

A single Illinois cow has knocked out a red bloomer in one round.

The Cornell boys probably will not go into mourning if the America's cup stays where it is.

The woman with the big theater hat should be made to haul down her club topsail and reef her spinnaker.

There is a Rev. Father Bloomer in Minneapolis, but he is not to blame for his name. He was born with it.

It is now generally conceded that there is a woman in the moon. Surely she has as much right there as the man.

Holmes appears to have burned all his bridges behind him, but it is not known whether they were covered with insurance or not.

It is authoritatively denied that Gertrude Vanderbilt is to marry Moses Taylor. Where was Moses when the light ceased to flicker?

The contemplated action of the Illinois Steel company, that of tagging its employees, is most roundly denounced by all classes. What next?

A New York paper says that "Champion Corbett doesn't drink a drop." That's too bad; a drunken bully may be excused, but a sober one never.

"Flags for the schoolhouses" is a good cry, but what Chicago, Boston, and some other cities urgently need just now is schoolhouses for the flags.

It is said that the Eamock Indians refuse to be photographed. This certainly indicates that they are intelligent and kindly disposed toward all mankind.

James Tagney of Chicago was sent to Joliet for ten years for purloining an old harness that he sold for 50 cents. But James, it seems, had been there before several times.

The New York state fair in Syracuse this year had a Midway pleasure attachment which scandalized the visitors; but, and to say, the real character of the show was not found out until the day after the fair adjourned.

There was a good deal of confusion in Boston concerning the California knights. One story was, that they had brought 2,200 dozen bottles of wine with them; another said they were assessed \$2,200 each for expenses; and a third theory was that among the members there were 2,200 millionaires. No one seems to have hit upon the simple story that the Frisco knights were accompanied by 2,200 little grizzlies.

Mme. Melba, the prima donna, has lifted that heavenly soprano voice of hers to protest against bloomers. "Rest assured," she exclaims, "that the bicycle is simply a pretext. It is much less for motives of convenience than for more mysterious reasons that the skirt is sacrificed to ample trousers." It is a fact also, Mme. Melba, that some slanderous females do not wear bloomers from the very fact that they have not "mysterious reasons" enough to warrant it. It is not always modesty, but sometimes discretion, that prevents the fair bicyclist from adopting the fin de siècle garb of the wheel.

After six days' investigation and examination of witnesses, Denver's coroner's jury discovered that the Gurney hotel blew up and killed twenty-five people. It says it was impossible to fix the responsibility for the disaster upon any one person, but that the owners, Peter Gurney and Owen Griemer, were blameable for allowing their engineer to work sixteen hours of the twenty-four, and for employing an inexperienced engineer whose habits were dissipated and unreliable. The jury seemed to be afraid to charge a dead man with guilt, and too sensitive about calling criminal negligence by its proper name.

An important order giving full protection to foreign consumers of American meat products was issued by Secretary Morton last week. It will prevent the exportation of any beef that is not inspected, and will cause the exporters of horse meat to mark the packages that the nature of the contents shall be apparent. The action is authorized by an act of March 3, 1891, amended March 2 last. Meat which is not so marked and which is not accompanied by a certificate of inspection will be classed as uninspected beef and will not be allowed exportation. Secretary Morton ought to have gone further and required the labeling of horse meat foisted on domestic consumers. If a man wants to eat horse meat he has a right to do so, but he ought to know it when he does.

In an address before the American Social Science association at Saratoga last week Prof. Francis Wayland asserted that there were 200,000 habitual criminals at large in the United States. To them he attributed the crimes of train robbery, train wrecking, highway robbery, etc., which were now so numerous in many parts of the country. The speaker proposed the perpetual imprisonment of such incorrigibles. The present indifference of public opinion to this danger, he said, was varied by outbreaks of lynching, which were natural and yet led to other danger and wrongs.

CONTEST IRREGULAR.

DISPUTED SEATS IN LEGAL DOUBT.

The Contestants' Evidence in Rebuttal not Filed in Accordance With the Plain Provisions of the Law—Contestants Must Have an Extra Strong Case to Win.

WASHINGTON, Oct. 10.—Not one of the contests filed against the members of the new house of representatives is complete. In most, the testimony furnished on behalf of both the contestant and contestee has been deposited with the clerk, but in none have the contestants filed their testimony in rebuttal.

In the Belknap-McGann case from the Third Illinois district Mr. McGann has not yet furnished his testimony, which, according to law, he should have done within forty days after that of the contestant. Although this is the law, the house is not always guided by the statutes if satisfactory explanations for the delay are furnished. In the Beattie-Price case from the Third Louisiana, for instance, Mr. Price's testimony was delayed by smallpox, which was epidemic in certain parts of his district.

