A GRAND DISCOVERY

Large Preparations for an Increased Trade Are Being Made on the Bellef That . Tariff Bill of Some Kind Will Be Passed-Bradstreet's Report-The War Not Materially Benefiting Us.

NEW YORK, Aug. 6.-R G. Dun & Co.'s Weekly Review of Trade says: An important change in the state of business is near at hand. Congress will act on the tariff question one way or the other, in all probability, within a week. If it passes the pending bill, or if it fails, in either case the definite basis for future business will enable many to act who are now waiting. Whether the one course or the other would stimulate the greater increase, it is certain either would give relief from present paralyzing uncertainties and cause some increase in business, at least for a time.

So much business has been deferred during the past year, and merchan-dise stocks have been so reduced, that the mere approach of a decision, without certainty what it is to be, has this week encouraged large preparations for increased business. In spite of outgoing gold and sinking treasury reserves, small railroad earnings, some injury to crops and in-creased trouble in the coke regions, the tone and the outlook are more

hopeful. The injury to crops by hot winds and drouth, if as great as some re-port, will effect all interests, but at this season it is never easy to distinguish between local and general dam-Western receipts of wheat were 6,400,254 bushels, against 4,002,696 last year, which does not encourage notions of a short yield, and exports were only 1,599,563 bushels from Atlantic ports, against 3,185,464 bushels

last year. Corn exports were only, 116,438 bushels, against 1,599,181 last year. and receipts 1,052,843 bushels, against 2,532,976 bushels, but it seems undeniable that the crop has sustained con-

siderable injury: Sales of wool were 5,522,000 pounds, against 3,742,050 last year, and 9,336,-400 the year before, and for five weeks 7,25 ending with July were 30,882,725 pounds, against 14, 438,950 last year and 38,686,750 in 1892. It seems a large part of the sales this week were to fill orders actually booked, and the rush of belated clothiers and dealers to get goods for the fall trade gives most nanufacturers more than they can do for a month or two, though there seems to be no demand for spring goods, and manufacturers are making no effort to get orders. Wool has been advanced for many kinds I cent and the average about half a cent after the

decline of 1% cents from May 1. Commercial liabilities thus far re-ported in failures during July

KANSAS CITY, Mo., Aug. 6 .- After having secured the necessary requisition papers from Governor Stone Gention papers from Governor Stone Gen-eral Tarsney left last night with Jo-seph K. Wilson handcuffed to the seat in one of the coaches. Wilson is being taken back to Colo-rado to answer to the charge of attempting to kill Thomas J. Tarsney, adjutant general of that state. On the night of June 23 General Tarsney was spirited away that state. On the night of June 23 General Tarsney was spirited away from the Alamo hotel at Colorado Springs by a gang of ruffians and tarred and feathered. Wilson is be-lieved to be the leader of the gang that perpetrated the outrage. De-tective Peterson of Denver and Gen-oral Tarsney are with the prisoner eral Tarsney are with the prisoner.

While at the depot last night an unsuccessful attempt was made to release Wilson by a man named Collins, who, it is believed, was also a deputy marshal with Wilson in Colorado, and connected in the assault on General Tarsney.

DUE TO THE STRIKE.

Chicago and Eastern Illinois to Remove Its Shops From Brazil.

BRAZIL, Ind., Aug. 6.-Excitement prevails here over the announcement made by the Chicago and Eastern Illinois road officials that they would at once remove their repair shops from this city to Momence, Ill.

A committee of leading citizen-called upon Superintendent Brough-ton, who is in the city, and insisted that the officials allow their shops to taxes and expenses at terminals. Receiver's certificates to be first lien on remain here. Mr. Broughton said that the contemplated moving of the shops had been brought around by the road being constantly annoyed by the strikers. In case the snops are moved it is probable that the city will bring suit against the company to recover the \$20,000 subsidly voted it when the road was built, as it claimed that the contract by which the company secured the subsidy it was agreed by the company that it would build and maintain the shops here.

