THE gold monometalist papers of Georgia speak of the friends of silver as fanatics because the silver men "hold to the use of both gold and silver as the standard money of the country and to the coinage of both gold and silver, without discriminating against either metal." If we are fanatics so were the delegates to the democratic national convention at Chicago in 1892 fanatics. So were the framers of the constitution fanatics. So was Jefferson a fanatic in 1805 when he stopped the coinage of silver dollars and told his mint officers to coin all the silver they could into half dimes, dimes, quarters and half dollars, so as to get more silver into circulation. So were Presidents Madison, Monroe and Jackson fanatics.—Georgia Ex.

THERE is no fact of history more clearly demonstrable than that the panic of 1893 and all its subsequent horrors to the millions of America's poor was the result of a deep-laid scheme of the usurers of Wall street, backed by the power and influence of the treasury of the United States, with the full knowledge and consent of Secretary Carlisle and President Cleveland; that their share in it as announced at the time was to be "an object lesson to the free silver advocates of the south and west; but the evidence is that after the bankers' scare had been well started they lost control of it and were themselves well-nigh swamped in the maelstrom they had created. These historic facts, easily proven, clearly prove that a power so irresponsible and diabolical should be overthrown, which can only be done by the adoption of bimetalism—the free coinage of gold and silver, and every patriot must bend his energy to that end.

WE are curious to know what political fine work was responsible for the dismissal of so efficient and zealous tax collector as S. P. Holloway has shown himself to be, and the appointment in his stead of a man named Johnson from Weeping Water. It is said that Mr. Eickhoff gave no reason for his summary action, merely informing Mr. Holloway that he would need his services no longer. As a matter of fact, the larger part of the delinquent taxes placed in the hands of the deputy for collection are for in and around Plattsmouth, and Mr. Johnson, being a stranger, no matter how capable he may be, has a much poorer show of collecting them than a man as thoroughly acquainted as Mr. Holloway. There is evidently a political scheme back of Mr. Holloway's dismissal that the coming campaign may bring to light. We fancy that the old army comrades of Mr. Holloway will not look upon his unjust dismissal with any great degree of satisfaction.

THE bimetallic standard was abolished in 1873 and the gold standard was set up without the people knowing about it. The bill was hurried through congress under the whip, without many of the leading men in congress being aware of what it contained or what its chief purpose was. This is proven by the subsequent statements of Jas. G. Blaine, Pig-Iron Kelly, Holman, Garfield, Voorhees, and President Grant. The single gold standard has since then been of value only to the money lenders of Europe and America, and its continuance from this on is in the interest, almost solely of the same class. There is nothing truer than this, and this fact can be ascertained by any one who wishes to investigate the matter.

HOKE SMITH has been so much in earnest in his effort to hold his job that he has sent out letters all over the United States of which the following is a copy:
Postmaster—My Dear Sir: Without any purpose to affect your personal action, I send you several copies of Secretary Carlisle's recent speeches. I will, however, appreciate your distributing them among those likely to read them. Yours, very truly,
HOKE SMITH.

Time was if one of Mr. Cleveland's appointees did the like he would be bounced instantly, but the gold fever has struck the president so hard that he will wink at anything that will help that cause.

A SALEM, Oregon, newspaper comes to us with a marked article reciting the fact that three judges of the Nebraska supreme court with their families recently visited that town in a special coach, in charge of an official of the Union Pacific company, enjoying the hospitalities of that company to the most luxurious extent. The inference is plain that some favors had been done or were expected in return for this great distinction. The judges spoken of are A. M. Post, T. O. C. Harrison and John M. Ragan—the latter being a member of the supreme court commission, and appointed as a populist. The article is quite sensational, and directs attention to the danger likely to come from such corporation favoritism to the judiciary.

IOWA democrats are not satisfied with the position taken by their state convention on the money question, as dictated by the federal brigade. The Sac County News (democratic) says of their platform:
"On the currency question the convention at Marshalltown the democrats adopted the straddle of 1892 as interpreted by Grover Cleveland. This means more hypocrisy. That we pretend to be bimetalists and at the same time do all in our power to discredit silver. It is practically admitting that the republicans did right in demonetizing silver and the democrats were wrong and dishonest when they denounced the act as a crime."

THESE ARE THE FACTS.

To the democrats of the state of Nebraska—Gentlemen: An organization presided over by Mr. Euclid Martin and claiming to be the democratic state central committee has assumed to call a convention of democrats for the purpose of nominating a state ticket. That this organization is a usurper, without a shadow of authority to represent you, is shown by the following facts taken from the official record of the last democratic convention:

That convention met in Omaha pursuant to the call of the state committee. Mr. Euclid Martin, then chairman of that committee, called the convention to order, introduced the temporary chairman and thereby surrendered his authority and the authority of his committee to the convention. Afterward the convention was permanently organized; the state central committee, for which we speak, was selected; the chairman thereof was chosen; the platform was adopted; the Hon. W. J. Bryan was nominated for United States senator and the Hon. Silas A. Holcomb for governor. These facts took place in the order in which we have stated them and in each act each county in the state, through its delegates, participated. Immediately upon the nomination of the governor about thirty-six of the 556 delegates in attendance, finding themselves defeated at every point, withdrew from the convention, repudiated its action and formed an organization which claims to represent you as your state central committee.