Although no official information has been received to that effect, it is understood at the clerk's office here that R. A. Chesborough, who filed notice of contest against George B. McClellan of the Twelfth New York, has abandoned his contest. In the other New York cases (Mitchell against Walsh in the Eighth and Campbell against Miner in the Ninth) the contestees have not filed their testimony owing to some local hitch, and Mitchell, it is understood, charges Walsh with attempting to delay the case.

All of the contestants of the thirty cases are Republicans, says Goodrich, who is contesting Cobb's seat in the Fifth Alabama, and Campbell, who is contesting Miner's seat. Goodrich is a Populist, who had the Republican indorsement, and Campbell runs an independent Democratic candidate.

General opinion is that the cases of the contestants seated by the next house will have to be very meritorious as the Republican majority is overwhelming and there is no political emergency which would tend to make the members look on contests with anything but an impartial eye to their justice.

POISONER MEYER AGAIN.

He Plans Crimes in Sing Sing—Plotted More Murders.

NEW YORK, Oct. 10.—Warden Sage of the state prison at Sing Sing has secured evidence almost conclusive that Dr. Henry F. C. Meyer has been planning another murder since he was sent to prison for life for poisoning Ludwig Brandt. The crime that he is believed to have plotted is similar to the killing of Brandt, and for a similar purpose—that of receiving life insurance money. This money, if it is gained, was to be used to effect his release from prison.

The evidence consists chiefly of letters and memoranda found in Meyer's cell. These have been placed in the hands of Superintendent of Prisons General Lathrop. It seems almost certain that Meyer, since his incarceration, has been able to send letters secretly to his wife, and other persons, outside the prison. In these he is alleged to have given his accomplices directions how to get the desired policy of insurance on the proposed victim's life and carry out the plan.

There were several masons and other mechanics employed inside the prison walls during the summer, and it is suspected that some one of these offered to the prisoner means of communication with his outside accomplices. Some time ago Dr. Meyer handed a letter to the prison chaplain to be mailed. It was written in German and addressed to Mrs. Meyer. In it he said that on a certain day he would send an "underground" letter wherein he would give the "prescription" to be used. From references in this letter it was made clear that the prisoner had sent other letters through this "underground channel." Then Warden Sage ordered Meyer's cell to be searched. The keepers found letters, memoranda and other proof which gave the authorities the clue to the proposed crime.

Colonel Farney Gets Off Easy.

WASHINGTON, Oct. 10.—The report of the court martial in the case of Colonel James Farney of the marine corps, recently tried at the Brooklyn navy yard, has been received. The court found him guilty of neglect of duty. The charge of embezzlement was declared to be partly proved but not wholly sustained. Of the numerous other charges and specifications he was acquitted. The sentence is that he be publicly reprimanded.

An Ohio Leader's queer Errands.

CLEVELAND, Ohio, Oct. 10.—Ransom B. Wagoner of Wagoner, Ohio, indicted on a charge of sending obscene matter through the mails, is a man of wealth. After serving as treasurer of Wayne for two terms, he ran for congress on the Democratic ticket and was defeated. Since then he has regularly issued printed circulars on all sorts of odd subjects and sent them to men and women whom he knew, by mail.

JOINT DEBATE ON CUBA.

Four Leading Chicagoans Discuss the Annexation Issue.

CHICAGO, Oct. 10.—At the quarterly meeting and dinner of the Union League club last night, under the formally announced subject: "Should the Policy of the United States Be to Extend Its Dominion?" the question of Cuban annexation was discussed.

The selected speakers were Azel P. Hatch in the affirmative, Congressman E. D. Cooke in the negative, Harry Rubens in the affirmative, and ex-Congressman William E. Mason in the negative. The discussion took a wide range, and the desirability of absorbing Canada, Mexico and Hawaii was discussed, but the matter dwelt on the most earnestly was the annexation of Cuba, which was interestingly and learnedly handled.

Mr. Hatch was in favor of extension in order that the market might be enlarged. If Hawaii wanted to raise the flag the country ought to take advantage of it. The Nicaragua canal should be aided, and the United States should become the envy of the world.

Mr. Cooke, on the other hand, spoke of the "lust for territorial gain," and called it a colossal crime. Social and political reform, he thought, should engage the attention of Americans. He took up Canada, Mexico, Hawaii and Cuba, and to the question, "shall they be annexed?" he returned an emphatic "no." They should be aided in maintaining independent republican government, he said, but not annexed.

MAHONE PALLEBEARERS.

His Ex-Confederate Soldiers to Do Honor to His Remains—The Services.

