AFRAID OF CONSUMPTION.

People who lose flesh are in danger of consumption. In many cases loss of flesh s the first symptom of the dread disease.

Light weight is too often a sign of some wasting disease which gets its first start from indigestion. Cure the indigestion and health, strength and flesh will be rapidly regained.

All physicians are agreed that the most important thing to be done in such cases is to improve the appetite and digestion; and if this cannot be done there is very little hope, for strength, flesh, pure blood and strong nerves can only come from plenty of wholesome food well digested. This is the reason so many physicians recommend Stuart's Dyspepsia Tablets, because of their wonderful invigorating and nutritive properties. For loss of rigor, headaches, constipation, sour risings and other symptons of dyspepsia they constitute the salest, most natural cure. And there is a good reason for their success. They are composed of the natural digestive acids and fruit essences which every weak stomach lacks. Stuart's Dyspepsia Tablets rapidly in-

rease the weight, the hectic flush soon eaves the consumptive's cheek, the skin assumes the hue of health, night sweats cease, the cough dies away and the emaciation is lost under a coating of warm, normal flesh.

Taken after meals these Tablets digest all wholesome food eaten, increasing the appetite, enriching the blood and soon remove those miserable feelings which only the dyspeptics can appeciate. Stuart's Dyspepsia Tablets are sold by druggists at 50 cents for full sized package. A book on stomach diseases and thousands of testimonials of genuine cures sent free by addressing the Stuart Co., Marshall, Mich.

RINGS IN ALL AGES.

Dial rings were common in France and Germany during the last century; by holding one up to the sun the time of day could be approximately ascertained.

In the seventh and eighth centuries, at every wedding among wealthy Saxons, numbers of gold rings were given away to friends as memories of the occasion.

In the time of Augustus portrait rings came into fashion, probably for betrothals or engagements. The portraits of the happy pair were graven on the setting.

Among Solon's laws there is one forbidding jewelers to retain copies, models or impressions of signet rings which they had made. This was to prevent forgery.

Roman dandies in the first, second and third centuries of our era wore heavy rings in winter, which they exchanged for others of lighter weight during the summer.

Pliny tells of Aurelius Fuscus, who, being expelled from the equestrian order and therefore not permitted to wear gold rings, replaced them with those made of silver.

The ring composed of several loops, which fell apart when a spring was pressed, was frequently used in the fifteenth century as a betrothal, and sometimes as a wedding ring.

BITTER PERSONAL CLASH.

The Two Missouri Congressmen Pay Each Other Hot Compliments Over Their Differences on the Silver Question-Hall to Stand for

> Re-Election on His Sound Money Record.

WASHINGTON, Feb. 15. - There was clash in the House yesterday afternoon on the silver debate between DeArmond and Hall of Missouri. The gentlemen had paid their respects to each other before during the debate, but each in the absence of the other. Yesterday Mr. Hall opened by referring to the fact that Mr. De Armond had mentioned the names of Benedict Arnold and Judas Iscariot "without the apparent courage to make a personal application." Pro-ceeding, he indignantly denied that he had been a "Washington convert" to the cause of sound money and adverted to a standing challenge he had posted in Missouri last summer to discuss the issue on the stump. He also denied that he intended to charge his

free silver friends in the House with personal corruption. "Why should the gentleman feel that he has been hit?" he asked, turn-

ing to Mr. De Armond. "I do not know, unless the solution is found in the old adage that the bird which has been hit flutters."

Mr. Hall, continuing, replied to the charge that he had been posing as the author of the income tax. By this time the House was intensely interested and the members crowded about the combatants.

Mr. De Armond had fire in his eye when he arose to reply. He did not feel, he said, that anyting the gentleman had said had struck him, but he felt, as one of the Representatives from were trying to rob the Papillion bank. Missouri, that when the newest convert from that State to the so-called sound-money doctrine saw proper in making his platform to class the Chinese, people from the East Indies and the depths of Africa and the lower animals in the category of those who did not change their opinions, that perhaps it might not be inappropriate to suggest that there might be changes of opinion that would evidence no tremendous exaltation above those referred to. (Laughter).

As to the income tax business, he said, the gentleman had allowed himself to be paraded as the author of the bill when he knew he was not. "He said he had been informed and believed that eight senators who had voted for free coinage," continued Mr. De Armond, "had said they believed it would bring bankruptcy and ruin to the country. He did not identify them; he did not name one; he never will do it. If eight senators, or one

MOB RIGHT AFTER HIM theriff Crockett Has New Trouble to Face

With His Prisoner, Lyons.

CREIGHTON, Neb., Feb. 18.-Sheriff Crockett of this county passed through here Saturday afternoon on his way to the county seat, having in custody Wm. Lyons, who is charged with the larceny of thirty head of cattle stolen in the summer of 1893. The sheriff obtained him from the authorities of Nemaha county, Kansas, on requisition papers. He experienced considerable difficulty with the officers in getting him as they demanded the reward in advance. The county supervisers here have had a standing offer of \$250 for his capture ever since his departure from this county directly after the cattle were stolen. Three other suspects have already been tried and acquitted on the same charge.

