The semi-monthly setting of the supreme court is now on. The most important case to be heard is the controversy between State Auditor Eugene Moore and the Farmers' Mutual Insurance company of Lincoln. Many cattle were distributed among the farmers around Shelby last fall for which they have received 6 cents for each pound gained. Upon a full feed of otherwise useless corn stalks and grain which has been low in price, with a good appetite after grazing on the western ranges and aided by the mild winter weather the animals fattened readily. The average gain per head was about 400 pounds, while one drove increased fifty pounds above this. TO IMPEACH CLEVELAND.

CONGRESSMAN HOWARD OF ALABAMA PRESENTS CHARGES.

HOUSE SQUELCHES HIM.

He introduces a Rabid Resolution Accusing the President of "Bligh Crimes" in regard to Bond Sales, Federal Troops in the Debt Strike, Federal Political Corruption, Etc.

WASHINGTON, May 25.—As soon as the journal had been read in the House this morning Mr. Howard, Populist of Alabama, whose seat is in a remote corner of the hall, arose dramatically from a seat in the middle aisle, the use of which he had borrowed temporarily. Flourishing a paper in his hand, he demanded to be heard on the resolution, which he sent to the clerk's desk and had read as follows:
"I do impeach Grover Cleveland, President of the United States, of high crimes and misdemeanors on the following grounds:
"First—That he has sold, or directed the sale of bonds, without authority of law.
"Second—That he sold or aided in the sale of bonds at less than their market value.
"Third—That he directed the misappropriation of the proceeds of said bond sales.
"Fourth—That he directed the Secretary of the Treasury to disregard the laws which make United States notes and certificates redeemable in coin.
"Fifth—That he has ignored and refused to have enforced the anti-trust law.
"Sixth—That he has sent United States troops into the State of Illinois without the authority of law in violation of the constitution.
"Seventh—That he has corrupted politicians through the interference of federal office holders.
"Eighth—That he has used the appointing power to influence legislation detrimental to the welfare of the people, therefore, be it
"Resolved, By the House of Representatives, that the committee on Judiciary be directed to ascertain whether these charges are true, and if so report to the House such action by impeachment or otherwise as shall be proper in the premises, and said committee shall have authority to send for persons and papers."
When the clerk ceased reading, Mr. Howard, who still stood ready to address the House, was suddenly taken off the floor by Mr. Dingley, the leader of the majority, who raised the question of consideration against the resolution.

The question was promptly put by the speaker and by a practically unanimous vote the House declined to give Mr. Howard a hearing.
The chief claim heretofore of Mr. Howard was his notorious book, "If Christ Came to Congress," in which he pretended to show up the horrors of Washington life. He first appeared in Washington as an office seeker. He was born in Georgia in 1862, and while working on a farm studied law at night. He was admitted to the bar of Alabama at the age of 19, being the youngest man ever admitted in the State. He was chosen city attorney of Fort Payne and later was made prosecuting attorney of the county. He was chairman of the Democratic county committee for eight years and was a delegate to the last Democratic national convention. Because he could not get a public office he became a Populist and, as such, was elected to the Fifty-fourth Congress, receiving 6,828 votes against 3,452 votes for George W. Denson, Democrat.

MILLIONS RASHLY VOTED.

River and Harbor Bill Shot Through the House Without Reading.
WASHINGTON, May 25.—The Phillips labor commission bill, which was to have come to a vote in the house yesterday under the special order was completely crowded out by the conference reports on the river and harbor and sundry civil bills. The bill will now go over until next week. The conference report on the river and harbor bill, which reported an agreement on all the items save that relating to the Santa Monica and San Pedro harbors, California, was made the basis of a very bitter attack on the bill by Messrs. Hepburn, Republican, of Iowa, and Dockery, Democrat, of Missouri. The latter said he opposed this measure because it contained extravagant appropriations, not warranted by the condition of the treasury. He said he realized his remarks would not be punctuated with applause. "We are all in on it," he added sarcastically, amid laughter.

Mr. Dockery's remarks about the "improvised treasury" and his appeals to the people were received with derisive jeers by the Republicans. At the conclusion of his time Mr. Hooker offered to yield him fifteen minutes more if he would point out a single item in the bill that was not justified by the engineer reports. (Loud applause.) The challenge brought Mr. Hepburn, Republican, to his feet, with a scathing speech against the bill. This bill, said he, had been passed by a brutal majority without debate, and he made the assertion that not a section of the bill had ever been read in the House. Not in the history of the country had been known such a situation. He said that 70,000,000 millions carried in a bill, not a paragraph of which was ever read or considered. After such a procedure gentlemen now had the assurance to ask its opponents to point out its multiplied iniquities.
"Shame, shame," he cried. "Shame upon such false pretense. Who did you force the bill through in forty minutes if you were not too cowardly to face investigation?" Mr. Hepburn, continuing sharply, criticized the work of the Mississippi river commission.

Mr. Hooker's motion to adopt the conference report was agreed to—189 to 55.

The Senator broke his resolution not to talk the next moment, however, and to the solicitous question to whether he was still to be considered a candidate, emphatically replied: "O, yes, I am still a candidate for the presidency, and I shall be looked for at the St. Louis convention."

