

MINNESOTA'S FIRE HORROR.

TIMBER PIRATES ACCUSED OF STARTING THE FLAMES.

TO COVER UP ALL TRACES OF FRAUD.

The State Senatorial Investigating Committee held to have strong evidence to this effect—Lumbermen fired the pine remnants to render measurement of stumpage impossible.

St. Cloud, Minn., Sept. 10.—There are strong intimations that the state senatorial committee, which has for months been investigating the frauds against the state in the cutting of pine from the school lands, will be able to show that not only the "timber pirates" appropriated millions of dollars worth of lumber belonging to the state, but that in trying to cover up their stealings they started the fires which have resulted in the terrible loss of life and property in Pine, Kanabec, Carlton and other counties in the pine belt.

The charge is that the lumbermen have fired the pine remnants on the lands which they improperly cleared to render measurement of stumpage impossible and thereby shut off any suits which the commission might attempt to bring against them.

A man employed by the commission to ferret out cases of lumber thieving declares that he has secured strong evidence that millions of feet of lumber had been stolen and that as soon as it had been cut the lumbermen had instructed their employes to burn the ground over and "make a good, clean job of it." This is a possible explanation of most of the fires that have swept this region.

The lumbermen, in cutting their timber, leave great piles of "topplings" all through the woods. A torch thrust here and there into the piles of topplings in such a dry season as this starts a tremendous fire that eats the stumps from which lumber has been cut down to lumps of charcoal, and when the gangers of the commission come to measure the stumpage on the ravaged school lands they are left with absolutely no basis for calculating the amount of lumber taken.

The fires have spread over 1,000 square miles of country, have destroyed nobody can tell how many hundred of human lives, and \$20,000,000 worth of property. Whether or not it can be proved that these fires were set out by the little ones kilted by "timber pirates" there is loud demand through the pine country that the manner of cutting timber be severely regulated.

A Duluth carrier from the Rainy river brings news that the fires on the Canadian border last week caused the death of several families, nearly twenty-five persons altogether.

ARDS AND CHIPS BURNED.

Georgia Evangelist Converts Four Gambler and Destroys Their Articles.

ATLANTA, Ga., Sept. 10.—While evangelist M. B. Williams was preaching at Columbia, Ala., he converted four gamblers who were in control of the place. Then he ordered them to bring to him all their gambling articles. They did so and before an immense congregation, cards, chips and dice were piled upon each other so as to make quite a heap. Then the pile had been completed, and while the reformed gamblers were standing around it, the preacher struck a match and, applying it to the pile, soon had a bright fire burning. Meanwhile the congregation sang hymns and prayed until the fire died.

One hundred and seventy-seven men in the list being notable. One hundred families in the list promised to establish family altars. "It was the worst hole I ever got to," said Evangelist Williams, "but now feel that it will be one of the most sanctified places on the continent. Straight talk is what appeals to the people."

FEEDING WHEAT TO STOCK.

How Will Be Used for This Purpose Than Ever Before.

TOLEDO, Ohio, Sept. 10.—During the last four days C. A. King & Co., have received replies from 3,057 reliable dealers and millers. They cover almost every important wheat and flour seed county in Ohio, Michigan, Indiana, Illinois, Kansas and Missouri. These states raise most of the winter wheat crop, or nearly one-half of the entire wheat crop of the United States. Two thousand three hundred and thirty-one of the reports are from the large wheat producing counties. They show it is mostly a wheat that will be fed animals this year. There will be more fed than ever before.

ANY DIVORCES ILLEGAL.

Alabama's Supreme Court Decides That Probate Courts Cannot Break Bonds.

PATER, Ok., Sept. 10.—In the case of Irwin vs. Irwin to-day, the supreme court of Oklahoma denied the power of probate courts to grant divorces. About 500 divorces granted to people from every state in the union by probate judges in this territory since 1893, are thus annulled and all who have been remarried—fully fifty per cent—are in a bad plight. The matter will be carried to the supreme court of the United States. It concerns prominent people from the territory.

Chicago Lawyer Shoots Another.

CHICAGO, Sept. 10.—In a dispute over a lawsuit Attorney Carl Walle was shot and badly wounded by Attorney Boeder at 125 Clark street this afternoon. Walle's wound is a dangerous one.

WARNED BY WHITE CAPS.

A Wealthy St. Joseph Man Mysteriously Disappears.

St. JOSEPH, Mo., Sept. 10.—White caps threatened to whip Stephen E. Cavey, a wealthy citizen of this city, because he hoarded his money and would not properly clothe and feed his family. Cavey paid no attention to the threat, and two weeks later the white caps threatened to hang him. When he received the last letter, Cavey took his youngest son, a boy of 14, stealthily away from the house and left the city. It is believed that he has started to England with the boy. A telegram received yesterday from Fort Wayne says he has been seen there. Cavey attributes the threats of the white caps to his wife and children. He made statement to his neighbors and left a letter for publication to that effect before he left the city.

