AMERICAN SAILORS CUT TO PIECES.

Boston, Mass., March 30 .- The Maine er Isaac K. Stetson has arrived from Brazil and Cuba, with a cargo of sugar. The captain is C. F. Trask, the first mate is J. E. Winslow and the crew consists of four men.

While at St. Catherines, Brazil, the members of the crew then with the vessel were set upon by Brazilian soldiers and so badly cut that two sailors died and one was left in the hospital there who was not expected to recover. The fourth received one stab in the back, but it was slight and he came along with the Stetson. The affair occurred Dec. 16. Fred Jensen, a Dane; Ingall Ranschott, Charles Johnson and Nels Johnson, Norwegians, obtained permission to go ashore. Word came that night to Mate Winslow that his men had got into a fight and an investigation found the man in a badly used-up

Ranschott, Charles Johnson and Jensen were terribly injured, the former having eight wounds, while the others each had five or six. Ramschott and Johnson died soon after being found. Nels Johnson had only one cut, that in the back. Acording to the story, the men fell in with some girls and were talking with them when a party of soldiers came along and ordered them away. One word led to another, when the soldiers drew their daggers and fell upon the sailors, who were unarmed, and made short work of them.

Capt. Trask saw the American consul and he notified the American minister at Rio. The Brazilian government officials took the matter up at once. It is understood that some of the soldiers had been found, but it could not be verified before the schooner sailed.

TRADE IMPROVEMENT SEEMS TO BE A REALITY.

The Lifting Begins at the Bottom Encouraging Reports Received by R. G. Dun & Co.-Fallures Reported for

New York, April 1.-R. G. Dun's Weekly Review of Trade says: "Signs of improvement are all the

more satisfactory because neither accompanied nor apparently produced by a speculative craze. Dealings in stocks, cotton and wheat are not diverting all the interest and capital from productive industry and legitimate trade, though these products are all a shade stronger. But railroad earnings, bank clearings, and industrial indications are more encouraging this week. It is a remarkable feature that the lifting this year begins at the bottom, so to speak; raw materials are raised before there is any larger demand for their finished products, a thing not often done with success. Higher wages for coke workers have been followed by a formal advance of 40 cents in the price of coke, and now Bessemer pig has risen 35 cents at Pittsburg and 25 cents at Philadelphia. It is a sign of strength that an eastern mill has secured in competition with British makers, who had an advantage of \$2.50 in freights, the contract for 12,000 tons rails for a California road, and other contracts for about the same quantity have been placed.

"Raw cotton has been holsted until a stronger market for goods resulted with some advances in prices. The tone of the dry goods market has been decidedly improved, though it does not yet appear that rail distribution has correspondingly increased. But stocks of retail dealers are light, and when they feel that prices are bound to rise the demand may grow rapidly.

"In the woolen trade cancellations in some lines have been startling in magnitude, many mills which supposed their whole product sold finding themselves in great need of customers. Quite large orders have been taken by foreign agents for finer worsted and woolens, and all the way from the poorest shoddy to the best goods the competition will doubtless be sharp for more than one season. Sales of wool for the week have been quite large, 5,829,800 pounds, against 4,079,200 last year, partly because a quantity held for a loan was forced to sale. But sales in four weeks have been 19,546,200 pounds, against 17,919,000 last year, and 21,133,400 in 1892. "Cotton speculation reached a halt

with the enormous realizing of last week, and sales have been a third smaller, with no advance. But the supply of cotton now in sight or in spinners' hands is over 2,200,000 bales more than the world's requirements for this year, with receipts for five months yet to come. Guesses about the condition of wheat have varied widely this week and prices are not much higher, the net advance being 1% cents. Atlantic exports, flour included, have been 1,391,-091 bushels, against 1,446,613 last year, and meanwhile western receipts for the month have been 7,747,361 bushels. against 7,084,513 last year. Corn is a cent lower, while pork is 75 cents per barrel and lard and hogs 15 cents per hundred pounds higher.

"The failures this week have been 234 in the United States, against 238 last year, and 42 in Canada, against 30 last year. But the recent increase indicates past rather than recent conditions of unsoundness."