PETERSBURG, Va., Oct. 10.—The death of General Mahone in Washington, though not unexpected, was received here with much sorrow and regret. The body arrived here this morning at 10 o'clock and was met at the lower depot by the A. P. Hill camp of Confederate veterans and a delegation of citizens. The casket was borne to St. Paul's Episcopal church, where the funeral services were preached by the Rev. C. R. Haines, D. D., the rector, and the Rev. John Ridout, rector of Grace Episcopal church. The interment will be in the family vault at Blanford cemetery.

The funeral cortege will be escorted by A. P. Hill camp, the Petersburg Grays, members of Mahone's division and citizens. The active pallbearers have been selected from among the privates of the old Mahone brigade.

DIXON-MORRILL.

The Kansas Governor's Daughter Enticed to a Kansas City Man.

HIAWATHA, Kan., Oct. 10.—In the presence of only a small number of relatives and close friends, at 3:30 o'clock yesterday afternoon in the parlor of the governor's residence here, Miss Grace Morrill and Mr. Charles Dixon of Kansas City were united in marriage. Mrs. C. H. Baker, sister of the bride played the wedding march and Father Glennon of Kansas City, Mo., performed the ceremony, using the short form of the Catholic church. Governor Morrill gave the bride away.

A reception followed in the evening, at which many guests were present. Later, the bridal party left for an extended trip through Southern California.

Clemency Reused by the President.

WASHINGTON, Oct. 10.—The president has refused to interfere further in the case of Thomas St. Clair, convicted in California of murder on the high seas and originally sentenced to be hanged September 21, 1891, but respited four times, the last carrying the rate of execution to October 18, and has also denied the application for a pardon in the case of Hans Hansen, convicted in California of murder on the high seas and sentenced to be hanged Friday, October 18.

A Lord to Be Sold Out.

LONDON, Oct. 10.—Lord Henry Fagan Hope has about completed arrangements to transfer his estates, including Depden, Surrey, to an insurance company for an amount sufficient to pay his debts. The Depden estate will be divided into building lots in part. The trustees are trying to sell the Hope diamond, valued at \$50,000. An American recently offered \$100,000 for it. Lord Hope married May Vane, the American baroness actress, last spring.

Faulted by the Engineers.

NALSAMON, Mich., Oct. 10.—A bold attempt was made last evening to hold up the Grand Rapids and Indiana north bound passenger train two miles north of this city. The engineer opened the throttle and rushed through the band of robbers, which consisted of four men. The headlight was extinguished and the cab was riddled with bullets and shots were fired into the baggage car, but no one was seriously hurt.

A FILTER INSIDE YOU

HOW YOUR BLOOD IS KEPT PURE.

Health Comes From Pure Blood. Pure Blood Depends on Your Filter Inside You.

Four Kidneys Keep Your Blood Pure If They Are Well. A Few Facts About Them, and How to Make Them Well When They Are Sick.

Your blood is what nourishes your body.

New blood is made every minute. It goes to the lungs, gets fresh air, and then passes through the body. In passing, it deposits new flesh, fat, bones, etc., and takes up worn out matter.

This worn out matter goes to the kidneys. The kidneys filter it out of the blood and throw it out of the body.

That is, when they are well, they do. When your kidneys are well, they act, as perfect filters, to keep your blood pure. When they are sick, they act imperfectly. They leave the bad matter in. Sometimes they take out the good.

There is nothing more poisonous than bad blood. A proof of this is rheumatism. It is simply a blood-poisoning caused by the bad matter left in the blood by sick kidneys.

Bright's disease is the kidneys working the other way—taking the good food out of the blood.

Both kinds of kidney sickness are dangerous.

Both can be cured by Dr. Hobb's Sprague's Kidney Pills.

One of the most wonderful facts of our body is this natural filter inside us. Our kidneys are very important organs. We don't take enough care of them. We are sick oftener than there is any need for. It is simply because we take no heed to our kidneys.

Sick kidneys show their effects in many different diseases.

Rheumatism and Bright's disease are very common. Anaemia, Neuralgia, Pain in the Back, Dizziness, Bladder Troubles, Gravel, Diabetes, Sleeplessness, Nervousness.

These are only a few symptoms, or so-called "diseases." Back of them all are the sick kidneys.

Once the filters can be made to work, all these symptoms will disappear.

Dr. Hobb's Sprague's Kidney Pills are made principally from the roots of the asparagus plant, which has a special curative action on the kidneys. It gives them new life and strength. It helps them to do their work as it ought to be done. It cures their sickness. It cleans and renews the filter.

When the kidneys are well you will feel a great difference at once. Your complexion will clear, and your whole body will get renewed life and freshness.

This is the effect of Dr. Hobb's Sprague's Kidney Pills on the sick kidneys, the re-vitalized kidneys on the impure blood.

