GREEKS HARD FIGHTERS.
MORE THAN HOLD THEIR OWN WITH THE TURKS.
CHANCES ABOUT EVEN.

The Sultan's Government Acknowledges Having Encountered Unexpected Resistance—Grecian Successes at Several Points Undoubted—No Walkaway for Turkey—Latest War News.

LONDON, April 22.—To-day there was the same conflict of reports from the seat of the Greco-Turkish war as on previous days, but Greek prospects appear considerably brighter, the Turkish government, usually chary of conceding anything, acknowledging to-day that the Turks had met desperate resistance at all points. Taking a general survey of the field, the fortunes of war thus far seem pretty evenly divided, but the chances for the immediate future are decidedly in favor of the Greeks.

The Turks claim to have carried Tynavo by storm yesterday and to be within ten miles of Larissa, but this is contradicted by the Greeks. The Grecian warships are preparing to attack Salonica, the base of supplies of the Turkish armies, and great alarm prevails there.

The pass at Reveni, a few miles northwest of Tynavo, where there are about 40,000 Turks under the personal direction of Edhem Pasha, has been the scene of the fiercest fighting of the war. This army of Moslems, singing and chanting war songs, reaches from Reveni to Boughese, and for the past three days have unremittingly endeavored to obtain a free road to the Thessalian plains. Twenty thousand Greeks, under the direction of Prince Constantine, have steadily fought and struggled to keep back the Mohammedan stream, and have thus far succeeded.

Undoubted Greek Successes. On the Gulf of Arta the Greeks are having things pretty much their own way. The Turks at Arta attempted to cross the river despite the fire of the Greek artillery. This was magnificently handled, however, and the Moslems were mowed down by the score, the river being literally filled with the sultan's soldiers. Then the Turks retreated. Colonel Manos, in his invasion of this part of Epirus, has been very successful. He has occupied several villages with slight resistance and has hastily fortified them. There is hardly any serious obstacle to his advance northward into Albania and toward Janina, where a great battle may be fought. After retreating the Turks attempted to bombard Arta, using nearly one hundred pieces of artillery in the operation. But it failed, their marksmanship being bad and the range too great.

Greek Forces in Epirus. A dispatch from Arta says that 3,000 Greeks have crossed the frontier of Epirus at Bani, and a severe artillery duel has been in progress since Monday. The Greek artillery have silenced the Turkish Inaurel fort, commanding the town. Two attempts by the Turks to cross the river were repulsed. There has been brisk artillery and infantry firing along the line for about five miles. Two Greek officers and many Turks have been killed.

The Greek government has addressed a note to the foreign ministers and consuls in Greece, calling their attention to the fact that Greece has adhered to the declarations of the Berlin congress of 1830 and expressing the hope that foreign governments will respect the laws of neutrality.

IT'S NO WALK-OVER.
 Turkey Acknowledges Surprise at the Greek Resistance.

CONSTANTINOPLE, April 22.—The Turkish authorities here admit that the losses of the Ottoman troops since the outbreak of the war with Greece have been considerable. The Turkish commanders expected a fairly easy march to Larissa, and did not anticipate the stubborn defense and desperate valor with which the Greeks have opposed the invasion.

Izzet Bey, the confidential adviser of the sultan, has been disgraced, owing to his opposition to war with Greece and to his action in proposing that the sultan should negotiate directly with Greece for the purpose of bringing about an amicable settlement.

While France is protecting the Greek Catholics in the Turkish empire Great Britain has undertaken to protect the orthodox Greeks during the suspension of diplomatic relations between Greece and Turkey.

Edhem Pasha has telegraphed to the sultan that he gained several notable victories Monday, occupying all the fortified positions commanding Tynavo. He reported that the Greeks evacuated their entrenched camp, leaving behind thirty cases of cartridges and many rifles. The Turks, he said, had retaken Vellitza, which the Greeks had surprised and taken on the first day of the frontier aggression.

feated by Turkish troops and peasants, and that 100 Greeks were killed. A second Turkish squadron left the Golden Horn yesterday afternoon for the Dardanelles. It consisted of the ironclad Orhanion, the monitor Hif-sirahman, the corvette Mansoura, five torpedo boats and four steamers which had been converted into cruisers.

Prince Mavrocordato, the Greek minister to Turkey, has sailed for Athens. All the ambassadors except the German ambassador went to the quay and bid him farewell.

LONDON, April 22.—The latest details as to the fighting at Milouna pass make it evident that the Greeks suffered severely because of their lack of artillery. Several of the war correspondents aver that if the Greeks had possessed anything like adequate artillery the Turks would never have captured positions so obstinately held by the Greeks. The Turks have clearly much to be thankful for in the reorganization of their artillery by German officers.

A dispatch received from Constantinople at the Turkish legation last evening declared that the village of Kriechora, in Greek territory, had been occupied by the Turks and that the Turkish division commanded by Nechat Pasha, operating against Tyrnavo and Larissa, had carried all the positions commanding the plain of Larissa. At Kriechora and Badji the Turks captured many prisoners and quantities of arms and ammunition.

The Greeks who were defeated in the Milouna pass are reported to have fled in a westerly direction and also toward Larissa.

