Football at Omaha.

Kansas played its first game for the championship of the Western Intercollegiate Football association, defeating Iowa hands down, 52 to 0. Although it was generally conceded that Iowa had an inferior eleven this fall, such a large score was not expected. It indicates that Kansas may play close games with Missouri and Nebraska. Certainly Kansas is likely to put up a stronger game against the Lincoln lads than it did last year. Kansas has a cinch on third place. The Nebraska team had a close match with Missouri at Omaha, and beat them 10 to 12. On Thanksgiving day they will play the Iowa boys at Omaha and an interesting game is expected. It will be one of the society events of the season, and several of the large eastern colleges will be rep-

It was an interesting sight last week to see the cupola placed on the new postoffice at Omaha. This is without doubt the finest postoffice building in the west. The stone is of a rich dark gray Colorado granite. The building is located on the corner of Sixteenth and Dodge streets.

There is fair prospect for a grand race meet at the new state fair grounds at Omaha in a short time. This is the finest mile track in the West, and some of the best trotters in the world are owned in Western Iowa.

Football is the popular sport now. The event of the season will be the Iowa and Nebraska at Omaha on Thanksgiving day.

THE TURKISH CRISIS.

CONDITION OF AFFAIRS GET-TING UNBEARABLE.

The Porte Unable to Carry Out His Usual Policy-The Situation Most Serious, But All Europe Determined to Force Reforms-An Apology for the Turks.

Matters in Turkey. LONDON, Nov. 9 .- The Times correspondent in Constantinople telegraphed to-day: "The condition of things here is regarded unbearable whose sole idea of policy is to play off one power against the other, is nonplussed at their unanimity. All the powers are friendly, and they give him sound, but most distasteful counsel. None of their manifestations have any selfish purpose, affording material for the manufacture of political capital. Among the advice tendered him, much bears upon the insecurity of the capital as evidenced by September's riots, which left the Mohammedans in a state of unprecedented excitement. But the remedy suggested is an increased number of spies, arrests or secret executions, and therefore the advice of the powers does not meet with response. Much also has been said about the bloodshed in the provinces and the enormous detriment to trade in the greater part of Asia Minor and Syria. But the only answer is the annihilation of the reform scheme by the appointment of two palace creatures to the board of control, of which one of them is president. No where, however, are fears entertained of any wholesale fanatical outbreak against the Christians. The danger lies quite in another direction."

A cipher letter received from Erzingian, headquarters of the notorious Zekki Pasha, commander of the troops at the time of the Sassoun massacre, states that 2,000 Armenians were killed during the late disturbances.

In view of the many startling reports from Constantinople recently, it is possibly just to believe that some of them have been colored by exaggerations upon the part of Armenians. But the main fact does not appear to be in any way altered by this coloring and it is that Armenia appears to be in a condition of the most dreadful an-

SUCCESS OF TAMMANY.

Richard Crocker is Greatly Elated Over

the Same. NEW YORK, Nov. 9. - Richard Croker Tammany Hall. He said: "Tammany Hall is the one bright spot in all the waste of Democratic defeat and disaster. Although out of politics, I have not forgotten my experiences of the past, and can get beneath the surface and discern the forces which are at work on the popular mind. When, therefore, I predicted a Tammany triumph in New York of 30,000 to 50,000 I was not so far out of the way. The people were not to be deceived this year again, and they have had enough of so-called reform, and have rebuked the reformers at the polls.

"I see that some people call this a verdict for Richard Croker. It would be very pleasant to consider it in that light. But I think the victory rather to be attributable to Tammany's superb organization. If the Democratic party was as well organized as Tammany Hall we would not be reading to-day of Republican victories all over

"Look at the states that have given such immense Republican majorities. Why, Tammany is the only stronghold that the Democracy has left. It marks the point around which the Democratic party can rally with heart for the battles yet to core."

KANSAS RETURNS.

Neither Party Seems to Have Made Any Material Gains.