HIS SKULL CRUSHED IN.

A Young Osage City Druggist Fatally Beaten by Unknown Misanthrope.

OSAGE CITY, Kan., Sept. 10.—John L. Thomas, a young druggist of this city, who attended a dance last night and was afterward seen in the section occupied by Italian miners, was found early this morning near the Missouri Pacific railroad track with the left side of his head crushed in and his body paralyzed. Numerous cuts are on the right side of his head and his right ear was nearly severed. The physicians think that he was beaten with beer bottles. He will die.

Robbery was not the motive as \$50 and his watch and chain were found in his pockets. His widowed mother lives at Emporia. There is no clue to the assailants.

EXPORTS TO THIS COUNTRY.

State Department in Receipt of Reports From the Different Consuls.

WASHINGTON, Sept. 10.—Replies have been received by the state department showing the amount of exports from various countries during the quarter ending June 30, 1894, to the United States. The reports are by the different consuls general and are compared with the report from the same quarters last year. The figures show a falling off, owing, no doubt, in part to expected tariff changes.

AN AMERICAN VESSEL SEIZED.

Nicaragua Furnishes Another Instance of Her Disregard of Other's Rights.

WASHINGTON, Sept. 10.—The United States has another cause of complaint against Nicaragua. According to a report which has just been received at the state department from Consular Agent Seat, at Bluefields, an American merchant vessel was seized by the Nicaraguan authorities and used to convey the prisoners captured at that place to Colon, for transportation to Managua.

RUMORS OF AN ARMISTICE.

China and Japan Said to Be Already Figuring on Peace.

COPENHAGEN, Sept. 10.—A private telegram received here to-day from Shanghai seems to confirm the report that negotiations for an armistice between China and Japan are in progress.

Saw Mill Blown to Pieces.

THREE RIVERS, Quebec, Sept. 10.—Gagno's saw mill on the St. Maurice river opposite this city, was blown to pieces to-day by the explosion of the boiler. Samuel Beauger, the fireman was blown a hundred feet and killed. Nine others were badly scalded and otherwise injured.

NEWS NOTES.

It is alleged that China has purchased the entire naval fleet of Chili. Japan asserts that she is having no trouble floating her war loan of \$30,000,000 yen.

Secretary Carlisle is discharging all the Republicans in the treasury department.

Turner opera house and adjacent buildings at Monroe City, Mo., were burned.

The police of Chicago removed objectionable advertisements from the billboards.

The east-bound Toledo passenger train was wrecked at Staunton, Ill. Two men were killed.

The cruiser Columbia has been ordered to convey American refugees from Port Limon to Bluefields, whence they fled.

Governor Moseley of the Chickasaw nation has appointed his cabinet. Several representatives were unelected because of fraud at the polls.

An attachment was issued against Forepaugh's show for \$7,000 at the suit of George Coupe, who alleges that he was assaulted by members of the company.

An important decision that bids made for government work cannot be withdrawn has been rendered by Attorney General Olney.

If Breckinridge should carry the primaries it is said Owens will make the race against him as an independent Democrat.

The retail butchers of Kansas City have organized for the purpose of fighting the packing house trust.

It is again rumored that Mrs. Nellie Grant Sartoris will soon wed Major H. Kyd Douglas, formerly of General Stonewall Jackson's staff, but now adjutant general of Maryland.

John A. Ellsler, the father of Effie Ellsler, and an old-time actor, has applied for admission to the Edwin Forrest actor's home.

G. A. R. National Encampment. Rates lower than ever! Tickets to Pittsburg and return at less than half rates will be on sale at Burlington road station Sept. 7th and 8th.

The "Burlington" has been designated the official route to Chicago and the Department Commander of Nebraska and his staff will leave Omaha via this line at 4:30 p. m. Sept. 8th.

Tickets and further information upon application to the company's agent, or to J. FRANCIS, G. P. & T. A., 1242 Omaha, Neb.

JUST LIKE APRIL WEATHER.

THAT'S WHAT DUN SAYS ABOUT BUSINESS.

MUCH SUNSHINE AND SHADOW.

In Some Branches Strong Improvement is Shown While in Others Trade is Diminishing—The Government Crop Report Expected to Show a Great Loss in Corn—Bank Clearings.

