Stands a Good Chance.
A good many democrats who felt incensed at the refusal of Hon. John H. Ames as United States circuit court commissioner to entertain the charge of attempted coercion and intimidation preferred against Water Commissioner Byer, growing out of the peremptory dismissal of Freeman Kennedy of the water department for his refusal to support McKinley have been heard declaring their intention of opposing Mr. Ames' candidacy for appointment as United States circuit judge to succeed the late Judge Dundy. Recent events, however, prove that these democrats could not do anything that would operate so greatly to Mr. Ames' advantage in this contest as to oppose him on the grounds stated.

There is no question that the action of the water commissioner was cowardly and despicable, and in direct violation of the federal statute for the prevention and punishment of attempt to coerce and intimidate voters, but such acts of political tyranny are but the outgrowth of modern political methods. Lincoln is so unfortunate as to be burdened with a republican administration, and it is but natural, perhaps, that the administration should use the full power of the city government to further the success of the republican party. Custom, which too often ignores and discredits laws specifically enacted, prescribes that the man who holds office under a republican administration must show himself to be a republican or get out of the office. This custom is the rock of Gibraltar upon which Water Commissioner Byer builds his fabric of justification for the removal of Freeman Kennedy, and it is doubtless upon this ground that United States Court Commissioner Ames declined to entertain a complaint against Mr. Byer under the federal statutes.

If the electric light of the most searching investigation were turned upon Mr. Ames' course in this matter and the facts were made plain to the administration, they would not in the least embarrass Mr. Ames' candidacy for the federal judgeship. One would at first blush suppose that a man who would excuse or wink at a violation, even in spirit, of federal law, could for a moment be seriously considered as a fit and likely candidate for a federal judgeship, but the truth is, that under existing conditions nothing would so seriously operate to Mr. Ames' advantage in his race for the judgeship as to have full knowledge of his acts in this matter brought to the attention of the administration. This can be said without any design to reflect unjustly upon the national administration. It would doubtless be tacitly acknowledged by the administration, but if it were not one would not have to search history further back than the telegram of this morning to prove it.

The press dispatches show that President Cleveland has inaugurated a crusade against federal clerks who have been taking an active interest in the recent election in sympathy with the democracy. Eight of them have been released since the election as victims of the president's ill will because they were not on his side of the recent political controversy. They are Judge William B. Fleming of Kentucky, chief of the law and record division of the office of supervising architect;

Thomas F. Brantley of South Carolina chief of the army and navy pension division of the auditor of the interior department; Burton T. Doyle of Tennessee, assistant chief of the warrant division of the secretary's office; Thomas Adams of Kentucky, agent of treasury department at Alaska sea island; William E. Ryan of New York, a third class clerk in the miscellaneous division of the secretary's office; J. M. Leach of North Carolina, a messenger in the office of the commissioner of internal revenue; James H. Couch, jr., assistant United States attorney for West Virginia, and Miss Mindie McMillan of Kentucky, a clerk in the office of the supervising architect. Judge Fleming, Mr. Adams and Miss McMillan were friends of Senator Blackburn of Kentucky and were active in the Blackburn-Carlisle contest for the Kentucky senatorship, and Ryan was a free silver candidate for congress in the Rochester district in New York.

In his contest for the judgeship Mr. Ames ought to bear down hard upon his record in the Byer episode. It will appeal to the bigotry of the appointing power. No certificate of good character or legal ability that could be presented could be relied upon to have so much force and effect. His rivals for the appointment are Judge Crawford of West Point, A. J. Sawyer of this city, and T. J. Mahoney, Frank Irvine, W. D. McHugh and C. S. Montgomery, all of Omaha. They doubtless all have their special recommendations, but Mr. Ames, in this little episode of the Byer coercion case, holds the trump card that will tickle the fancy of the goldbug president.

One Honest Man.
Dear Editor: Please inform your readers that if written to confidentially, I will mail in a sealed letter the plan pursued by which I was permanently restored to health and many vigor, after years of suffering from Nervous Weakness, Loss of Manhood, Lack of Confidence, etc. I have no scheme to extort money from any one whomsoever. I was robbed and swindled by quacks until I nearly lost faith in mankind, but, thank heaven, I am now well, vigorous and strong, and anxious to make this certain means of cure known to all. Having nothing to sell or send C.O.D., I want no money. Address Jas. A. Harris, Box 895, Delray, Mich.

A contest is now on between O. W. Palm of this city and Fred Metz, sr., of Nebraska City for the honors of bearing the returns of Nebraska's election to Washington. It is customary for the electors to name one of their own number and Mr. Palm stands a strong chance of being favored. The legislature fixes the compensation at 15 cents per mile and the messenger receives \$125 when he arrives in Washington. The trip occupies about two weeks.