TOPERA, Kan., Nov. 9. - Unofficial returns from seventy-five of the 105 counties in the State indicate that neither party made material gains of county offices in the election Tuesday. Whether there was any change in the relative strength of the two parties will be for the official canvass, which is in progress to-day, to tell.

In the seventy-five counties heard from, unofficially, the Republicans have slightly the best of it, their gains being thirty-five offices against thirty gained by the Populists. The cause of the greatest regret to the Populists is the loss of Cherokee and Crawford counties. These counties have been regarded as Populist strongholds and their return to the Republican column is discouraging to the leaders. But the Republicans are equally gloomy over the results in Sedgwick, Lyon and Neosho, and over losses of votes in Central Kansas.

MR. BAYARD SPEAKS.

Socialism and Protection. EDINBURGH, Nov. 9 .- United States Ambassador Thomas F. Bayard delivered the inaugural address last evening to the Philosophic society. It was entitled "Individual Liberty, the Germ of National Progress and Permarence."

Mr. Bayard spoke at length of the wonderful growth and development of the United States and earnestly evoked the opposition of his hearers to "state socialism" in all forms. He also sounded a note of warning against the many proposals of political interferby all the diplomats and the Sultan, ence and state management under the garb of philanthropic aid or pater-

After discussing what he termed the tyranny of labor organizations," Mr. Bayard said: "In my own country I have witnessed the insatiable growth of that form of State socialism styled protection, which, I believe, has done more to foster class legislation and create inequality of fortune, corrupt public life, banish men of independent mind and character from public councils, blunt public conscience and place politics upon the low level of a mercenary scramble than any other single cause. Step by step, and largely owing to the confusion of civil strife, it has succeeded in obtaining control of the sovereign power of taxation, creating the revenue into an engine for selfish and private profit. Its allied beneficiaries and combines are called "trusts," and gradually the commercial marine of the United States has disappeared, the few vessels lately built being an exception and proving the rule, as they were only built by making a breach in the general tariff and navigation laws, "It is incorrect," said Mr. Bayard, "to speak of protection as a national policy. That could never be, as it will never be anything but the fostering of special interests at the expense of the rest. > It is the intention of the Postoffice department to consolidate many offices throughout the country. This will not necessarily do awaw with the offices, but will establish them as stations of some central point. The department intends to make experiments in this direction and if they prove sat-isfactory the system will be largely extended. It is probable that presidential offices as well as fourth class will be included in the consolidations.

M'KINLEY AND BRADLEY. A Republican Boom for 1896 Launched

in Kentucky.

LEXINGTON, Ky., Nov. 9.-The Leader, the leading Republican newspaper in Kentucky, always a stalwart supporter of Governor McKinley for the presidency, declares for McKinley for president and Governor-elect Bradley for vice president. The Leader says:

"The overwhelming victory in Ohio under the brilliant leadership of Mc-Kinley, Foraker and Bushnell gives a new impetus to the presidential candidacy of William McKinley, and the election of William O. Bradley as the first Republican governor Kentucky has ever had, makes him a vice presidential possibility. McKinley is the embodiment of the protective tariff principle, and Bradley's election is a triumph for sound money. McKinley and Bradley stand for protection and honest money, the issues upon which next year's national campaign must be won. McKinley and Bradley, as candidates for president and vice president, would obliterate Mason and Dixon's line from the political map and mark the complete reconciliation of the North and South and thus nationalize our polities."

The Secretary of Agriculture Causes Comment by an Interview.

