#### BALLOON COLLAPSED.

Two Aeronauts of Jackson, Mich., Receive Fatal Injuries.

JACKSON, Mich., Aug. 6.-Two aeronauts were fatally injured in a balloon accident which occurred at Vandercook's lake, a resort four miles south of Jackson early yesterday morning.
At the moment the retaining ropes
were cast off, a gust of wind caught
the canvass and careened it to one
side, and it took fire.

The monster shot into the air some

distance, with both of the horrified seronauts on the trapeze. Then it collapsed and came crashing down. Miss Peake is a large woman, and fell heavily, breaking both legs, besides suffering internal injuries. Elliott struck on his shoulders, and is badly crushed. His injuries are said to be fatal.

#### "CASTLE" SEARCH ENDED.

Chleago Police Give Up Trying to Find Any More Bones.

CHICAGO, Aug. 6.—The search for human bones in the basement of H. H. Holmes' "castle" was abandoned today and a small force of men was put to work smoothing up the basement floor, filling up the hole and repairing the breaks in the masonry made by the detectives in their search for clues. The house will shortly be vacated by the police and turned over to its own-The work of the detectives hereafter will be confined to a hunt for witnesses who can directly connect Holmes with some of the numerous marders with which he is charged.

#### New York Saloons Closed.

NEW YORK, Aug. 6 .- The reform police administration enforced another dry Sunday in the metropolis yesterday. Many patrolmen were on duty in citizens' clothes to watch the saloons, and they had the assistance of members of the city Vigilance league, who are opposed to violations. Although the saloons were shut up pretty tight to all outsiders, it was apparent that many of them were doing business in a quiet way with their friends.

### THEY WILL DO THE WORK.

No Solution of the Money Question Will Do That Does Not Include Government

The American people to escape further encroachment of this money oligarchy must rise to the emergency of the occasion, and wrest from the banking power of this country the control of the money, by placing its con-trol in their own hands through the agency of their government.

The first step in this direction seems to be the free coinage of silver, of which this country can produce about one-half of the world's supply. They must take this step independently, and in defiance of all the rest of the world. No American who halts and palters, asking first the consent of foreign nations for permission to coin our own silver into American dollars and all the silver presented for such coinage for the use of American labor, is worthy to be called a free and independent American citizen. He is already an indentured slave to alien masters.

The next step after the mints are opened to free coinage of silver-if it does not accompany that step-is the rescue of the money of the country from the hands of the national bank monopoly, the American branch of the foreign gold oligarchy. The making of all paper currency legal tender by the government, stopping right there and prohibiting the issue of any other currency, will not do it. The banks do not care so much for the privilege of issuing bills as they do for loaning their invisible currency, which they call "credit," which cannot be taxed by the government or coin demanded on presentation at their counters. That invisible thing cannot be presented, and when the banks hypothecate their credit on Uncle Sam's currency, whether metal or paper, they can fall back on him.

Control of the money or circulating medium of the country, whether gold, silver or paper, or all three, cannot be left in the hands of banking corporations and the business and legislation of the country escape their manipulation of the former and their influence over the latter to their own class ad- Peoples' Independent County Convantage, and discrimination against sult of the efforts on the part of the the people. ### SOMETHING ABOUT RATIO.

If Given Equal Privileges Before the Law the Natural Ratio of Gold and Silver Is

into his body and the current was reduced to 800, after which it was again is the great stumbling block to many raised to 1,700 and reduced to 300. The As the ratio between gold and silver current was turned on one minute and metals, it is well to take the world's production of each, and what that ratio of production is should be a reasonable ratio in their money values.

Soetbeer, the eminent German statisful tragedy occurred last night at Gid-The officers of the United States mint have also given it from 1800 to 1893. Soetbeer's estimate is as 1 to 15. In the estimate of the officers of the United States mint it is as 1 to 16. I here give Soetbeer's estimate to 1800

and the mint estimate since that time: 1701 to 1800-Gold, \$1,262,805,000; silver, \$2,370,809,000, less one-sixteenth, equals \$2,222,674,000.

1801 to 1893-Gold, \$5,833,493,000; silver, \$4,858,659,000.

The difference in the 100 years from 1700 to 1800 is \$939,873,000 more silver

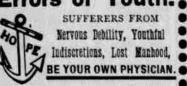

than gold. The difference in the 93 years from 1800 to 1893 is 8976, 734,000 more gold than

## Errors of Youth.

Many men, from the effects of youthful imprudence, have brought about a state of weakness that has reduced the general system so much as to induce almost every other disease, and the real cause of the trouble scarcely ever being suspected, they are doctored for everything but the right one. During our extensive college and hospital practice we have discovered new and concentrated remedies. The accompanying prescription is offered as a CERTAIN AND SYEEDY CUER, hundreds of cases having been restored to perfect health by its use after all other remedies filled. Perfectly pure ingredients must be used in the preparation of this prescription.
