The government lost \$26,000,000 by paying the railroads 8 cents and receiving 1 cent per pound postage on 365,000,000 pounds of this matter.

Mr. Loud says the express companies carry the same matter for a little less than 1 cent. The Misstsstppi Valley Medical society's transactions for 1897 were carried everywhere from Ohio to the Rocky mountains for 1 cent per pound.

Cleaning the Republican Party.

Editor Independent: The republicans of Lincoln are now in earnest to clean out their dirty nest, for which purpose they have started two scrubbing clubs, the Ham-ilton club and the Abraham Lincoln club. The latter has engaged the immaculate Dr. Thomas Majors, professor of moral principles, as registered in the records and sealed with the great seal of the United States conress,, as a chaplain, who last Satarday explained the mysteries of the articles of faith of these clubs. He explained that the Abraham Lincoln club, Hamilton club and republican reform are one and the same-but he did not say humbug. Furthermore did this great professor of moral princi-ples declare: "No man can be dis-honest and be a republican." This latter declaration is proven to everybody. Even swearing a false oath cannot disqualify a fellow as a republican candidate for governor. And the two wise, infallible republican mem-

Help Nebraska's Great Statesman

Senator Allen no doubt ranks among the most noble and patriotic men of any country and to think Nebraska has stood by him so he could fight for the interests of the laboring people in maintaining (so far as he could) some of their rights and privileges embodied in the constitution is a boom to the populist party and a thunder bait to the republicans and democrats, for where do you often find a man who comes boldly out and faces the treachery as he does and tells in plain undeniable words what is practised upon the American people and the drainage perpetuated by such fraudatent pro-ceedings as has taken effect by such legislation as our country has been subjected to since syndientes and trusts have been forming, whose object was to get control of everything in such a way as to cause suffering and distress and get great presits by the result until we are now at a suffering condition, and if we had more loyal, patriotic and enthusiastic men like Allen to explain and inventigate the questions (financial, railroads, taxation, public carriers, etc.) and lay them open to be seen and read by all men won desire justice to all and no special favors to a few we would have a different display of American talent and gentus for the protection and wel-

fare of our American people.

In the garden of Eden man fell through the influence of Salan and a curse was pronounced upon him and all his descendants which cannot be all his descendants which cannot be avoided, but tiest did not mean by that punishment one man to damineer ever another and trump him under foot, rob him of everything and if he could not get anything more out of him make him a siave and continue to mismake him a siave and continue to misse him until he a exhausted and dies and so goes the routine until the ransom of the country is centered in a few hands, then tyrannical means is

brought to bear upon those remaining and victory remains in the hands of nearly a quarter of a century to find and integrity.

DANGEROUS SURGERY.

Death Follows the Surgeon's Knife-Not the Surgeon's Fault, of Course, He Can't Help It-You Can.

Painlessly, Without Danger,

People go along for years suffering the other thing from carrying a buckeye to getting treatment from a physician. They obtain temporary relief, maybe, but they are never quite cured. A little strain in lifting, excessive fatigue, a little constipation or a little diarrhoea and the piles come back.

They don't seem to amount to much, but they banish sleep and appetite. No position is comfortable. There is intense local pain and that dreadful feeling of weight in the perineum.

Maybe in the early stages some of the many salves on sale will afford temporary relief. If the case is of long standing there is only one speedy and thing to use. Other applications may always certain, always reliable, always the express companies were behind the Loud bill, nor that they were anxious to do this second-class mail business for 1 cent a pound, and refuse to carry that class of literature, no doubt, that would show up in any way the money power and its methods.
