**TO INSURE GOOD SERVICE.**

Smaller Postoffices May Be Put Under the Civil Service.

WASHINGTON, Sept. 25.—Both the postoffice department and civil service commission are taking great interest in the movement toward putting fourth-class postmasters under the protection of the civil service laws. It is probable that before the end of this administration action will be taken. There are over 65,000 fourth-class postoffices in the country and the number is constantly increasing. Of these some 20,000 carry salaries of less than \$50 per annum, and at least half are in places where there is much greater difficulty in finding a competent and reliable person who is willing to serve than in choosing between competitors. It is obvious that there can be no question of examination and certification by the usual civil service methods in these offices. Several plans have been suggested and a combination of them will probably be adopted.

**BUCK GANG CONVICTED.**

Five Men Will Be Hanged for Assault and Other Heinous Crimes.

FORT SMITH, Ark., Sept. 25.—The doom of the Buck gang is sealed. They were convicted in the United States court of criminal assault. The band was composed of Rufus Buck, Indian; Lucky Davis, a negro; Lewis Davis, Sam Sampson and Maomi July, Creeks, and operated in the Creek nation about ten days during the latter part of July and first of August, committing the most brutal, finnish, barbaric crimes.

On August 4 they robbed the house of Henry Hassan, near Sapulpa, I. T., and each in turn criminally assaulted Hassan's wife. Hassan and Frank Roney were carried to the woods by their captors and made to dance while the gang fired at the dancers' feet, wrestle in a mud hole and fight until they were exhausted. The case will not be appealed and the five demons will swing on the day fixed by Judge Parker.

**Senator Baker Favors Cuba.**

The charge is attempted subordination of perjury.

**GREAT HALL DEDICATED.**

**FIRST OF THE CATHOLIC UNIVERSITY BUILDINGS OPENED.**

**IMPOSING CEREMONIES.**

Papal Delegate Satelli Made the Opening Address, and Was Followed by Cardinal Gibbons, Who Officiated in the Dedication According to the Catholic Ritual—McMahon Hall.

WASHINGTON, Oct. 2.—McMahon hall, the central building and the most beautiful one in what is to constitute a group of buildings at the Catholic university, was dedicated with imposing ceremonies at 3 o'clock this afternoon. Papal Delegate Satelli made the opening address and was followed by Cardinal Gibbons, who officiated also in the formal dedication, according to the Catholic ritual. Beside the forego, many of the archbishops, bishops and clergy from various parts of the country participated, including Archbishop Corrigan of New York, Archbishop Walsh of Boston, Archbishop Ryan of Philadelphia and Archbishop Ireland of St. Paul.

The dedication of McMahon hall inaugurates the work of the Catholic university in lay branches, in addition to the divinity branch which it has conducted for the last six years. The new schools are to embrace a department of philosophy, with Prof. E. A. Pace as dean, and a department of social science and law, with Professor W. C. Robinson, late lecturer of the Yale law school, as dean.

The actual work of the schools will begin in McMahon hall to-morrow, when at 9 o'clock students will be enrolled by the registrar, and at 4 o'clock the faculty will hold its first meeting for organization and beginning work.

The structure dedicated has cost a little short of \$500,000 and the entire amount was given by Monsignor McMahon. He is now 75 years old and has been fifty-three years a priest. He inherited a small fortune and swelled it to large proportions by judicious real estate investments in New York. On joining the faculty of the university he gave his entire fortune to it, reserving only such small portion as is requisite for his personal comfort. In recognition of this munificence the pope conferred on him his present title of monsignor.

The building is the central one of what is to be an extensive group. It is 255 feet long by 70 to 115 in depth, four stories high throughout, and a fifth central story. The entire building is of hewn granite, of Roman style, but approaching the classic. Its lower story will be entirely devoted to civil sciences and engineering, with the exception of lounging and club rooms for students. The first floor contains the school of social science in the west wing, mathematics and physics in the east wing and administration offices in the center. The second floor has the school of letters in the west wing, biology and botany in the east wing and assembly room and senate chamber in the center. The third floor is devoted to psychology and other branches of philosophy in the west wing, chemistry in the east wing, the museum of ethnology and professors' room in the center. The fifth floor contains the chemical museum and class room of chemistry.

**A PRACTICAL JOKE.**

Many White Men Willing to Marry a Mythical Chinese Heiress the Victims.

SAN JOSE, Cal., Oct. 2.—Letters and telegrams continue to pour into the telegraph and postoffice addressed to "Hip Sing Lee," the mythical Chinese merchant prince, in whose name an advertisement recently appeared in a San Francisco paper offering flattering inducements to any respectable white man who would marry his daughter, Mei Lee. There are at present nearly 500 letters in the post-office addressed to the mysterious "Hip Sing Lee."

**A Pneumatic Ring Ordered.**

CHICAGO, Oct. 2.—Dan Stuart has sent to Chicago for a pneumatic ring, to be used at the Corbett-Fitzsimmons contest. The ring is steeless, the upper rope being on the same principle as the tire on a bicycle. The floor is a big rubber mat, which can be inflated just sufficiently to make it a trifle springy to the feet of the boxers and yet not retard their movement. A fall on the pneumatic mat or against the pneumatic rope, as hard as it might be, could not result in injury.