CHICAGO, Nov. 3 .- The Daily News Washington special says: "There is much comment among officeholders to-day on an interview with Secretary Morton printed in several morning papers. The interview was prepared by the Secretary and given to the press generally last night. The surprising feature is that he assumes to speak for the President and shows lively satisfaction at Democratic defeat in several states. the elections Tuesday, the Republicans will gain five United States Senatorstwo from Utah and one each from Kentucky, Ohio and Maryland, and the Democrats will lose three senatorsone each from Kentucky, Maryland and Ohio. None of these changes will become effective, however, until March 4, 1897, except in the case of the two Utah Senators, who will take their seats as soon as chosen. Thereafter, the numerical strength in the Senate will be as follows: Republicans, 41; Democrats, 39; Populists 6; vacant (Delaware), 1. Total, 88. If the Delaware vacancy is filled by a Republican it will give a Republican majarity in the upper branch of Congress. The direct effect of these Republican victories upon the senate will be to make it absolutely certain that the Republicans will not enter into any combination with the Populists, directly or indirectly, to secure the organization of the senate at the approaching session. They have simply to wait a few months and then take

control with sufficient votes of their own party members. In the meantime, with a Democratic executive in the White house nothing could be accomplished in the way of legislation, even if the Republicans secure the organization of the senate, and they are not looking now for empty honors. It is interesting to note that before March 4, 1897, the successors to other Democratic Senators may be chosen. A Republican may come from New York in place of David B. Hill; from Illinois in place of John M. Palmer, and from Wisconsin in place of William F. Vilas. If Indiana and Missouri should go Republican next year Mr. Voorhees and Mr. Vest would step aside, and their places would be filled

cratic campaign chairman, in a statement to the Commercial said that Blackburn's defeat is assured.

"The Republicans, with the help of the Populists, will assuredly control the legislature," he said, "and Blackburn is sure to be defeated. Kentucky is now a Republican state. The people wanted a change and they took it, the Republicans being aided by both Populists and A. P. A.'s. No one could have carried Kentucky at this election, not even Carlisle."

Colonel Bradley will be the choice of his state for the vice presidency, and his friends claim that he will have the support of the Southern Republicans. It is a significant fact the friends of Governor Morton, as well as the political champions of Governor McKinley, have all been in constant correspondence with the friends of Colonel Bradley, and have urged him to push his claims for second place on the ticket. Coionel Bradley has therefore refused to discuss the matter, but it is announced by Mr. Walter Forrester, secretary of Colonei Bradley's campaign committee, and managing editor of the Commercial, the Republican organ of the state, that Colonel Bradley's claims for national recognition will be urged in the next national convention.

DETROIT, Mich., Nov. 8. - A gaping rent nearly forty feet wide from top to botton of a five story business block, persons missing, with a certainty that explosion of the boilers in the building at the corner of Larned and Shelby streets, occupied by the Detroit Even-

ing Journal and several other tenants. When the explosion occurred the building collapsed and the floors fell to the basement, carrying with them at least fifty persons who had not the slightest warning of their danger. The cloud of dust that arose was quickly succeeded by smoke from the fires which started in the ruins.

Carelessness is undoubtedly the cause of the disaster, but where the responsibility rests is as yet prob-lematical. Thomas Thomason, the engineer was painfully injured. He said he could assign no reason for the explosion. City Boiler Inspector Mc-Gregor says he inspected the boilers last August and had found them up to the requirements. Some of the employes in the building assert that the boilers were old and known to be

SEAL HERDS DECIMATED.

Less Than One-Tenth of the Number Twenty-Five Years Ago New Left. WASHINGTON, Nov. 8 .- Captain C. L.

Hooper of the revenue cutter Rush. who commanded the Behring sea fleet last season, is more than ever convinced of the ultimate destruction of the seal herd if pelagic sealing in Behring Sea is continued. The most important of his recommendations to the Treasury department therefore will, in all probability, be that all sealing in Behring Sea be prohibited for a time, at least, except that carried on at the islands by the company having a contract with the government.