An eleven-year-old son of William Kuwitzky of Nebraska City died Saturday night under peculiar circumstances. Last June the boy, with several companions, was wading in North Table creek. While playing in the mud young Kuwitzky was bitten on the great toe by a snake. The fangs of the snake were so deeply embedded in the flesh that it was necessary to pull them out. The boy could not shake the snake off. Ten minutes after he was bitten he was playing around as usual. A few days after being bitten he complained of pains in his left leg and right shoulder and was treated for rheumatism, he having neglected to tell his parents of his mishap. He continued to grow worse and Satur-day night death relieved him.

Death From a Snake-bite.

Little Boy Accidentally Killed.

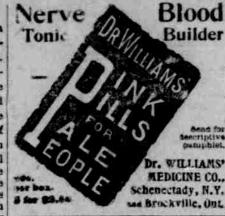

Friday morning little Arthur Briggs of South Omaha went to his papa's store and out of curiosity asked his aunt, Miss Rose Cooper, who works in the store, to show him a revolver that was in the show case. The little boy stood on the top of a powder can on the outside of the counter, while his aunt went behind the counter to show him the revolver. Miss Cooper. not knowing it was loaded. was attempting to show Arthur how it worked, it being a self-acting revolver, and pulling the trigger the gun was discharged and the ball, a thirty-eight, going through the glass in the showcase, struck Arthur just below the heart and the little fellow expired in a few and the fittle feriow expired in a few moment. The family is grief stricken, and Miss Cooper is prostrated with grief over the sad accident.

Bonds for Irrigation.

Three years ago a company was incor-Tepe buoy. leaving it on the starboard hand and then westward, passing near porated to build an irrigation ditch, which would have irrigated 75,000 acres of this Platte valley. Several injunctions were served on the company which discouraged the projectors and me they abandoned the idea. mounted to \$8,016,778, of which \$4,-500,220 were of manufacturing and \$4.231.470 of trading concerns, and the decrease for the month, though great in comparison with last year, is hardly as much as has been expected. The failures this week have been 219 in the United States against 436 last year.

Bradstreet's Review.

NEW YORE, Ang. 6.-Bradstreet's review of the state of trade says;

While little significance is attached to the moderate improvement in the state of trade at San Francisco, Pittsburg, Baltimore, Augusta and Atlanta, when it is added that clearing house totals for July report twenty-nine cities with larger aggregates than in July last year, contrasted with the June report, which contained only eighteen cities with aggregates larger than those in June a year ago, it is presumed there are influences at work at the interior favoring an ingreased volume of business.

Wool remains steady at last week's advance, "speculation having been stimulated by differences of opinion as to the tariff outlook for the staple. Wheat has advanced in sympathy with corn and increased orders and reports of crop damage from abroad, while corn's sharp advance is due partly to exaggerated notions of damage from drouth. There is little likelihood of the corn crop being smaller than either of the two preceding years, notwithstanding our advices of 25 per cont damage in Kansas and 40 per cent in Nebraska. Southern crop prospects generally are excellent.

ar between China and Japan has not affected the price of tea here yet, although a pronounced demand is noted at New York, Boston and Chi-cago. Wheat exports, United States and Canada, both coasts, six days, ending with August 3, amounted to 2,997,000 bushels, against 3,388,000 bushels last week, as compared with 5,622,000 in the week one year ago, 3.988,000 bushels two years ago, 4,030,-000 bushels three years ago with 2,166,000 bushels four years ago. San Francisco wires that two wheat cargoes have been shipped to the United Kingdom this week, after the long cessation of such exports.

BRUTALITY OF SLAVS.

A Young Girl Most Inhumanely Treated-Rescued Six Hours Later.

CONNELLSVILLE, Pa., Aug 6 .- A strange showing of the transplanted customs of the Slav element in this region was made near Leith last evening. The victim was a young woman who had violated the moral code that is supposed to govern these people.

A party of Slavs took her from her friends, stripped off her clothing, pinioned her hands and feet, lashed her to a stake and whipped her savagely for an hour. She was reviled, tormented and spat upon by any body who cared to. She was left at the stake and remained there six hours, as the case is stated to the local authorities, before anybody dared to release her. A young man offered to release some of her cords and was beaten off by the mob. When the girl was taken down she could scarcely move. County Detective Campbell has the case in hand.