**Mexico as a Last Resort.**

SAN ANTONIO, Texas, Oct. 2.—The Florida Athletic club have turned their attention to the matter of pulling the Corbett-Fitzsimmons fight off in Mexico in case it cannot take place in Dallas or Indian territory. Prominent railroad officials of Mexico are working to secure the consent of the authorities of the states of Coahuila or Tamaulipas for the fight to take place either in Nuevo Laredo or Piedras Negras.

**New Woman's Bottle.**

ATCHISON, Kan., Oct. 2.—William Leonard, while duck hunting in the Missouri river yesterday, found a bottle floating in the water with a blue ribbon tied around the neck. He broke the bottle and found a delicately perfumed note inside, inviting the finder to write to Miss Effie Cotten, Forest City, Mo., with a view of matrimony. A few verses of love poetry accompanied the note.

**Miss Blackburn Married.**

WASHINGTON, Oct. 2.—Miss Lucile Blackburn, daughter of Senator J. C. S. Blackburn of Kentucky, was married at noon to-day at St. Matthew's Catholic church to Thomas F. Lane, chief of a division of the register's

**INDIVIDUALISM'S SELFISHNESS**

The Doctrine of the Brotherhood of Man Implies That an Injury to One is the Concern of All.

A term that is growing more common in political and economic discussion in this country is "parrot talk." It is used to distinguish the expression of those who talk by rote, or with the way the wind blows, if the weather vane points in the way their interests or sympathies tend. Judge Peter Grosscup, of the United States district court, Chicago, has been in California enjoying a summer vacation, and in an interview with the San Francisco Chronicle, speaking of the American Railway union strike and the conviction of E. V. Debs, Judge Grosscup is represented to have said: "The strike was purely a sympathetic affair, and, consequently, a foolish affair. When the interests of everybody became affected people withdrew their sympathy."

Here you have it—pure selfishness. Where would all the boasted liberty mankind has wrasted from oppressors since the world began be now if personal interest instead of lofty patriotism and sympathy had swayed the heroic martyrs in the cause of emancipation of the human race. Presumably the struggle of the vassal nations against rich Roman oppressors; of the Greeks at Thermoplae; of the assistance of the noble and disinterested Marquis de LaFayette rendered the struggling colonies; the efforts of the patriots of '76 to throw off the yoke of Royal George; the self-sacrifice and devotion of John Brown to the cause of emancipation—all were purely sympathetic. And if sympathy had been withdrawn when the interests of people in general became effective, what manner of country would Judge Grosscup be living in now? A broader and more universal sympathy; a quick mind to observe and arm to defend the rights and liberties of others, and a tongue schooled to proclaim justice to the humble and oppressed has distinguished patriots from the beginning of time, and it is the patriots who have made governments, founded nations, and emancipated men through sympathy, self-abnegation, and sacrifice. It is sympathy that now moves this nation to listen to the voice of oppressed Cuba, struggling in blood and rapine and crying aloud from her chains for liberty, for sympathy, and recognition. How does Judge Grosscup stand on this question? If the supply of sugar from Cuba is shut off and the interests of the sugar trust are affected (hence everybody's interests), is liberty and sympathy in their efforts to gain it to be denied the struggling and long-suffering Cubans?—Chicago Weekly Dispatch.

**NEW YORK DEMOCRACY.**

Its Voice Reflects the Sentiment of the National Leaders of Democracy.

Every one has looked to the utterances of the New York democracy at its recent state convention for a statement of the attitude of the present national democratic party on the financial question. It is understood that New York expresses the thoughts and ideas of the present democratic administration, and the real leaders of that party—its principles and purposes. It is also understood that the New York declaration is to be the national declaration of next year. Hence all us free silver advocates and believers in government paper money watched with eagerness for this authoritative statement. Here it is:

"We favor a sound currency and a safe banking system which can be based only on a honest dollar of a single standard of value, the standard of the civilized world. We oppose the free coinage of 60 cents worth of silver into a dollar.

The government should go out of the banking business and should limit itself to safeguarding banking methods which will extend throughout the country the money advantages of the cities. The legal tender notes, born of the necessities of a struggle for national existence, should be withdrawn. Their presence in the country is a menace to the steadiness of business and prevents the use of the silver dollars already coined.

If that don't give the average western free silver democrat, at any ratio imaginable, the lockjaw, we miss our guess. Gentlemen, will you stand any more?"

Is there any use to longer hope for free coinage at any ratio? Can you be patriots and vote with a party which has gone on record in favor of destroying the non-interest bearing greenbacks? The time has come for all real democrats, whether known as free silver democrats or not, to stand from under. We do not believe any good citizen can vote for such a platform. And yet there is not a particle of doubt that such will be substantially the declaration of the democratic national convention next year.