One or more of the chief bolters served on the committee on credentials, on the committee on permanent organization and on the committee on resolutions, and either signed the committee's report or submitted a minority report. Besides, each of the delegates who bolted, before withdrawing, voted for the committee of which we are officers and for the chairman thereof. By every rule of honorable conduct among men these gentlemen who bolted are bound by the acts which they participated in.

But apart from that, they represent at best only about thirty-six delegates, while the committee for which we speak represents 520 delegates—they represent about four counties of the ninety in the state. If these gentlemen thought the last convention did not represent the overwhelming sentiment of Nebraska democracy, they could have appealed to you and taken your decision, but instead of that they have become a law unto themselves, decided their own case and now pose as your representatives.

There is but one question at issue between the two committees, viz: The right of the majority to rule; the right of 520 delegates to control the action of a convention against the wishes of thirty-six delegates. If you believe in the right of the majority to rule and if you are opposed to bolters, let your decision be made known by sending delegates to the democratic state convention called for Omaha, August 22, 1895. By order of the democratic state central committee.
C. J. SMYTH, Chairman.
LEE HERDMAN, Secretary.

THE federal brigade of officials can more easily control the democratic sentiment of a strong republican state like Iowa, on the money question, but when it comes to democratic states like Missouri and Mississippi the people cannot be dragged into taking a false position for the sake of the administration. Did Bro. Polk notice how unanimous is the sentiment for bimetalism in the democratic state conventions of Mississippi and Missouri.

THE press dispatches have heralded the news that the recent suit between Nebraska City and the water company was won by the latter, yet the News of that place shows that in the items in controversy the city was the winner—the jury having found for the water company only on those points not involved in controversy, and it shows the figures for it.

Christianity vs. Materialism.

The sermon by Rev. Van Fleet on Sunday morning at the Methodist church contained some thoughts showing the difference between Christianity—or the teachings of Christ—and materialism that were of a character to make a lasting impression, based upon the text: "Is thine heart right?" Men ordinarily are disposed to let things take their course. If they see a man go down in the world they are disposed to give him a kick and push him further down the hill. Christianity goes to him and extends not only its sympathy, but it binds up his wounds, engages a physician, cures him, aids him financially and puts him on his feet again. Christianity means sympathy, love, charity, brotherhood. Christianity, or Christ's teachings, are at the foundation of all patriotism, of the equality of man, of free government, in fact of all those sentiments which grow out of the heart and are inspired by a desire to help one's fellowman. The theory of the materialist—the "survival of the fittest"—knows no such thing as sympathy, of kindness or brotherhood; it is heartless. Like the pharisee who, when he saw the man wounded, bleeding and helpless, "passed by on the other side." It was the Christ-like good Samaritan who went to the poor man, ministered to him, bound up his wounds, "put him on his own beast," took him to the inn, paid for his keeping and bade the inn keeper to care for him until he could return. It is to the heart that Christianity appeals.

A Good Day for Feeders.

Thursday's Daily.
Yesterday was a good day for feeders, says the South Omaha Daily Stockman of last evening, and shipments were about the heaviest so far this year. There were some sixty-four loads, 1,700 head, taken to the country, Iowa, Missouri and Illinois being the heaviest purchasers. The demand has been very urgent for all grades, and notwithstanding the big increase in receipts, the supply has not been more than sufficient to keep up with the demands. The yards have been cleared up right along, and at no time has there been the slightest indication of a surplus or glut. When it is remembered that most of the present big demand comes from adjacent states, some idea may be formed of what a big call there will be a little later on when Nebraska and Iowa feeders get ready to stock up. All previous records of feeder shipments will be knocked into a cocked hat.

Program For "Plattsmouth Day"

The seventh annual reunion of the old settlers of Cass county, which will be held at Union on August 15 and 16, promises to excel any previous attempt of the kind. Everything is being done to make this reunion a grand success, and the visitors will all be well provided for. Thursday, August 15, has been dedicated "Plattsmouth day," and at that time the program will be rendered exclusively by Plattsmouth talent, which will no doubt attract the largest crowd ever assembled in Union. Plattsmouth will send a representation that would do honor to any metropolis. The following is the official program for "Plattsmouth day":

Nebraska Gets the Convention.

The republican central committee met Saturday at Weeping Water. Nearly every precinct was represented and it was decided to hold the primaries on the evening of August 31st, and the convention on September 14. Nebraska was selected as the place for holding the convention. The representation will be based upon the number of votes received by A. S. Churchill for attorney general, one delegate being allowed for each fifteen votes or major fraction thereof. The meeting is reported to have contained the usual amount of harmony.

