BRITISH STEAMER MOHEGAN

Runs Afoul of Rocks and Sinks to the Bottom.

Passengers and Crew Struggle Hard for Life, But Small Number Left to Tell the Tale.

Falmouth, Oct. 13.—Details of the wreck of the steamer Mohegan are still meager, so far as the cause for the disaster is concerned.

As the captain and the executive officers of the steamer went down with her, it has been impossible thus far to ascertain how she got out of her course, as Falmouth light and the coast were visible.

Among the incidents related is the escape of the Pemberton, Mr. Pemberton jumped into the lifeboat, his wife threw him her two children, and she jumped into the lifeboat herself.

The bodies of six persons, four males and two females, have been picked up and landed here.

A SURVIVOR'S STORY. One of the survivors of the Mohegan, Mr. George Mauls of New York, said: "I am a shipper of horses employed by the American Transport company."

"The steamer, however, began to settle by the head. Two boats were launched. The women were sent away first, and I managed to secure a life buoy and jumped overboard."