NEW YORK, Sept. 10.—E. G. Dun & Co.'s Weekly Review of Trade says: The business outlook is much like an April day, with alternate clouds and sunshine. In some branches strong improvement still continues, while in others trade is diminishing. Strikes lessen for the time the working force perhaps as much as it is otherwise increased by the strike of garment makers, which spreads so rapidly that an early end is considered certain, while the strikes in cotton mills have advanced prices so much that a settlement is thought not distant.

The government crop report is expected to foreshadow a great loss in corn, while other observers believe reports materially exaggerated and estimates of the yield range all the way from 1,500,000,000 to 1,700,000,000 bushels. This uncertainty affects business prospects to some extent and an advance of one-half cent the past week has followed receipts not half those of the same week last year.

Failures in August aggregated liabilities of \$10,139,477, of which \$3,173,330 were in manufacturing and \$5,078,133 in trading concerns. During the week the failures were 215 in the United States, against 323 last year, and 47 in Canada, against 25 last year.

Bank Clearings.

NEW YORK, Sept. 10.—The following table, compiled by Bradstreet's, gives the clearing house returns for the week ending Sept. 6, 1894, and the percentage of increase or decrease as compared with the corresponding week of 1893:

Table with 4 columns: Cities, Clearings, Inc, Dec. Rows include Kansas City, Omaha, Denver, St. Joseph, Lincoln, Wichita, Topeka.

OUT OF DEATH VALLEY.

A Surveying Party Returns After Decidedly Unpleasant Experiences.

SAN FRANCISCO, Sept. 10.—Special Agent H. B. Martin of the United States land office at Washington has returned from Death valley, after four and a half months' absence. He went in to do some surveying of claims of private citizens to a portion of the region. He and his party entered the valley by way of Tulo canyon and examined the country for sixty or seventy miles to the south. They were at Tow's pass and camped for some time near Furnace creek. Sand storms prevailed almost daily and the heat was intense. Part of the time they could not get water and they had to bring it a distance on pack horses.

"Our main stock of meat was bacon," said Martin. "We could not get a particle of fresh meat, so we ate the big lizards of the desert which the Digger Indians eat. They tasted a good deal like frogs. All our potatoes rotted as soon as we got into the desert and we had no vegetables of any sort. The only thing that helped us out was canned fruit. The ordeal was so severe that each man lost some fifteen or twenty pounds of flesh and all grew weak. Before I would go into it again I think I would resign. There are many strange insects there—things I never saw before. There are also many horned rattlesnakes or side winders. We killed sixteen of them. There are also many poisonous scorpions in the valley. At a lonely place in Mesquite valley, we found an old wagon bed, a tire and several old iron, relics of the famous emigrant train of 1845, forty people of which lost their lives."

FOR AND AGAINST SILVER.

Speaker Crisp For and Hoke Smith Against the White Metal.

ATLANTA, Ga., Sept. 10.—A mass meeting of Democrats was held in this city last evening. The principal features were the speeches of Speaker Crisp, reviewing the work of congress, and of Secretary Hoke Smith against the free coinage of silver. Speaker Crisp declared his personal preference for free coinage of silver. Much enthusiasm was displayed.

VON HELMHOLTZ AT REST.

The Eminent German Scientist a Victim of Paralysis.

BERLIN, Sept. 10.—Professor Herman von Helmholtz, the eminent scientist, who was recently stricken with paralysis, died to-day aged 74. Dr. von Helmholtz was the father of the law of the conservation of energy, which is the foundation of modern science and technical development.

THE SUGAR BOUNTIES ISSUE.

Secretary Carlisle and the Producers Disagree as to Present Payments.

WASHINGTON, Sept. 10.—Secretary Carlisle is expected Monday to render a decision for sugar bounty claims unpaid to August 27, 1894, when the tariff bill became a law. The amount involved is about \$260,000. The secretary will hold that under the law he is not only not authorized to make these payments, but is specifically instructed by the new tariff not to pay them.

The sugar producers on the other hand contend that congress had no right and did not intend to prohibit the payment of bounties on sugar produced while the act of 1890 was in force, and that the licenses issued under that act are in the nature of contracts and carry with them the obligation of the government to pay bounties provided for by that act. These licenses expire annually on June 30.

Canada Raises Spruce Log Duties.

WASHINGTON, Sept. 10.—Consul General Reilly of Quebec has telegraphed to the state department the following extract from the Official Gazette, published at Quebec: "Whereas, the present rate of duty chargeable on spruce logs is twenty-five cents per cord of 128 cubic feet, and whereas it is advisable to raise it while allowing a reduction when wood pulp is to be manufactured in this province, it is ordered that the rate of dues on spruce logs for paper pulp be fixed at forty cents per cord, but that a reduction of fifteen cents a cord be allowed when the pulp wood is to be manufactured in the province."

Every woman needs Dr. Miles' Pain Pills.

A SCIENTIFIC KNOCK OUT.

