

SHREWD AND SAGACIOUS.

The Roman Catholic Church Will Absorb the World's Laborers by Expounding Their Cause.

It is said that the pope will shortly issue an elaborate essay on the subject of socialism which will be addressed to all Christendom.

If not "harmless as doves," Roman Jesuits may at least claim to be "wise as serpents."

Christ and His apostles and all the early fathers were ideal socialists and inculcated and emphasized the doctrine of socialism as the teaching of Christianity.

Thus Paul, writing to the Corinthians, said: "For I mean not that other men be eased and ye burdened; but by an equality, that now at this time your abundance may be a supply for your want, and that their abundance also may be a supply for your want, that there may be equality; as it is written: He that had gathered much had nothing over, and he that had gathered little had no lack."

Now, the man who gathers little may beg, steal, or starve. The primitive church and the "early fathers" insistently inculcated the principles of socialism and constantly inveighed against private ownership of property, specially of land.

St. Ambrose: "Nature created community; private property is the offspring of usurpation."

St. Chrysostom: "The rich are robbers. A kind of equality must be effected by making gifts out of their abundance. Better all things in common."

St. Clement: "In strict justice everything should belong to all. Iniquity alone has created private property."

St. Jerome: "Opulence is always the product of theft committed, if not by the actual possessor, by his ancestors."

Tertullian, in his apology, says: "Why, we are even brothers in income, the very question which almost tears your fraternity to tatters. So we, who are one in mind and soul, make no balk at common property. Everything we have is common and equal property, except our wives. Our socialism ends just where yours begins."

St. Cyprian insists that none of the gifts of God are given to us to be our private property, or ought to be claimed to the exclusion of others. He says the land and its products ought to be as common to men as are the sun, clouds, wind, sleep, stars, and moon; and he calls upon landlords and crop-lords to use these, as God shows how, for the common benefit.

In these days, hundreds of gifted ministers of the gospel, entertain the sentiments voiced by Cardinal Manning, thus: "The land question means hunger, thirst, nakedness, notice to quit, labor spent in vain, the toil of years seized upon, the breaking up of houses, the misery, sickness, death of parents, children, wives, the despair and wildness which spring up in the hearts of the poor, when legal force, like a sharp harrow, goes over the most sensitive and vital rights of mankind. All this is contained in the land question."

If the Protestant church does not awaken to the significance of this new move on the part of the pope, it will lose what little grip it now has upon the toiling masses.

THERE'S NO HOPE THERE.

The Past History of the Twin Frauds Proves Them Bitter Enemies of Silver.

"Silver Knight," of Gunnison, Colo., furnishes the following warm communication:

"Is it good common sense to believe habitual liars? If your neighbor had been in the habit of telling you lies on any particular subject every year for twenty-two years, how much confidence would you have put in his statements? The silver democrats and the silver republicans have been telling the people for just that length of time that their respective parties were in favor of the remonetization of silver, and that they would do all in their power to accomplish that end."

"During these twenty-two years each party when in power has used the patronage of this great government to aid the money power to destroy silver and reduce the legal tender money of the world to gold alone. No administration act of either party since the crime of 1873 has been in favor of silver. On the contrary, each party has vied with each other in trampling upon the laws of congress to degrade and banish silver. Neither party has obeyed the law to use it as money, but each has declared time and again that it is a debased currency and that it would be bad faith to comply with the statute and pay it out in the discharge of obligations according to contract."

"The game of the gold combination is plain. The Rothschilds own the two parties and will spend their money and use the power of the administration to keep the voters in one or the other of their two gold parties. The silver leaders in both parties act as cow boys to force the masses either into the Rothschilds' republican corral or the Rothschilds' democratic corral, there to be branded as the property of the gold combination. Never in the history of man was there such a barefaced fraud as the pretense that either of the Rothschilds parties intends to restore silver.—Chicago Weekly Dis-

THE SURGEON'S KNIFE.

ONCE BELIEVED TO BE THE ONLY CURE FOR PILES AND RECTAL DISEASES.

A Better Way Now Discovered. Which Cures Every Form of Piles Without Pain or Inconvenience.

Many people suffer the pain, annoyance, and often serious results from piles, for years, and after trying the many lotions, ointments, and so-called cures without cure or relief, give up the hope of a final cure, rather than submit to the intense pain and danger to life which a surgical operation involves.

