SPRING STYLES SUMMER

Dame fashion has displayed a wonderful amount of good common sense in dictating the styles of clothing for men and boys this season. The Suits and Overcoats are not too long nor too short. The Trousers are neither too wide nor too narrow.

Our present stock displays the best taste, the highest skill, and the most reliable materials that we have ever shown.

THERE'S A LOOK of the right sort about it—A FEEL of the right kind—A FIT, STYLE and WORKMANSHIP of the highest perfection. In fact the Clothing has genuine merit.

Every Suit or Overcoat that leaves our store is ready to do its full duty, and do it honestly.

You are sure to receive more value, style and service for your expenditure with us than is usually given for a third more money.

The Say-so of this ad. is the Do-so of the store.

We might talk for hours about the quality and price, but nothing we could say is half so convincing as the garments, which speak for themselves.

A handsome gold watch given away free to all our customers. Get particulars at our store.

All Good Republicans

Should make a point of attending the national convention at St. Louis, Tuesday, June 16th. The expense is not great—if you take the Burlington. On the 13th, 14th and 15th of June you can purchase a round trip ticket to St. Louis at the one way rate. Think—Isn't it worth a few dollars—a few days time—to see the next president nominated? Full information on application to any agent of the B. & M. or by addressing J. Francis, general passenger agent Burlington route, Omaha Nebraska.

Have You Been Thinking

The Pulley Broke.
John Kopp, who operates a wheel lathe at the B. & M. machine shop, was hoisting a heavy piece of iron this afternoon, when the pulley broke and he was struck on the head with the heavy weight attached to the end of the rope. He was stunned for some time, and quite a gash was cut in his scalp, requiring several stitches.

The recent heavy rains caused the river to rise several feet, and a number of large fish are finding good feeding over in the willows in front of the city, and the "sports" are going after them with guns, spears, etc.

Dr. Marshall, Graduate DENTIST, Fitzgerald block.

ADVERSITY.

I fold my arms, I will not strive and strive
To find at evening time but empty hands,
And not one grain of gold in all the sands,
That with much pain and labor I contrive
To gather from the floods. No man may thrive
By effort, it is only he who stands
In favor with the gods; by their commands
He wins or loses. Him they lead or drive.
Then why should I seek? They love me not,
They look on me with dark, unfriendly eye,
They throw some adverse charm about the spot
Whenever treasure-seeking I draw nigh,
And since for my destruction ill they plot;
I'll strive no more, 'twere vain, 'twere vain to try.
—ISABEL RICHEY.

The largest kitchen in the world is in that great Parisian store, the Bon Marche, which has 4,000 employees. The smallest kettle contains 100 quarts and the largest 500. Each of fifty roasting pans is large enough for 300 cutlets. Every dish for baking potatoes holds 225 pounds. When omelets are on the bill of fare, 7,800 eggs are used at once. For cooking alone sixty cooks and 100 assistants are always at the ranges.

A long-distance telephone was opened last week between Omaha and Kansas City with a great clatter in the newspapers. It is a fine thing to talk with a friend 200 miles away, to recognize his voice and almost smell his breath if he has been eating onions, for instance, but when it comes to paying \$1.25 for a three minute talk and 40 cent for each minute thereafter most of us can do without it, and be satisfied with the old fashioned telegraph and hope that will be a little cheaper before many moons.—Tekamah Burtonian.

The American Water Works plant at Omaha was sold yesterday, at chancery sale, to the Farmer's Loan and Trust company of New York, for \$1,009,500, who bid the property in for the bondholders.

Mrs. B. F. Young, a Kentucky woman, has passed the examination required by the government for a first mate's license. She is the only woman with that distinction, and has navigated the Ohio and tributaries for many years with her husband.

A curious accident occurred on a Lake Shore train the other day which adds a new horror to tramp life in the west. An air brake broke in the middle of a train and the front part tried to stop while the hind cars pressed forward with unabated diligence. This resulted in the crushing of a box car in the middle of the train in which some tramps were sleeping. One of the tramps were instantly killed.—Lincoln Journal.