Corbett and Courtney Go Six Rounds Before the Kinetoscope.

NEW YORK, Sept. 10.—Champion James J. Corbett and Peter Courtney, the Trenton pugilist, engaged in a six round mill yesterday in the Edison laboratory at Orange, N. J., for the benefit of Edison's kinetoscope and Corbett knocked his rival out.

Only ten spectators, aside from Mr. Edison's helpers, watched the fight, and all agree that it was a lively one while it lasted. Mr. Edison was not present. It was arranged that if Courtney remained the six rounds he was to receive \$500. He received the knockout blow before that time, but was presented with a check for the full amount, nevertheless. Corbett is said to have received a \$5,000 check.

Corbett was seconded by J. McVey, the heavyweight wrestler, who has been with him for several seasons, and William A. Brady, his manager. The gloves used were hard mitts, weighing a shade over two ounces. Courtney weighed in at 195 pounds. He stands five feet ten inches. Corbett was at his average weight of about 195 pounds. He stands six feet one and one-half inches.

The battle was fought in the photograph room, the walls of which had been padded. The first three rounds were very tame, and both men appeared to be playing and making a great many fancy movements in order to make a better display in the record. Courtney, while no match for the champion, was a clever boxer, and held Corbett well off. In the fourth, there were a number of rushes. Courtney could not stand the pace, and Corbett's superiority was manifest. At the close of the round Corbett hit Courtney what was expected to be the finishing blow, and it would have been had not time brought the end of the round. During the rest Courtney pulled himself together, and in the next round kept the champion well off and touched him for a few ones. The sixth was short. Corbett went in and soon had the man who stood Fitzsimmons off for four rounds in difficulty. The final blow was a hard right-hander under the ear.

and feel better—eat better—sleep better—work better—be better. Get a Rambler. With "G. & J." Non-Slipping Tires. "AND YOU RUN NO RISK." Each one guaranteed. \$125.00 for all weights and styles. IRRIGATION DEMANDS.

Resolutions Under Discussion by the Congress—The State System Opposed.

DENVER, Col., Sept. 10.—The National Irrigation congress devoted yesterday afternoon and evening to the report of the resolutions committee and resumed the debate to-day, when Eldwood Mead of Wyoming, president of the congress, spoke in favor of the minority report, which advocates the reclamation of arid lands under government control. William Hall of California advocating the minority report, argued that with the slow policy of the government in prosecuting public work and the necessary preliminaries to be gone through, the present generation would be dead and forgotten before the canals would be completed. He was opposed to the federal government having anything to say regarding the reclamation of arid lands except to control and distribute the waters of inter-state and international streams.

The time allowed for the discussion of the resolutions as a whole having expired, the minority report was voted down. The majority report was then taken up section by section. The first calls for the repeal of the desert land law; the second for the withdrawal of all arid lands not capable of irrigation; the third for the leasing of pasturage lands and the sale of surplus timber, the proceeds to be devoted to irrigation work; the fourth for the selection by states of lands for redemption, title to remain in the general government until disposed of in forty-acre tracts to actual settlers; the proceeds of the sale to be reserved for irrigation work; the fifth and sixth for the state control of irrigation districts under a national commission. Others provide for irrigation on the border and for appropriations for surveys and reservoir sites.

Errors of Youth.

SUFFERERS FROM Nervous Debility, Youthful Indiscretions, Lost Manhood, BE YOUR OWN PHYSICIAN. Many men, from the effects of youthful indiscretions, have brought about a state of weakness that has reduced the general system so much as to induce almost every other disease; and the real cause of the trouble scarcely ever being recognized, they are doctored for everything but the right one. During our extensive college and hospital practice we have discovered new and concentrated remedies. The accompanying prescription is offered as a certain and speedy cure, hundreds of cases having been restored to perfect health by its use. It is a purely vegetable preparation. Perfectly pure ingredients must be used in the preparation of this prescription. R—Erythroxylon root, 4 drachms. Serpentina, 3 drachms. Helonia Dioica, 2 drachms. Gelsemium, 1 scruple. Ext. Ignatia amara (alcoholic), 2 grains. Ext. Ispidula, 1 scruple. Glycerine, q. s. Make 60 pills. Take 1 pill at 8 p.m., and another 15 minutes before retiring. The medicine is adapted to every weakness in either sex, and especially in those cases resulting from excessive and imprudent practice. Its restorative powers are astonishing, and its effects continued for a short time guarantee a permanent and vigorous condition to one of renewed life and vigor. To those who would prefer to obtain it of us, by mail, we will furnish a sealed package containing 60 pills, remaining in bed, and we will furnish 5 packages, which will cure most cases, for \$4. All letters necessarily confidential.
