WEDNESDAY, SEPTEMBER 7, '98

The republican papers deny there has been any mismanagement of the war department, but their news columns give the lie to their editorial pages.

NEITHER Judge Newell or any of the republican papers of the county has denied that the laborers in Newell & Atwood's stone quarry were compelled to go out on a strike in order to obtain the same wages that other employers were paying for the same work. Neither have they denied that this same Newell was one of the notorious Dorgan gang and a chief beneficiary of the infamous cell-house deal. These things are tacitly admitted, not because they are true, but because they can be proven.

GLANCE AT THE RECORDS.

In the 1,096 days from January 1, 1892, to December 31, 1894, there was a daily average of 2,142 inmates in all state penal and charitable institutions.

The total cost for maintenance was \$1,297,644.08 or a daily expenditure of \$1,183.98.

This was a daily cost of 55 1/2 cents for each inmate.

In the 700 days from January 1, 1895, to November 30, 1896, there was a daily average of 2,534 inmates in these institutions.

The total cost for maintenance was \$793,382.13 a daily expenditure of \$1,133.40 or 44 7/10 cents for each inmate.

The saving effected by Governor Holcomb and his appointees is very apparent.

As compared to republican extravagance, 392 inmates were maintained without cost, and in addition \$50.48 was saved each day.

In the 547 days from November 30, 1896, to May 31, 1898, there was a daily average of 2,437 inmates.

The total cost for maintenance was \$558,883.18, a daily expenditure of \$1,019.89, or 41 8-10 cents for each inmate.

The saving effected by a complete reform administration is still more marked.

Thus, 295 inmates were maintained without cost and \$164.09 saved each day, if we use republican management as a standard. Comment would seem to be unnecessary.

UNDER twenty years of republican rule the office of secretary of state cost \$126,289.76 to maintain it. Under the present secretary of state, W. F. Porter, the office has for the first time in its history been self-sustaining. There is a moral here.

SAM ATWOOD claims that his partner Judge Newell had nothing to do with securing the appointment of young Dan Atwood to a clerkship in the quartermaster's department of the army, and that the charge that he had done the judge a great injustice. This is in effect admitting that the appointment was a bad one. The public can

use its own judgement as to whether or not Newell used his "pull."

COMMENT AND CRITICISM

A SAMPLE CASE

The Plattsmouth News in its republican intensity, even defends the army scandals that are a disgrace to this country and says the telling of them is an injury to the papers. The News has heard a great deal about partisanship but that is going farther than we ever dreamed of. The management of the army and navy should be investigated thoroughly, and particularly in regard to the mismanagement of the sick. As a sample of how some of the boys were treated we will state that an Otoe county boy, who is now at home on a furlough, was in the hospital three days without seeing a physician or being given any medicine. On the evening of the third day one of the hospital physicians passed by and looking at him said, "you are a pretty sick boy; you had better get out of here." No medicine, no care and cruel advice. Turn on the search light.—Nebraska City News.

SAME OLD CRY.

American manufactured goods are shipped to almost every civilized country on the globe and sold in those countries cheaper than the home manufactured product and cheaper than they are sold here at home, yet our protectionist friends tell us that we must have a high protective tariff to protect our "infant industries" and keep out ruinous foreign competition.—People's Banner.

THERE'S A DIFFERENCE.

Young men will not be ready to enlist in future wars unless they are assured that the government is not run in the interest of syndicates. It is one thing to die for one's country but quite another to lay down one's life that the syndicates may flourish and grow fat.—Nebraska City News.

REPORT AGREED UPON.

The commission which goes to take charge of the evacuation of Cuba, it has been intimated, goes with the intention of reporting the Cubans incapable of self government. This means that the administration is planning to dodge the real and original purpose of the war, the freedom of Cuba as an independent government. The Cubans fought for their freedom from Spain with too much persistency and effect to not be able to govern themselves if given a chance. It was a very common opinion throughout

Europe that America was not capable of self government at the close of the revolutionary war. But she proved herself amply able to do so. Why not here? Cuba an opportunity to demonstrate her ability in that line? That the people there are in a sorry condition there is no question, but they have been slaves. Give them the full enjoyment of perfect freedom and wait their development.—Schuyler Quill.

NATURE ASSERTED ITSELF.

With shortage of crops in foreign countries and Joe Leiter bulling the wheat market the price of wheat went up to a dollar a bushel, but with fair crops in foreign countries and Leiter out of the way our republican friends with McKinley as president, the Dingley tariff law in force and engaged in a war, lost their grip on that McKinley prosperity wave and let the price of wheat drop down to 45 cents per bushel.—People's Banner.

Less Than Half Rates to Omaha.

September 5 and 9 the Burlington route will sell round trip tickets to Omaha at 45 cents.

This remarkable reduction is made on account of the tournament of the National Fireman's association, September 5-7 and Woodmen of the World day September 9 at the Trans-Mississippi exposition.

Other reduced rates, almost as low as those named above, are in effect daily. Ask about them.

RARE BUSINESS BARGAIN.

Good Store Building and Lot For Sale Very Cheap.

Here is an excellent opportunity for anyone with a little cash, who wishes to embark in the mercantile business in the thriving town of Mynard, Cass county, Nebraska: A new frame building, 48x30 feet in dimensions, with a 16x20 foot addition, nicely fitted up for living purposes, large corn crib, stable and shed, the buildings being situated on a lot 140x50 feet, in the business center of the town, will be sold at a rare bargain, for cash. The building has recently been painted inside and outside, and is equipped with all the necessary shelving, etc., to operate a first-class mercantile business. The store building is insured for \$500 in a reliable company, and the policy goes with the bargain.

The property is entirely free from incumbrance, and will be transferred to the purchaser without a cent of

back taxes against it. The best of reasons for selling.

The town of Mynard is one of the best grain-shipping points in the state, being surrounded by the best agricultural country in the west, and any hustling man can make a success in the mercantile business in that place.

Anyone who means business, and who has the cash to invest, should call on or address.
