All the Znemies of the Common People Combined on McKinley.

POPS A BAND OF PATRIOTS.

They will Sacrifice all Other Things to Secure Good Government.

> What Traitors are Doing., WASHINGTON, D. C., Oct. 3, 1896.

The national campaign has now ed what might be called the home stretch in the terrific struggle going on between the people and the tremendous combination of trusts, monopolists and the gold power. Every man and syndicate that profits by hard times and distrees of the people, are combined to defeat Bryan in this fight. A number of men and influences that in the past have been most potent in the management of the democratic party are now allied show that the free coinage of silgood government, who have hitherto been divided into different parties, are now combined on McKinley. Therefore, the patriots who have been before divided into separate parties should now, for the same reason, unite solidly in the support of Bryan. The results of this parties. ded into separate parties show.

I ded into separate parties of the democrat.

I deaders of the democration of the

ination and nominated Mr. Bryan.

While every man in America who is opposed to the gold trust should have joined hauds in support of the Bryan and Watson ticket, yet, when this could not be accomplished, the people's party with the most unparalleled patriotism, determined to do its duty and unite every voter in favor of financial reform for Bryan and against McKinley, in spite of the fact that the democratic party would not meet them half way spite of the fact that the democratic party would not meet them half way and do their duty. Thus, joint electoral tickets have been formed so far in over three fourths of the states on which so many democratic electors have been put up for Bryan and Sewall, and so many populists electors for Bryan and Watson, thus giving an opportunity to every voter opposed to the gold standard to unite their votes against McKinley and Hobart. If similar arrangements can be made in the remainder of the states, and the republicans and tory democrats fail to breed dissention in their efforts to get a number of democrats and populists not to support the joint electoral lists not to support the joint electoral tickets when victory is assured. It is known that the republicans have put forward, so far, every effort to prevent these joint electoral tickets from being arranged. It is also known that they have their agents in the field, trying to find democrats and populists to rebel against these electoral tickets after they are formed. The only hope for republic can victory is in this scheme. It is to be boned that no honest man will be caught in this goldbug trap.

BRYAN'S INVASION OF NEW ENGLAND. Bryan's invasion of New England has been a marvelous success. It may not result in carrying any New England state, but the boldness and the courage with which he faced the agents of organized greeed at every step, astonished and dumfounded the enemies of good government in their strongholds, and a given new hope, courage, and enthusiasm to the people everywhere. At Hartford, Connecticut, the headquarters of a number of great insurance companies, he arraigned them for their course in this campaign in trying to force the gold standard upon the people, and appealed to them to relent in their rtless greed and support such a rs to prosper, at least sufficiently to keep the premiums paid on their pol-

The outrageous conduct of the students of Yale in trying to break up Bry-an's meeting at New Haven, by disorlerly conduct and rowdyism, is a startling evidence of the extent to which the d power and monopolists are gaining outrol of our educational institutions. The young students who are guilty of conduct are not themselves respon-They are the equals in every respect of the young men to be found at svery college; but when boys and young men participate in such ungentlemanly and unseemly conduct it is a proof that there are older heads behind who do not only approve of their conduct, but who te them to it. In this connection. it is not out of place to note that the Beware of Ointments for Oatarrh that ers of political economy in three ourths of the colleges of the country are oday the parrots of the gold trusts and thing a false and ruinous doctrine to the youths of the land, in the inter-

ests of monopolists and organized greed.
Republican headquarters are becoming alarmed at their failure to control or even divide the labor vote in this ign. The great issue that effects elfare of our laborers and wealth ers is so clearly drawn in this gle that every man who has felt ich of poverty and hard times in he past sees clearly the path of interest adduty, and thus the laborers and rs of the nation are lining up solfor Bryan and better times.

In spite of the enormous amount of oney that the republicans have used, oney that the republicans have used, and expect to use during the remainder this campaign, they are becoming croughly alarmed at the result. They alise that the American people are tribly in except, and are determined throw off the oppressive and traitors yoke of Clevelandism and Sherman. m. Even the enormous campaign fund the republican party is beginning to

moos campaign fund to buy the election for McKinley and will not those who have furnished the money use McKinley and the republican congress and levy additional millions upon the masses of

the people?

If the election were held today Bryan would undoubtedly win. That his strength will increase in the next thirty

days is a least a moral certainty.

Since our last letter joint electoral tickets have been arranged in North Carolina, Kentucky, Louisana, and Indiana, which insures these states for Bryan. It is understood at headquarters that in several more states arrangements will be made during the coming week.

Governor Holcomb was the first speaker, and very earnestly discussed the is-sues for an hour and a half, was given the closest lattention, and was frequently and heartily cheered. The solid thinking men of are thoroughly satisfied that Governor Holcomb has given the state a thorough business administration, and is saving the state \$100,000, or more per year, in spite of the fact that the republicans have thrown all the obstacles possible in his way. And sensible business men and farmers of all parties know a good thing when they have it and will vote to retain the best governor Nebraska ever bad.

Geo. E. Hibner was the next speaker and held the large audience for another hour and thirty minutes as he discussed the national issues from the stand point of a free silver republican. He showed up the present policy of the republican party in a way to make even the hardened members of that party wince. He was cheered to the echo from start to finish, and many republicans who do their own thinking were brought to see how the party managers are now trying to sell this country to the money changers, that all other classes may be pauperized and enslaved. It was the most enthusiastic meeting ever held in Pawnee county and much good was done for

the silver cause. This morning Governor Holcomb at the invitation of President R. T. Sr. Louis, Mo., Oct. 3 .- William J. Bryan today gave out his letter acceptressure that is being brought by the ing the populist nomination. It reads

LINCOLN, Neb., Oct. 3 .- Hon. W. V. I fully appreciate the breadth of the patriotism which has actuated the members of the people's party, who, in order to consolidate the sentiment in favor of bimetallism, have been willing to go outside of party lines and support as their candidate one already nominated by the democratic party, and also by the silver

I also appreciate the fact that while, during all the years since 1873, a large majority of the democratic party, and a considerable minority of the republican party, have been consistent advocates of the free coinage of silver at the presratio, yet ever since the organization of the people's party its members have unanimously supported such coinage, as the only means of restoring bimetallism. By persistently pointing out the disastrous effects of a gold standard and protesting against each successive step to-wards financial bondage, the populists have exerted an important influence in awakening the public to a realization of

the nation's peril.

In a time like this when a great political party is attempting to surrender the right to legislate for ourselves upon the financial question and is seeking to bind the American people to a foreign mone-tary system it behooves us, as lovers of our country and friends of American institutious, to lay aside for the present such differences as may exist among us on minor questions, in order that our strength may be united in a supreme effort to wrest the government from the hands of those who imagine that the nation's finances are only secure when

icans, whohave ever believed in independent bimetallism, but also the active o-operation of those democrats and refor international bimetallism, now join with us, rather than trust the destinies of the nation in the hands of those who are holding out the delusive hope of foreign aid, while they labor secretly for the permanent establishment of the single gold standard.
