

GOVERNORS AND SENATORS

HOW THE IMPORTANT STATES WENT IN THE ELECTION TUESDAY OF LAST WEEK.

Capturing the Senate Makes the Way Clear for More Bonds, Retiring of Greenbacks and Establishing a Gigantic Banking Monopoly, Notwithstanding Republicans Lost Forty Congressmen.

The governors elected last Tuesday in the various states, with their pluralities, are as follows:

Table listing governors and their pluralities for various states including California, Colorado, Connecticut, Idaho, Kansas, Massachusetts, Michigan, Minnesota, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Dakota, Pennsylvania, South Carolina, South Dakota, Texas, Wisconsin, and Wyoming.

POYNTER'S MAJORITY. With Four Counties to Hear from His Plurality is 2,558.

With all but four counties reported Poynter's plurality is 2,558. These four counties last year cast a total vote of only 1,709, and gave a pluralist plurality of 521.

Table showing county-level election results for Poynter's majority, listing counties like Adams, Antelope, Blaine, Boone, Box Butte, Boyd, Brown, Burt, Butler, Cass, Cherry, Cheyenne, Clay, Colfax, Custer, Deuel, Dawson, Dixon, Doolittle, Douglas, Dundy, Fillmore, Franklin, Furness, Grant, Gosper, Hamilton, Harlan, Hayes, Holt, Johnson, Kearney, Keith, Keya Paha, Knox, Lancaster, Lincoln, Logan, Loup, Morrill, Nemaha, Nuckolls, Pawnee, Perkins, Phelps, Polk, Red Willow, Richardson, Rock, Sherman, Sioux, Sully, Thayer, Thomas, Turner, Valley, Wayne, Webster, Wheeler, York, and Totals.

The annual charity ball of the Ladies' Charity Club of Fremont was given at Masonic hall Saturday evening. The ball room was very tastefully decorated for the occasion, the decorations consisting largely of chrysanthemums and other flowering plants.

Saturday morning at 2 o'clock a carriage containing three couples of young people on their way home from a dance, which was held at the home of R. M. Minbeck, five miles west of Wynome, was precipitated over a steep embankment and one young lady was seriously injured, while J. M. Hemphill received a broken arm and was otherwise injured, the balance of the party also being bruised and scratched.

The trial of Chief of Police Carroll of South Omaha on the charge of aiding and abetting a prize fight has commenced in the county court. A brother of William Walker, the dead prize fighter, was the main witness, and testified that Chief Carroll was present during the fight, witnessed the entire proceeding, and consented to its being held.

Omaha, Nov. 15.—The news that the First Nebraska regiment is to come home from Manila, published exclusively in the Morning World-Herald, has been confirmed by members of the ladies' auxiliary of the Grand Army of the Republic.

Indiana Falls Off. Indianapolis, Ind.—The republicans have carried Indiana by a majority ranging between 15,000 and 20,000. Chairman Martin of the democratic state committee, figuring tonight upon official and estimated returns from all but three of the ninety-two counties, conceded a republican plurality of 14,500.

Washington Returns. Seattle, Wash.—Returns from the state of Washington are yet incomplete, but enough are at hand to make it certain that the republicans have overcome the fusion majority of 12,000 two years ago, electing both congressmen and two supreme court justices by a majority of at least 3,000.

North Dakota Plurality. Fargo, N. D., Nov. 15.—Practically complete returns from all but three small counties show the entire republican state ticket was elected, with majorities between 7,200 and 7,500, except Halland, superintendent of instruction, who has between 1,900 and 2,100 to spare.

Washington, D. C., Nov. 15.—Rear Admiral W. S. Schley will be assigned to command the European station when it is re-established upon the conclusion of the treaty of peace. Rear Admiral W. T. Sampson will retain command of the North Atlantic squadron.

The states which chose legislatures last Tuesday will choose United States senators as follows:

Table listing senators and their pluralities for various states including California, Colorado, Connecticut, Idaho, Kansas, Massachusetts, Michigan, Minnesota, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Dakota, Pennsylvania, South Carolina, South Dakota, Texas, Wisconsin, and Wyoming.

Mr. Wanamaker says that though Quay's candidate for governor was elected, he received a minority of the votes cast for the office, and "what is more significant," he continues, "is that at least 155 of the 254 members of the next legislature are pledged to vote against Senator Quay."

After styling Quay's manifesto as "The exultant yell of a political boss," Mr. Wanamaker notifies the senator that the contest against his domination is not ended, and reiterates his purpose of carrying on the contest until Quay's "rule and his methods are exterminated from the politics of the state."

Sweep North Carolina. Raleigh, N. C.—It looked today like the democrats had made a clean sweep of congressmen. They have certainly carried the First, Third, Fourth, Fifth, Sixth, Seventh and Ninth. Fountain, populist, endorsed by the democrats, has 1,300 majority in the Second, with two counties to hear from. His election is conceded by some republicans. In the Eighth district, Linney, republican, is probably elected by a small majority.

Pennsylvania's Vote. Philadelphia, Pa.—The complete vote of the state, with four counties missing, gives Stone, rep., 453,782; Jenks, dem., 323,783; Swallow, prohibition and honest government, 124,437; a plurality for Stone of 122,023, which will be increased to above 125,000 by the complete returns. The total vote in the state will approximate 950,000.

Utah is Democratic. Salt Lake, Utah.—Enough returns are at hand to indicate beyond doubt that Baskin, dem., for supreme court judge, has been elected over Zane, rep. From the best estimate on latest returns, the legislature will stand forty-one democrats, eighteen republicans and four fusion.

Montana Democratic. Helena, Mont.—Campbell, dem., is elected to congress by a plurality exceeding 4,000. The legislature is democratic by a decided majority. Complete returns will not alter materially the situation as stated.