MANY MINES AT SALONICA.
 Extreme Precautions Taken to Check the Expected Greek Warship Attack. LONDON, April 22.—A special dispatch from Salonica announces that the port officials there are vigilantly looking out for the Greek fleet, having been informed that the war vessels of Greece have been ordered to make an attempt to seize the city, which is the base of Turkish supplies for the army operating against the Greeks. The military authorities of Salonica have laid 150 torpedo mines in the bay, and further steps have been taken to protect the narrow entrance of the harbor between Cape Kara and the mainland of Macedonia. Lookouts have been stationed on all the headlands and points of vantage overlooking the bay with instructions to immediately report the appearance of the Greek fleet, which is expected to make a demonstration against the place very shortly. The harbor has been thoroughly mined and a number of torpedo boats have been stationed in well selected places. The entrance of the harbor, from Cape Kara to the mainland of Macedonia, is strung with torpedoes, and large quantities of ammunition have been sent to all the batteries.

INNOCENCE HANGED.
 George Jones Gives His Life for a Murder Never Committed.

WICHITA, Kan., April 22.—About three years ago Jesse and Charles Hibden, cousins, and a cook named George Jones, left their homes in Pauls Valley, I. T., and went to Arkansas to buy cattle. They never returned and foul play has always been suspected. When no sign of them could be had Jones was arrested, tried and convicted of the double murder, and was hanged a year ago.

Greatly to the surprise of every one, Jesse Hibden, one of the supposed dead, has just been located in a territorial prison, where he is held for selling whisky to Indians.

PARNELLITE CONVENTION.
 The Independent Irish Home Rule League Organized.
 DUBLIN, April 22.—There were 16 prominent Parnellites present at the convention summoned to meet in this city yesterday by John E. Redmond. The meeting was private. A resolution was adopted, providing for the formation of an independent Irish league, in which agrarian interests are not to be dominant, and which will be founded upon the broadest and soundest basis of independent political action for the benefit of the whole Irish nation.
 The object of the league will be "civil and religious liberty, and no further interference of priests in politics; absolute independence of alliances with any English party and reverting to the old demand for coordinate parliaments; the principle of Federalism in Mr. Gladstone's home rule proposals, and manhood suffrage, which will give the Parnellites a political majority in Ireland."
 The league will also urge the immediate redress of Ireland's financial grievances, amnesty for all political prisoners, land law reform, and the development and encouragement of labor and the industrial resources of the country, etc.

SCISSORS DEPARTMENT.
 IMPRISONMENT FOR DEBT.
 The frequency with which the World has advocated national bankruptcy legislation makes it the more ready to emphasize all that Senator Knute Nelson says in objecting to clauses in the Torrey bill which might be used to revive imprisonment for debt.
 If, as has been said, these clauses can be given the force of the old Scotch law of the time of Queen Anne, under which a debtor could be arrested and held on a mere prima-facie affidavit from an interested party charging intention to escape, or if they can be construed to warrant any form of imprisonment for debt whatever, they should be stricken out at once.
 The government of the United States ought to lead the progress of the world. It could not authorize any form of imprisonment for debt without facing back towards the dark ages.—N. Y. World.

JACKSON, Miss., April 22.—A dispatch from Greenville says the levee on Promise Land plantation, at Ship-land, Issaquena county, broke this morning. It was eighteen feet high and backwater was already against it.
 It is estimated that 15,000 people are in need in the flooded region of North Louisiana, and Vicksburg is crowded with refugees who are very quiet. The river is falling as far as Vicksburg, but branch streams are at flood height and the worst is by no means over.
 At Bayou Videt, in the lower portion of Madison parish, the water from the Biggs crevasse caught the people unprepared and unaware of danger. Word was sent out from that locality requesting that boats be sent there at once, as the people were drowning. How many were actually drowned is unknown, but Thomas Blackman, his wife and infant are known to have perished.
 NEW ORLEANS, La., April 22.—The river began to fall here yesterday and it is believed that the crest of the flood wave came on a fair day, found the people prepared and passed on. Planters, farmers, laborers and merchants have abandoned everything else and are camping on the weak spots, watching closely, and holding them against a weight of a mass of water which is almost inconceivable. More material is going out now than ever before and piles of new work of box levees, of miles of filled sacks and earth have sprung up in every section. Railroads are carrying men and materials free and no money has been spared by the levee board or the people. Still all the new work is only calculated to prevent the flood from crossing the levee line and when the water falls nearly the entire system will need substantial repair, if not rebuilding.

INSURANCE DEPARTMENT.
 J. Y. M. Swigart Editor—Hall, Cyclone and Fire, Farm and Town—Agents Wanted—Write Editor of Insurance Department.
 CYCLONE.
 Texas, Alabama and Oklahoma have each had a cyclone. It may be our turn next, and not one tenth the buildings in the state are insured against wind. People are largely to blame for the many fires that occur annually but no amount of care can prevent a cyclone.
 When fire breaks out all will lead a hand to save the property. When a cyclone is getting in its work all will break for the cellar if they have one and yet not one in ten carry any insurance against cyclones. We have room for every building in the state on the mutual plan and no exorbitant fees will be paid to officers or agents.
 TOWN CO.
 By May 1st we hope to be able to be ready to send out printed matter and in two weeks more we will be able to issue policies if each person who has asked for an agency will write one application. Our company will only insure dwelling property thus avoiding the possibility of mercantile risks.
 As soon as the detail work is completed we will send out to all who have applied for an agency and ask that they each secure at least ten applicants the first month.
 This will give us the finest start of any company in the state and on the best class of risks in the state. We will insure against fire, lightning and wind.
 MAIL.
 We are now sending out supplies to hundreds of applicants for agencies for Hall. So far as heard from all are well pleased with the new plan.
 We want more agents to represent our companies.