Now is a good time to get out of that party and into the people's party. If you do so at once it will save you a sickening humiliation next year. And besides if you come with us now you can do much more effective service for yourself, your country, and the people's party next year. Don't put it off. You know as well now as you will later that you can no longer act with such a tory organization. The whispirings of hope are silent. Bland, Stone—all patriotic democrats need not entertain further hope of controlling the national convention for free silver. Don't be longer deluded. Come now.—Butler (Mo.) Union.

**Do You Swear?**

Young men, don't swear. There is no occasion for it outside of a printing office, where it is useful when the paper is behind time. It also comes handy in the proof reading, and is indispensable when the ink works bad and the press begins to buck. It has been known to entirely remove that tired feeling of an editor when he looks over the paper after it is printed. Outside of a printing office it is a foolish habit.—Dalton (Ga.) Tribune.

**Speed the Day.**

There Will Come the Day When Not Even an American Citizen Can Own So Much Land.

Through his agents in this city it has been learned that Lord Scully, who owns nearly 100,000 acres of land in Illinois, as much more in Missouri, and still more in Kansas and Nebraska, has taken out naturalization papers in New York city. It is his intention to make that city his future home. He has purchased property there and has ordered substantial improvement, in keeping with the taste and station of his family. His object in taking this step is to enable him to purchase more land. The legislatures of Illinois, Missouri and Kansas have all passed laws prohibiting an alien from acquiring real estate. His agents spent last year and a portion of the present year in Missouri, where they bought thousands of acres, but were checked by a measure by the legislature. He owns one whole county in Kansas and more in Nebraska.—Springfield (Ill.) Press Dispatch.

—Democrats and republicans sneer at populists, but yet that is the very argument that was used against the democratic party in the days of Jefferson by the Tories. It is the same argument that was used against republicans in the days of Lincoln. **MONEY OF THE WORLD.**

The Idiot Who Coined This Phrase Ought to Be Given a Leather Medal.

Those 135,000 Americans who went to "Yurup" the past season—did they load themselves down with "intrinsic value," 200-cent, "money-of-the-world" gold dollars, that are "just as good in one part of the globe as another" and "are never known to fluctuate in value?"

Not a bit of it. They simply went to certain banks in New York where they deposited their gold, silver, greenbacks, silver certificates, national bank notes, bank drafts on Chicago, and other large cities—or whatever money they happened to have in their possession—exchanged it for foreign letters of credit or drafts on banks of whatever country or countries they wished to visit, paid the discount or "exchange" and got aboard an ocean steamer with as little concern as though taking a trip from New York to Charleston.

Probably not a dollar of gold in their pockets, and yet no worry lest they shall not be able to meet all demands against them in any country on the globe.

In securing this monetary peace of mind they are no more indebted to the yellow metal that is supposed to be worth thirty times its weight in silver than they are to the "fifty-cent" dollars and "promise-to-pay dollars" that are so loudly decry by the "money-of-the-world" yawper.

Had these tourists taken American gold to Europe they would have had to exchange it for other money, doubtless at a greater discount than that paid in New York.

American gold coin in England will not pass current until the American eagle has been hit over the head, obliterated entirely and the "lion and the unicorn" stamped in its place.

They first destroy its money function, make of it a commodity, when it is on the same footing as American silver, American wheat, corn or beef—then they turn it into English money.

American gold coins when sent to foreign countries are either recoined or sent back again.

If a man were to land in England or Germany with a ten-dollar greenback, a ten-dollar gold piece, and ten silver dollars—all American money—he could take it to a bank and exchange it for about \$39.40 of their currency, and he would get just as much for one kind of money as the other. The discount charged would yield a profit in sending the money back to this country where it all goes at par.

Will not the "money of the world" idiot please change his yawp for something sensible?—Chicago Express.

**ALL SOUND—NO SENSE.**

That Dollar Only is Sound Which Bears the Same Value at All Times.

The Atlanta Constitution places words together to convey force of meaning in the following:

"The catch-penny cry of 'sound' money is becoming to be understood by the people. It is all 'sound money' and no sense. The only 'soundness' that money has or can have lies in the fact that it is redeemable in the thousand and one articles and commodities that people need, use and produce every day of their lives. There would be no need whatever for money if it did not enable people to exchange their property and produce for other articles and commodities that they prize more."

"Money is not a measure of value—for a mental operation cannot be measured—but it is a monetary expression of value. It stands not for gold, silver or paper, but for the things in which gold, silver and paper may be redeemed."

"If the gold dollar was 'sound' in 1873 it is not 'sound' now; if it is 'sound' now it was not 'sound' then. If the dollar that will command the largest amount of the products of human labor is 'sound' money, then the silver dollar was 'sound,' and it was demonetized by the European bankers and their agents over here while it was still a 'sounder' dollar than the gold dollar."

"The people should think of these facts. They are not complicated, but they are vital. They go to the bottom of the whole money question."

"Shall we have fair prices or shall we have low prices? Shall we have prosperity or shall we have a continuation of the poverty that the south has been getting a bigger and bigger taste of ever since the demonetization of silver in 1873?"