Happily all this suffering is no longer necessary, since the discovery of the Pyramid Pile Cure, a remedy which is approved by the medical profession, as being absolutely safe, free from any traces of opiates, narcotic or mineral poisons and which may be depended upon as a certain cure (not merely relief) in any form of Piles, whether itching, blind, bleeding, or protruding. Some of the hundreds of cures recently made are little short of marvelous, as a perusal of the following will demonstrate.

Major Deane of Columbus, Ohio, says: "I wish to add to the number of certificates as to the benefits derived from the Pyramid Pile Cure. I suffered from Piles for forty years and from Itching Piles for twenty years, and two boxes of the Pyramid Pile Cure has effectually cured me."

Dr. J. W. Megan, Leonardville, Kan., writes: "I have used a box of Pyramid Pile Cure and received more benefit and relief than from any remedy I had used in the past twenty-two years."

James Demerson, Dubuque, Iowa, says: "I suffered from Piles for six years; have just used the Pyramid Pile Cure and am a well man."

Mrs. M. C. Hinkley, 601 Mississippi St., Indianapolis, Ind., says: "I have been a sufferer from the pain and annoyance of Piles for fifteen years, the Pyramid Pile Cure and Pyramid Pills gave me immediate relief and in a short time a complete cure."

The Pyramid Pile Cure may be found at Druggists at 50 cts. and \$1.00 per package. A book on cause and cure of Piles will be sent by mail, by addressing the Pyramid Drug Co., Albion, Mich.

Morgan County, Colorado

The amount of land for sale in Morgan County is limited. The entire irrigated district comprises only about 125,000 acres, more than half of which is already under cultivation.

Allowing 80 acres to a farm (the usual size of an irrigated farm and as much as one man can look after properly) there is room for only 750 more farmers than are already on the ground. Prompt action is therefore advisable. The best farms will go first. As land becomes scarcer higher prices will prevail. Two years hence you will not be able to buy an acre of Morgan County land for twice the figure it can be had for today.

Morgan County has any number of advantages over nine out of every ten farming sections in the United States. No crop failures; no droughts; no malaria; no hot winds; no intense heat; no bitter cold. The people are friendly. The schools, churches and shipping facilities are all that can be desired. The system of irrigation is co-operative and economical. The climate healthful. The soil rich.

Morgan County's crops beat the world. Wheat averages nearly 40 bushels to the acre. Over 100 farmers report this year's yield as in excess of 40 bushels and fifty as in excess of 50 bushels. Oats, corn and potatoes do equally well. Alfalfa is a staple crop and yields 5 tons to the acre. Cattle and sheep raising are profitable. Market gardening and fruit culture receive a great deal of attention. One man will make this year \$1,300 from three acres of onions. Another \$820 from 60 stands of bees. A third has already been paid \$1,520 for the proceeds of 70 acres of wheat. And so it goes through the entire list.

Full information about Morgan County can be obtained by writing to J. Francis G. P. & T. A., Burlington Route, Omaha, Neb.

THINK BEFORE YOU KICK.

Do Not Talk About "Worthless Agitators" Until You Do a Little Thinking.

You are sometimes offended at things you find in the Coming Nation; you get mad and write a postal card—without giving your name or locating yourself—and you think that the editor is a wild long-haired dangerous "anarchist" who ought to be in jail—with the gentle and manly Debs. But that don't help matters a bit, brother. Don't be a cypher, brother. Go and talk with some aged, well-informed and honest man in your neighborhood, in whose integrity and judgment you have confidence. He will tell you, being honest and well informed, that when we had no millionaires we all had a living. You, of course, admit that now when we have many millionaires, many of us are starving. The old man will tell you, being honest, that our present system allows one man to lay thousands of men under contribution and to take something from each. He will tell you that what the one gains the many lose; that the one grows rich by making the many poor. He will tell you that under present conditions the millionaire has the power, not only to take from each what he has already gained, which power has always been exercised by the "great," but has a new power peculiar to this age, and that is the power of taking from men their chance of gaining a livelihood by applying their labor. He will tell, being an honest man, that capitalism has always taken from the laborer that which labor has gained, but never until the introduction of labor-saving machinery has it been possible to take from a man the chance to apply his labor. He will tell you, what you ought to try to understand, that we are face to face with a problem entirely new, which is this: While tyrants have always robbed the people of their earnings, they have never until now taken from them the opportunity to labor.—Coming Nation.