FAITH OURE A GOOD THING
In Some Diseases, But It Is a Failure in Stomach Troubles.
More faith will not digest your food for you, will not give you an appetite, will not increase your flesh and strengthen your nerves and heart, but Stuart's Dyspepsia Tablets will do these things, because they are composed of the elements of digestion, they contain the juices, acids and peptones necessary to the digestion and assimilation of all wholesome food.

Stuart's Dyspepsia Tablets will digest food if placed in a jar or bottle in water heated in 98 degrees, and they will do it much more effectively when taken into the stomach after meals, whether you have faith that they will or not.

They invigorate the stomach, make pure blood and strong nerves, in the only way that nature can do it, and that is from plenty of wholesome food well digested. It is not what we eat, but what we digest that does us good.

Stuart's Dyspepsia Tablets are sold by nearly all druggists at 50 cents for full sized package, or by mail from the Stuart Co., Marshall, Mich.

IT SUITS MEXICO.
Gold Monometallism in the United States Means the Prosperity of Mexico.
CITY OF MEXICO, Nov. 6.—No previous presidential election in the United States has created such excitement and interest among all classes as the present one for business men. Bankers and manufacturers felt that Mexican interests demanded the election of McKinley. The Mexican Herald says:
"For Mexico the declaration of the American people in favor of the gold standard means continued prosperity here. It signifies large dividends for our mills and banks thus carrying into effect many large and important undertakings for which capital would not have been obtained in the United States had Bryan been elected. The result is for the general good of Mexico."

MEDICAL WISDOM
The Dreaded Consumption Can Be Cured.
T. A. Slocum, M. C., the Great Chemist and Scientist, Offers to Send Free to the Afflicted, Three Bottles of His Newly Discovered Remedies to Cure Consumption and all Lung Troubles.
Nothing could be fairer, more philanthropic or carry more joy in its wake than the offer of T. A. Slocum, M. C., of 183 Pearl street, New York City.
Confident that he has discovered an absolute cure for consumption and all pulmonary complaints, and to make its great merits known, he will send, free, three bottles to any reader of NEBRASKA INDEPENDENT who is suffering from chest, bronchial, throat and lung troubles or consumption.
Already this "new scientific course of medicine" has permanently cured thousands of apparently hopeless cases.
The Doctor considers it his religious duty—a duty which he owes to humanity—to donate his infallible cure.
Offered freely, apart from its inherent strength, is enough to commend it, and more so is the perfect confidence of the great chemist making the proposition.
He has proved consumption to be a curable disease beyond any doubt.
There will be no mistake in sending—the mistake will be in overlooking the generous invitation. He has on file in his American and European Laboratories testimonials of experience from those cured, in all parts of the world.
Delays are dangerous. Address T. A. Slocum, M. C., 183 Pearl street, New York, and when writing the Doctor, please give express and postoffice address, and mention reading this article in the NEBRASKA INDEPENDENT.

Cyclone Davis.
We note with pleasure that Hon. J. H. Davis, better known as Cyclone Davis, of Texas, has been elected to congress, for which we are very thankful. Mr. Davis is a man of great ability, and is a true friend of the people, and his election will be of great benefit to the people of the United States. Our hand, Brother Davis.—Silver Knight.

THE POPULIST PARTY.
It has the Best Organization in the Union.
The result of the election has shown that the people's party has the most compact and perfect organization of any political combination in this country. Whatever the republicans may say and no matter how the democrats wrangle, the fact remains that Mr. Bryan never became a formidable candidate until he was nominated by the populist National convention. Had there been a real spirit of fusion among the democrats, and had they been willing to meet the people's party half way, the Watson-Sewall fatality would not have arisen to under the forces of right. As is now evident, the Watson-Sewall imbroglio ought to have been disposed of. It wasted strength and gave Mr. Hanna all his opportunities. There is little use in crying over spilt milk. Mr. Bryan displayed true genius in dealing with the complication, but even he could not untie the Gordian knot. The question arises, to whom belongs the credit of the vote in states using the Australian ballot in its blanket form? In New York, for instance, many members of the people party voted the straight ticket mark democratic owing to the fusion. The returns must be misleading, therefore, in so far as concerns a division of the votes. The two parties are indeed placed in a curious position toward each other. Their future relations will be a matter of the first importance. The Hanna syndicate deliberately tricked the voters in most states by playing ducks and drakes with the printed sheet, and bewildering hosts of Mr. Bryan's supporters. Mr. Hanna has done his worst, however. He will not get such opportunities again.—Twentieth Century.