FINE CATTLE AND HOGS

Cass county at the out in stock raising. The fact is well established that high-bred cattle and hogs, as well as horses and sheep turn off far more money for the investment and the time employed that ordinary or scrub stock, so it becomes the farmer to seek the best breeds and perpetuate them for his own enhancement. Messrs. W. H. Heil and Brother of the vicinity of Cedar Creek, this county, are pushing their breeds of fine cattle and hogs to the front and are reaping substantial rewards for their enterprise. W. H. Heil, in a recent interview, gave out some facts which ought to be of interest and profit to their fellow farmers. They are propagating the celebrated Red Polled stock of cattle and Poland-China hogs. He said: "Our herd of cattle and swine are doing well and increasing rapidly. The pasture has been good this summer and its effect has been marvelous. We are firm believers in the value of the Red Polled breed as a general purpose animal for butter, milk and beef. At the head of our herd is the massive bull, Wild Boy 2562, by Lord Aleric 1909, dam Wild Rose of Iowa 26 6112. His weight, at four years old, is 2,100 pounds, but he can easily be made a 2,400 pounder. He shows good milk points and is an excellent breeder, as shown by the character of his get. This bull came from the fine herd of L. F. Ross, of Iowa City, Ia. Another exceptionally fine bull in our herd is Brown Ben 2662, by Isaac 1874, dam Oliva 4256, a three-year-old that weighs 2,000 pounds. He is low down and blocky and shows the true type of the Red Bull. Among the cows is Harmony 4099, an imported cow, bred by Garret Taylor, of England. She is by Othello 713, dam Lady Hand-some 2292. Another imported cow is Mercy 26 4645, by Ronald 1064, dam Mistletoe, 2382. Oliva 4256 is also an imported cow. She is by The Duke 834, dam Abbess 26 712; bred by Lord Hastings, of England. Others are Lassie 5622, by Lawrence 1905, dam Cassie 2050, Glow 619, by High Sheriff 109, dam Gladys 4067, Mayflower 24 6541, by Stoutson 1083, dam Mayflower 6540, Lady Harmony 7248, by Breadfinner 988, dam Harmony 4099, Mayflower 6540 by Lawrence, dam Sunflower 2360, Duchess of Ashland 7827, by Gen. Gorder 2319, dam Duchess 3997, Beauty 7672, by Isaac 1894, dam Lassie 5622, Gala 3460, by Roundhead 564, dam Gale 2837, Gloriana 5867, by Sand 1294, dam Glow 5504, Fascination 5466, by Pop Shot 1263, dam Fascination 3424, and lots of others of equal merit. There are about thirty-five head of pure-bred cattle in the herd, and more than that number of high grades, and we have for sale a few very fine young bulls ready for service; also, heifers and cows. In Poland-Chinas we are fixed as follows: At the head of the herd is Dave Wilkes 55625, a yearling boar of merit; he by old George Wilkes 14487, the \$750 hog, dam Polly Wog 76324, she by Equality 18675, and Orient U. S. 38407, he by Orient 12147, the \$260 hog, dam Idle 54750, she by Old Black U. S. 18345, the \$500 hog. A few of the sows in our herd are Queen of Pleasant View 60282, by Prince Corwin 18859, dam Lady Princess 60276, and Missouri's Pride 53990, by Gov. Cleveland 4929, dam Perfection Maid 53982, Miss Fete Trade 76319, by Free Coinage 18679, he by Old Free Trade 15729, dam Miss Iras 60290. The best of 1892 61-342, by G'nd Tecumseh 19923, dam Storm Queen 41690, Lady Wilkes 58745, by Geo. Wilkes 14487, dam Duchess 58942. He refused \$100 for each one of the last two sows. The best of 1892 61342 and Lady Wilkes 58944, Storm Queen 41690, ey Storm King B., Miss Fountain 76306, by Black Tecumseh 21669, Queen of Pleasant View 2d 77104, by Free Coinage 18679, he by Old Free Trade 15729, dam Queen of Pleasant View 60282, she by Prince Corwin 18859, and of others of equal merit."

Special Newspaper Train.

A special newspaper train will be put on the Missouri Pacific road to run from Omaha to Weeping Water to connect with the Missouri Pacific passenger train which leaves here for Lincoln at 4:35 each morning. This special will lie at Weeping Water until 7 o'clock, and then come down to Union as a passenger train and back to Omaha via Plattsmouth. This service will be put on Sunday next.—Nebraska City News.

Activity in Railroad Circles.

There is an awakening in western railroad business just at present that is a sure sign of the return of good times. The Burlington has increased its shop force at Plattsmouth and Holdrege, and Tuesday it began putting more men to work at McCook. The McCook hours have been raised from eight hours a day to ten, and this will follow in the other shops of the company.—World-Herald.
