#### Tibbetts or Hall.

Judge Tibbetts has proven himself to be one of the most upright and competent judges on our bench. Fair, just, impartial and faithful to his duties, treating litigants, attorneys and witnesses fairly, his decisions have been almost invariably supported by the supreme court.

How about Judge Hall? He has been abusive, overbearing, insulting in the extreme, prostituting his high position to vent his personal spleen. Vindictiveness and profanity has been indulged in while on the bench. For years he was a real estate man and then became a ring candidate of the republican party for the legislature and has been in their employ ever since. Prior to his nomination he terrorized his party by openly stating that he did not care a d— whether the republican convention nominated him or not, intimating that he would run on an independent ticket.

He is a ring republican as long as the ring is for him, and if not for him then he is ready to go into the populist party or anywhere for an office. But the pops don't want him. Down with the Fallstaff and Judge Gaslin of his party and work for Judge Tibbetts, one of Nebraska's ablest and purest judges, so says the supreme court.

The dwellers in the cities and towns of this county, although they may think that they have but little interest in the contest for county commissioner, have in reality a very large interest. The excessive county expenditures in the last few years they have had, in a very large part, to pay out of their own pockets. It therefore behooves them to pay a little attention to this matter. Mr. R. E. Richardson, every one knows who is acquainted with him is thoroughly competent to attend to the business of that office and he has been taught economy of expenditure in the hard school of farming. The farmers have nearly all signified their intention to vote for him. Now let the "city fellers" who want economy and fairness in the management of county affairs wake up and take a hand in a winning fight.

Every day the INDEPENDENT is gaining new subscribers from every section of the state but we are carrying more delinquents than we can well afford to.

The republican candidates for district judge are getting desperate. They know that at least one of them must go down, and Hall is resorting to all manner of tricks to save himself.

The respectable element of the republican party in Lincoln will hardly line up with tin horn gamblers, the riff-raff and rag-tag of the community, and vote for the republican gang. The present disgraceful city government, electric light steals, city and county treasury deficits, penitentiary and capital bank steals have put thinking people to thinking.

Judge Hall cannot hope benefit his case by assaulding Judge Holmes. While we have no admiration for his political views, we have a warm personal regard for Judge Holmes. We were boys together. He was always a gentleman: upright, courteous and kind. We don't believe he deals in dirty politics or resorts to questionable methods to gain support. In this particular regard, at least, Judge Holmes is above his party. Take another course, Mr. Hall.

D. N. Johnson, Gov. Holcomb's appointee as superintendent of the Institute for the blind at Nebraska City, went down Saturday and took possession. W. F. Wright has been installed in a position at the Institute, and Mrs. H. W. Keeler, of Alvo, Cass County, will have direction of the music department. The appointment of Prof. Johnson is well received at Nebraska City, where Prof. Ebricht was very unpopular. Mr. Johnson made a clean sweep in the matter of employees before he had been in the institute twelve hours and filled the vacancies with populists.

The government must pay out \$8,640,000 in the next few months on Union Pacific railroad bonds, the proceeds of which were stolen by Stanford and his partners, or the bonds will go to protest. Where the money is to come from nobody knows, unless they ship off a few more pieces from the golden god called the \$100,000,000 reserve.

#### RAM'S HORNS.

The devil never makes any flank movements for which God is not prepared.

Put a pig in a parlor, and its first question will be, "Well, where's your mud?"

There are a good many things the devil can't do without the help of a hypocrite.

Whoever gives as God prospers him, will never have to stop giving for lack of funds.

Until we are willing to do all in our power to answer our prayer, we do not pray.

The man who can learn from his own mistakes, can always be learning something.

Whenever God's chariot comes to a standstill, it is because there are obstacles in the way that human hands can remove.

Before we try to lead others, we ought to be sure that we are closely following Christ.

Many are willing to do what God wants them to do, who don't want to be what he wants them to be.

The man who puts the bottle to his neighbor's lips, first puts a nail through the hand of Christ.

The devil's work in this world has always been most hindered by those who were most like Christ.

No matter how large the gift, or how bright, it means nothing, unless behind it there is a heart that worships.

A revival is badly needed where the people who try the hardest to run the church never go to prayer meeting.

Christ never authorized anybody to make a prayer for the salvation of men, that could be measured by square miles.

No matter what a man says in church, you know what kind of religion he has when you know what kind of company he keeps.—Ram's Horn.

#### FINANCIAL SCHOOL.

The skins of animals were the earliest forms of money.

Sheep and oxen among the old Romans took the place of money.

Oxen form the circulating medium among the Zulus and Kaffirs.

Tin to-day forms the standard of value at the great fairs of Nishni Novgorod.

In the retired districts of New Guinea female slaves form the standard of value.

Iron spikes, knives and spear heads and brass rods are employed in certain parts of Central Africa.

Chocolate is still used in the interior of South America for a currency, as are coconuts and eggs.

The archaic Greek money was in the form of thick, round lumps of metal, stamped with the given value.

Whales' teeth are used by the Fijians, red feathers by some of the South Sea Islanders, and salt in Abyssinia.

The Icelandic and Irish laws yet have traces of the use of cattle for money. Many Teutonic fines were paid in cattle.