Ohio's Plurality. Columbus, O.—Unofficial returns from all but one county tonight make the plurality of Kinney, rep., for secretary of state, 59,000.

BOILED DOWN. John Kinslow of McKeesport and Fred Fairman of Allegheny fought for twenty hot rounds at McKeesport, Pa., to a draw.

San Francisco, Cal., Nov. 15.—Henry T. Oznard, president of the American Beet Sugar Producers' association, has made a statement showing that a concerted action is being planned by the beet sugar and tobacco producers of the United States regarding the colonial policy of the United States. They will ask President McKinley and congress to establish protective rates against the importation of goods from the Philippines and elsewhere, so that the home producers will at least have the advantage of being on a par with the cheap labor, soil and climatic conditions of the newly acquired territory.

ANNUAL WHEAT CROP. Statistician Hyde Publishes His Official Report.

Washington, D. C., Nov. 15.—Statistician Hyde of the agricultural department has completed the official report of the crops of the world for this month, and a revised review of the world's wheat is an important feature. The Russian wheat crop is now put by the ministry of agriculture at 417,000,000 Winchester bushels, an increase of 30,000,000 over the Hungarian official estimate. An estimate, believed to be below rather than above the actual yield, is credited to the Hungarian agricultural ministry, estimating the Hungarian wheat crop at 182,277,200 bushels of sixty pounds.

A REPUBLICAN LEGISLATURE

STAY-AT-HOME REFORMERS ARE TO BLAME FOR THE DEFEAT OF SENATOR ALLEN.

Republicans Have Captured Both Branches of the Legislature and will Have Things Their Own Way—A List of the Senators and Representatives Elected—Some Corporation Agent will Succeed Allen.

Official returns show that the republicans will control both branches of the

legislature—Mark W. Murray, dem., editor Times, Pender.

The second Tennessee regiment has arrived at Columbia, S. C., and is now in comfortable quarters at Camp Formance, the winter camp recently established there.

Camp Meade, Middletown, Pa., Nov. 15.—The Tenth Ohio and Fourth New Jersey have left for the southern camps. The Ninth Ohio colored battalion will start tomorrow with the headquarters of the General Ames' brigade. General Young has learned that it demoralizes the troops to pay them immediately before leaving, and he threatens to order the paymaster to withhold their pay until they are located in the new camps, unless they behave better than those who have gone away in the last forty-eight hours. General Young thinks the entire corps will be safely located in the south inside of ten days and that the men will be in Cuba before Christmas.

There has been an astonishing increase in the imports of American flour into Japan. In 1892 the total import of flour was 1,602 pounds, but in 1896 the business has swelled to a total of 32,000,000 pounds. There are 750,000 typewriters in use in the United States. The business, says the New York Sun, is the growth of twenty years, and an instance, along with telephones and the trolley, of American enterprise.

The state of Bahia, Brazil, is said to be the sole seat of the carbon industry. The carbons have been found for years, but there has been no market until the commencement of the present decade, when on account of their hardness they were sought by makers of so-called diamond drills.

Wire nails have been in common use for but sixteen years, yet in that time they have conquered the foreign as well as the domestic market, and the output for 1897, as appears by treasury statistics just printed, reaches the enormous total of nearly 800,000,000 pounds. While the trade has steadily expanded the prices have as steadily declined.

Uncle Sam was rather hard on the importers, when about a year ago the tariff commissioners decided that cherries must be taxed both for themselves and the alcohol in which they are preserved.

A cocktail without a cherry is like a flower without fragrance. Women especially like the typical American drink for the little red berry they fish out of the bottom of the glass. Preserved cherries are not only put in alcoholic drinks, but in lemonade, and great quantities are annually imported for this demand alone.

LABOR AND INDUSTRY.

Honolulu bricklayers get \$5 a day. In Sweden miners earn \$200 a year. South Africa has American windmills. Germany has 707 miles of electric road. France announces leather railway car wheels. Maine is again to enter the list of copper mining states. Japan factories employ no children under 15 years of age.

The new cotton mill at Henriettas, N. C., will start work soon with 25,000 spindles. It is expected that a new knitting mill at Weldon, N. C., will be completed about the first of January next. The Hard Stone Cutters' union of Louisville, Ky., has seceded from the Knights of Labor and joined the federation.

During a recent week no less than 7,352,000 bushels of American wheat and 5,485,000 bushels of corn were shipped to Europe. The French River woolen mills at Mechanicville, Conn., are running day and night to complete a government contract. In Great Britain it is common for corporations that produce electricity for commercial purposes to rent out electric motors by the month to small consumers of current.

It is reported that the cloth manufacturers of Roubaix, France, have begun the use of a new weaving machine of great capacity, making a woven effect on one side and knitted on the other.

The American Federation of Musicians is holding a referendum vote on the proposition to withdraw from the American Federation of Labor. Some musicians claim to be artists, not workmen. The Tobacco Worker says a new cigarette making machine in England is raising the duce. In Liverpool 1,500 girls will be thrown out of work and many more in other cities. The machine rolls from 550 to 600 cigarettes a minute.

It is said that the new glucose plant at Waukegan, Ill., will be in operation in November. The machinery installed is of the very latest type, and the plant will have a capacity of 15,000 bushels of corn per day. About 250 people will be employed.

Women were put on the street cars at Madison, Ind., as conductors a short time ago at \$5 per week in place of men at \$10 per week. The people of Madison boycotted the street cars and as a consequence men are now running the cars there again.

Perry Heath, acting postmaster general, himself formerly a union printer, has ordered that all printing hereafter given out by the postoffice department shall go to employees of union labor, and that in purchasing supplies preference shall be given to goods of American manufacture.