CARROLLTON, Mo., May 25.—About 10 o'clock yesterday morning Frank Kimball shot and killed Frank Doty, at the home of the former, two miles southwest of Bosworth, in this county. Missionary Dias Heard.
WASHINGTON, May 22.—The Rev. Albert J. Diaz, the American Baptist missionary who, with his family and brother, was expelled from Cuba after having been arrested and incarcerated in prison there, has just been given a hearing before a subcommittee of the Senate committee of foreign relations, consisting of Senators Morgan and Davis. Mr. Diaz made a statement under oath to the subcommittee. Many of the statements have already appeared in print. He also declared that at Guatemo the Spanish soldiers killed sixteen men (non-combatants) the Spaniards went into different houses and gathered seventeen men. They tied these together, two by two, among them being Ladislo Quintero, an American, 21 years old, of Key West, who was found sick in bed. They were taken to the street and commanded to kneel down. The soldiers fired at them, killing all except the American. This occurred on February 22, in the immediate presence of the wives and children of the unfortunate men.
Dr. Diaz's statement gives accounts of cases where he alleged explosive bullets were used by Spaniards, and of the shooting of two children in the arms of their mothers by the Spaniards. March 15, in Havana, he saw a man who had been killed by the soldiers, and who had seventy-one bayonet wounds. Dr. Diaz mentioned several instances where the Spaniards bombarded insurgent hospitals, killing the inmates.

TEST FOR IMMIGRANTS.
House Passes the Bartholdt-McCall Education Bill.
WASHINGTON, May 22.—After two days' debate the House, by an overwhelming vote of 185 to 26, passed the Bartholdt-McCall immigration bill, modified by the Corliss amendment. The Stone consular inspection bill, which was offered as a substitute, was defeated, 175 to 131. The bill as passed adds to the classes of aliens excluded from admission to the United States, all male persons between the ages of 16 and 60 years of age (except parents of persons living in this country) who can not both read and write English or some other language.
The Corliss amendment added to the bill excludes aliens who come across the borders year after year to perform labor in the United States with no intention of settling therein. It declares all labor contracts with aliens void, and makes parties thereto within the jurisdiction of the United States punishable by a fine of \$1,000, or imprisonment not exceeding one year, makes it a misdemeanor for naturalized citizens who have returned to a foreign country to make the same his home, to again perform labor in the United States; makes it a misdemeanor for labor in the United States except at a port of entry, and imposes a head tax of fifty cents on such immigrant.

HONORABLE AND LASTING FAME.
To reach and occupy the position of president of the United States is generally regarded as the acme of American honor and fame. But the position alone does not assure true honor of lasting fame. If a man who attains that position has a taint upon him the office of president can not remove it. If he is corrupt, incompetent, unfaithful his prominent position serves to make his disgrace. "Jimmy" Buchanan and "Andy" Johnson can be named as examples of the truth of our words. The chances of becoming president is as one to many millions, very small. The chances of getting corrupt and disgraced in aspiring to the presidency seem to be in the reverse order, very large. We therefore wish to direct American youths to a broader and safer road to true honor and lasting fame. The rapid increase of our population demands thousands of new inventions for the necessities of our multiplying millions.

To be the author of a machine that will give aid, comfort and delight to the present and coming generations may be a nobler triumph than to win a presidential race. It is a hope, too that many may realize. The ambition of the humble mechanic that looks for honor and fame by seeking to give the world a benefaction in the shape of an invention, is far above the "infatuation" which ruins "presidential candidates." The names of American inventors and public benefactors will be revered when the names of some of our presidents and would-be presidents will be forgotten, or only remembered with indifference, regret or contempt.

TREASURY CERTIFICATES.

Senate Defeats Mr. Gorman's Proposition for a \$100,000,000 Issue.
WASHINGTON, May 22.—The Senate defeated a proposition by Mr. Gorman for the issue of \$100,000,000 of 3 per cent treasury certificates to meet prospective deficiencies. This was followed by the defeat of another proposition by Mr. Peffer of Kansas, for the issue of greenbacks to meet the appropriations made by the fortification bill. Both propositions were offered as amendments to the fortifications bill, which was passed, thus leaving but one of the appropriation bills to be acted upon. The fortifications bill, as passed, carries \$10,703,888, or \$4,918,057 more than the house appropriated.

FREE SILVER IN KANSAS.

Its Advocates Appear to Be Having Things Their Own Way.
TOPEKA, Kan., May 22.—Democratic conventions have been held in fifty of the 105 counties in Kansas, and delegates chosen to the State convention at Topeka, June 5, to send delegates to Chicago. The advocates of the free coinage of silver at 16 to 1 have had things their own way, and have defeated the friends of the single gold standard wherever a contest was made. The results so far indicate a solid free silver delegation to Chicago, although the friends of the national administration are working hard for representation in the delegation.

MORE TORNADO VICTIMS.

A Child Succumbs at Reserve—Two Deaths Near Seneca.
SENECA, Kan., May 21.—The death list of the great tornado of Sunday evening is now placed at twenty-six, the 2-year-old blind son of John Rynders of Reserve having died yesterday. Daniel Saylor and Mrs. Meisner, at first reported dead, are still alive, but the names of Mr. and Mrs. Joseph Kotte, living northeast of here, have been added to the list. Several of the injured are in a critical condition.

The work of repair and rebuilding has been begun in all of the towns visited by the storm and the dead animals on the farms are being buried and debris being removed. The people everywhere are far from despondent.
When the storm struck the farm house of Joseph Kotte, northeast of here, the building was lifted up and then dashed to the ground and demolished. Mrs. Kotte was instantly killed, but the babe in her arms was uninjured. Kotte was terribly injured and died yesterday. The couple left four children, who will be well cared for. The four children killed here were buried yesterday, a great crowd going to the funeral.

Iowa Patent Office Report.
T. S. Ballew, of Stuart, Ia., has been allowed a patent for a campaign badge in the form of a bee adapted to be readily fastened to the lapel of a coat. On the wings are fixed the portraits of candidates in such a manner that they are concealed when the wings are folded, but, upon pressing a detent the wings are expanded and the portraits and sentiments of the wearer flashed upon observers.

In view of the histories of some former presidents and numerous candidates the following copied from the Iowa patent office business circular seems to be apropos.
