Captain Dabb's Launch Burned to the Water's Edge.

THE WORK OF INCENDIARIES

The Engine Was Saved and Capt, Dabl Will Build Another Boat in the Spring - Chas. Murray Wins Another Special Prize.

The "Sundown" Burned.

Capt. Chas. T. Dabb is today mourn ing the loss of his gasoline pleasure boat, "Sundown," by fire, the fire occurring last Thursday night. The boat was moored at the west bank of the river, opposite the depot, and was all closed up, so that intruders could have no access to the machinery, and he had not visited her for some days. On going to the river Friday morning, he found that the boat had been burned to the water's edge and had sunk, the top of the engine only sticking above water.

The craft is a total loss-amounting to about \$100, and, in addition, a lot of blankets, mattresses, cooking utensils, etc., were also lost. The engine was raised and brought ashore.

The boat was built a year ago last spring, and last spring a two-horse power gasoline engine and a wheel were put on it. It has been used all summer as an excursion boat, taking parties out on fishing and hunting excursions. The boat will probably be rebuilt on different lines for next sea-

Mr. Dabb thinks some boys set the boat afire out of idle curiosity.

that the Nebraska City starch works right inside of your vest. If the friends Ferris wheel-in the high circles of had had plans prepared for doubling the capacity of their present works. Just where to put the new building was what has been worrying the managers and last week Superintendent Carl Morton and Engineer John Conley went to Chicago to consult with Joy Morton and others, leaving the plans with him. Now we are happy to state that the question has been solved and the new building will be erected just west of the present factory. It will be 150x50, four stories high, and will extend from where the office now is up to the engine room and will cost about \$25,000. In order to get steam power for this addition another battery of boilers will be added.

This addition was made necessary because the Argo Manufacturing Co. was unable to fill the orders received. their goods having gained such a reputation that all wanted to sell them. This speaks volumes for a manufactory that has been established but three or four years, and no doubt it will con-

Among the weekly papers that come to the World-Herald, THE PLATTS-MOUTH JOURNAL, edited by that veteran democrat, Chas. W. Sherman, is among the best. Its editorials are clear, strong, and always on the right side. It is difficult to overestimate the influence for good which such a paper exerts in a country. It deserves the loyal support of those who believe that governments derive their just powers from the consent of the governed and that legislation should be in the interests of all the people .- Omaha World-Herald.

Several years ago I discovered a slight falling and bleeding of the lower bowel which increased and became very distressing. I made inquiry as to the nature of the disease and learned that I had a somewhat aggravated case of Hemorrhoids or Piles. Was told of several remedies and used them as directed, obtaining thereby some temporary relief. Not being satisfied with such slight relief I cast about for a permanent cure; when a friend directed the use of the famous MAGNET PILE KILLER. I used it. Immediate relief from pain followed, and soon a complete cure was affected.