With a course of Dr. Hobb's Sprague's Kidney Pills you will get new life. They will cure you when other medicines, which do not reach the real seat of disease, cannot help you.

Dr. Hobb's Sprague's Kidney Pills are for sale by all druggists, price 50c. per box, or will be sent prepaid to any address on receipt of price.

An interesting booklet, explaining about the kidneys and their power for good and evil, sent free on request. Address Hobb's Medicine Co., Chicago, or San Francisco.

A Corcan Dairy.

In Corca dog meat, and, above all, dog soup, is the supreme dish, and the king, despite the protests of his American doctors, often indulges in it. The secret of this is the universal belief that canine meat and soup is a cure-all. The belief amounts to a dogma in Corca.

CHEAP EXCURSION SOUTH.

The Farm, Field and Fireside, Chicago, is doing a most excellent work in helping those who want to better their condition to secure a more in a more congenial climate, or where the opportunities for getting a start in life are better. Its colony plan is very popular, and enables home-seekers to secure a chunk of excellent land at almost half the usual price. For its Oct. 15 excursion to Green Cove Springs, Florida, the lowest rates ever given to that state have been secured. A special train will be run from Chicago with special cars from Omaha, Kansas City, St. Paul and Cleveland, and a steamer from New York. The train will be composed mainly of sleeping cars, which will be used for beds throughout the trip. Fifty-six thousand acres of the best land in the state has been secured, the greater part of which will be sold at \$5.00 an acre. Any of our readers who want to join this excursion should write the Farm, Field and Fireside at once. They will also run a special excursion to California on the 14th of Nov.

But We Are Not There.

Flammarion, the French astronomer, remarks that our planet, if it were 50 feet nearer to the sun as it is to the moon, would melt like wax under the heat from the solar surface, which is composed of a stratum of luminous dust that floats upon an ocean of very dense gas.

Haulet Harborton, missing—Things are all out of place with us. I wish I could only get the shine off my coat and put it on my shoes.—Truth

Kate Field in Denver.

Denver, Sept. 10.—My journey from Chicago was over the Chicago, Burlington & Quincy railroad, one of the best managed systems in the country. I should say, judging by the civility of the employes, the comfort I experienced, the excellence of its roadbed, and the punctuality of its arrival, I actually reached Denver ahead of time. The Burlington Route is also the best to St. Paul, Minneapolis, Omaha and Kansas City.

A PENITENTIARY FIRE.

The Harness Shop of the Missouri Prison Entirely Destroyed.

JEFFERSON CITY, Mo., Oct. 10.—The Strauss harness shop, belonging to the penitentiary here, was destroyed by fire with most of its contents this forenoon. The loss on harness and supplies is \$65,000, fully insured, on buildings \$29,000, with no insurance. The fire was confined to the harness department of the prison.

About 120 convicts were working in the shop when suddenly a blaze broke out on the second story that spread so rapidly as to render it impossible to save any of the contents of the building.

The conduct of the convicts was most praiseworthy, and to their work is due the credit of saving most of the property rescued. The prison officers and hospital narrowly escaped destruction owing to the miserable supply of water.

TWO SUICIDES.

An Indicted Kansas City Election Judge Takes Poison to Draw His Troubles.

KANSAS CITY, Mo., Oct. 10.—Fred G. Knudde, one of the indicted election judges in the Second ward last fall, committed suicide by taking poison last night in a room at the rear of Justice of the Peace O. W. Krueger's drug store at 254 West Fourth street. Troubles which had their source in his participation in the election frauds were responsible for the act. He was a widower and left four small children.

H. C. Litchfield, superintendent of the Railroad Transfer company, committed suicide shortly before 2 o'clock this afternoon, by shooting himself through the head. He was implicated by Thomas Nolan, who confessed to a long continued series of thefts from railroads.

Delaney said after the examination that he knew no more about the matter now than he did before, but from the questions asked it was very evident that the grand jury would attempt to indict Corbett and Fitzsimmons and probably some member of the Florida Athletic club for arranging a fight on Texas soil.

NUT BROWN AT FIRST.

But They Soon Change to a Jet Black—Negro Children.

At birth a negro child is of a reddish nut-brown color, which turns to a slaty gray in the first week of the child's existence. The black color is not fully developed for a period varying from two to three years, according to the nature of the locality and the influence of the climate. Darwin says that the children of Australians, immediately after birth, are yellowish brown, and become darker at a later age. Those of the Guaranyes of Paraguay are whitish yellow, but they acquire in the course of a few weeks the yellowish-brown tint of their parents. It is curious to notice that the eyes of a negro child are blue at birth, his hair of a dark chestnut color, being only curled at the ends.