In 1869, when Captain Hooper first visited Behring sea, he says he believes there were 6,000,000 or 7,000,000 seals, but now the number is probably less than 500,000. The regulations promulgated under the Paris tribunal of arbitration do not, in his estimation, meet the requirements of the case for the preservation of seal life. One of these prohibits sealing within sixty miles of the Sea islands. The greater number of the female seals go out to the sea to a distance far exceeding sixty miles, where they are killed by the sealers. At least two-thirds of the 36,000 killed this year by the pelagic sealers were females, and the records substantiate the statement. The regulations issued under the arbitration tribunal prohibiting the shooting of seals in Bering sea and permitting the spearing of them outside the prohibited zone was beneficial in that nearly every seal that was speared was caught, whereas by shooting them they sink and are often

Mr. Cleveland Smiles Quietly.

WASHINGTON, Nov. 8. - President Cleveland is charging none of the results of the election to his administration. On the contrary, he is taking a quiet smile over certain features of the returns. Senator Gorman declares that President Cleveland's personal followers contributed to the success of Lowndes. The administration Democrats appear to be willing to assume the responsibility as another achievement for reform. There seems to be no doubt that they expected and desired the defeat of Gorman's ticket.

The president and every member of his cabinet took a deep interest in the cause of Campbell in Ohio and expressed regret at his defeat. The helpless condition presented by the Kentucky Democracy is regarded as a rebuke to the free silver Democrats and the president and Secretary Carlisle have confidently expected the de-feat of Hardin and Blackburn, or their amount practically to defeat.

There was a dreadful roll of thunder that seemed to break over his head and then he knew no more for some time. When he revived he was at first unable to move, but at last tipped over, his hands going into the water. He then discovered that his oars were gone and his rifle lay in the bottom of the boat completely shatrope was thrown over an overhanging | tered. He also found that he was bleeding freely, but, recovering somewhat, he paddled ashore with a piece of board, reaching there after several hours of hard work. > The Great Strain on a Man's Nerves Sufficient in Itself to Wreck Him in a Short Time. The Experience

of a Well-Known Motorman. From the Cincinnati, Ohio, Enquirer, The life of a motorman is not a bed of roses. He is subjected to many hardships especially in the winter when he is exposed to the cold and snow. Even in the summer he must bear the intense heat which beats down upon him. Considerable nerve and self-possession is necessary in a good motorman, for the lives and limbs of his passengers are at stake. One of the best known electric motormen in this city is William Frazer, who is at present running a car on the Cumminsville electric line. He is not only well known to his fellow employes but to the people who travel on his car. Mr. Frazer is a young man about twenty-six years of age and resides with his wife and child at 144 Betts Street, Cincinnati, O. About a year ago Mr. Frazer was taken with serious stomach troubles. He bought several kinds of medicine which were recommended to him, but none of them seemed to give him even temporary benefit. An enthusiastic admirer of that famous reme known as Dr. Williams' Pink Pills for Pale People told him to try them. Frazer was almost discouraged, but took the advice. To a reporter for the Enquirer he said: "I can most heartily recommend Dr. Wil liams' Pink Pills. They are all that is claimed for them, in fact they advertise themselves better than any medicine I ever saw. I was seized some time ago with a bad attack of indigestion. My stomach hurt me nearly all the time and I could not digest my food. The pain was almost unbearable and I found nothing that would give me relief. I confess that when I bought the first box of Pink Pills I hadn't much confidence in their efficacy because I had tried so many things without success that I was almost discouraged Before I had taken one box I was decidedly better. Two boxes cured me entirely. While I have been under the weather from other causes my indiges-tion has never returned. If it ever should I know just what to do. I have so much confidence in the efficacy of Pink Pills that if I ever get real sick again with any disor-der I shall use some of them. It is a pleasure for me, I assure you, to testify to the excellent qualities of these Pink Pills. They not only tone the stomach but regulate the

bowels and act ast as a mild cathartic." Mr. Frazer's testimonial means some-thing. He speaks from personal experi-ence and any one who doubts that he received the benefits stated can easily verify the assertion by calling on Mr. Frazer or seeing him some time while he is on his car. Dr. Williams Pink Pills contain all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are sold in boxes at 50 cents a box, or six boxes for \$2.50, and may be had of all druggists or directly by mail from Dr. Williams Medicine Company, Schenectady, N. Y