An interview with the sheriff here developed the fact that he had re-ceived intimations that an attempt would be made to take his prisoner from him while on the stage between Verdigre and Niobrara, and deal summarily with him. If such is the case there will be trouble, as Sheriff Crockett is a determined man, and is prepared for all emergencies.

SHOOK THE LITTLE TOWN

Bottle Supposed to Contain Nitro-Glycerine Exploded at Papillion.

Омана, Neb., Feb. 18.-At Papillion, just south of Omaha, Saturday night, the city marshal saw two men acting suspiciously, and tried with 'four assistants to arrest them. They fled with a satchel, but being hard pressed. dropped it. An exchange of shots 4-

lowed but the fellows made their escape. The satchel was found to contain a fine kit of burglars' tools, and a filled water bottle. The bottle was cautiously placed near a creek and a shot fired into it. A terrific explosion followed, which shook the earth for

several hundred yards, all the window lights in the neighborhood were broken, and the man who fired the shot was so badly injured that he cannot recover for some weeks. The fluid was pronounced to be nitro-glycerine, and the escape from a calamity is regarded as miraculous. A search is being made for the burglars, who, it is thought,

FREMONT, Neb., Feb. 18 .- A tired and footsore man, pushing a wheelbarrow, which was decorated with flags, followed by a yet more footsore dog, walked into town last night. The man was Fred Miller and the dog was his companion, Guess. The wheelbarrow was lately picked up from necessity. Miller by profession is a pedestrian, and holds the long distance championship belt given him by Rich-ard K. Fox, of the Police Gazette. SILVER ADDRESS.

Chairman Mott Appeals to the People of the Country.

WASHINGTON. Feb. 18.-J. J. Mott. shairman of the national committee of the Silver party, has issued the following address to the people:

"To the People: As chairman of the national committee, appointed by the silver conference lately assembled in Washington to organize the silver forces in these United States in the battle which is to take place for the possession of the government this year, it is thought proper that I should make some statement to the people in reference to it."

The address then goes on with a history of the silver question, and continues:

"The peril that menaces the people in the election of a president whose administration of the government means a perpetuation of the present financial system can only be averted by the people themselves. It may be too late four years hence. Present abnormal conditions do not warrant belief in the peaceful submission of the people to further oppression and impoverishment.

"Let us have the metal money restored and in the proportions found in nature's storehouse, and as it existed in Washington's time, when the flag and the constitution were fresh, and God seemed to speak to the people from an open book.

"The people are enraged, and justly so. Must they say at last to these leaders: 'Lo, these many years, have we sent you for silver, and you have returned to us without it; you are unprofitable servants and have led us through the bog and quagmire of dis-appointment. We like to honor you, but you must take us by some other road and reach our idol.'

"The men who blazed the way to be silver conference did well. The the silver conference did well. people see the citadel of their liberties and are ready for the battle. The Philistines are at our doors. To your tents, O, Israel."

GOMEZ WARNS WEYLER.

Should the Latter Repeat His Former Atrocities He Will Be Assassinated.

TAMPA, Fla., Feb. 18 .- One hundred and forty passengers arrived on the steamer Olivette from Cuba last night. They say that the rumor prevails in Havana that the prisoners in Moro castle are being shot, as the firing can be heard in the city. Gomez has noti-fied General Weyler that should he attempt to repeat his atrocities of the former revolution that he would be shot by Cuban assassins.

The Lesser Carnival Matches.

EL PASO, Texas, Feb. 18 .- O'Rourke for Walcott, and Kenny for "Bright Eyes," last night agreed to bring off their match between their men at the Lennox club, New York, on March 8, for the gate receipts. The Barry and Murphy match will take place at the same place in the same month, and probably on same date. If negotiations pending with New Orleans do not materialize Everhardt and Leeds will fight at Maspeth, L. I., in March. It was arranged that the Dixon-Marclothes would be taken for a tramp. He is now on his return trip from at Boston.

BOSARTH ON TRIAL.

Evidence Introduced Tends to Show H Mardered Young Fawcus.

SIDNEY, Neb., Feb. 18 .- The introduction of testimony in the Bosarth murder case commenced last Friday morning and closed for the state Saturday noon. The trouble which led to the shooting of young Fawcus arose over an irrigation ditch in which both were interested. Bosarth thought he was not getting the amount of water he ought and trouble ensued when Bosarth shut the head gate which kept the water from Fawcus' land and let it all onto his land. On Sunday, May 26, 1895, Bosarth made a visit to the Fawcus head gate on horseback, carrying a shotgun. Fawcus saw him and getting on a horse rode out to meet him. Bosarth awaited his approach, and as soon as he came near enough, shot him dead. The shooting was seen by different parties, and the case is strong against the prisoner.
