states come in, as it showed that there

treat the populists with consideration.

victory gained in Nebraska this fall had

been of immense importance to the

whole country, as all talk of abandoning

the Chicago platform has subsided since

turned to a new and brighter era.

NO. 35.

WE TOIL FOR EUROPE.

In the Last Thirty Years We Have Given to Old World Monarchies \$14,000,-000,000 More Than We Have Received.

Everybody knows that the republican party began its rule in 1861 and has been in power ever since except for the short reign of Cleveland, which for the most part was the same as republican and a little more so.

According to republican treasury department figures. from June 30th, 1861 to June 30th, 1899, thirty-eight years the people of the United States exported merchandise to the value of \$2,638,715,-398 more than they imported.

It would be reasonable to suppose that this sum of exports over imports should have been received back to this country in coin. But no, according to like figures as above named exactly, the people of this country exported \$1,103, 688,349 more coin, gold and silver than they imported, making a total of exports over imports of merchandise and coin to

the amount of \$3,742,403,707. It would be reasonable to suppose that having exported that much more merchandise and coin than they import ed, our people would have owing to them from abroad the amount above named with interest, which latter would much more than double the sum. But no, according to figures, equally reliable as those above named, in less time than that above named, towit, all since the great war, the people of the United States, in their various capacities of states, counties, cities, corporations and individuals gave to foreigners, mainly British, bonds and mortgages to amount of over six billion dollars more than they

took of foreigners. And furthermore, according to reli able figures like those last above named people of the United States have given to foreigners, mainly British, real estate of vast amount, the extent of which canably to amount of about three billion deeds and transfers from foreigners.

The above four items show an outamount of more than twelve billion dollars, for which this country has never received anything and never will.

treasury report, the bonds of the interamount to \$1,037,049,690. Considering the increase of the dollar value the national debt is larger than it was at the close of the great war or any time since. Add the national bonds that are held

Before 1860 three-fourths of the traf- time the money, public funds, bonds and fic to and from the United States was revenues or any portion thereof were carried in American vessels greatly to loaned to other banks, corporations or the advantage of this country in bal-But under republican rule our merchant and dates thereof respectively. marine has so dwindled down that there | And the secretary of the treasury is \$100,000,000 in coin against our people what compensation has been paid to and in favor of foreigners as is plainly said bank or banks, directly or indirectly proved by Money Chart.

ports, in 1861 when the party came into ment of said money, public funds, bonds power there was in this country gold and revenues of the government of the and silver coin and bullion to amount of United States, and give to the senate all \$250,000,000, and against this there were other information in any manner perforeign coin bonds outstanding, taining to said transaction or transac-Since which time down to June 30, 1899, tions. according to republican treasury reports, gold and silver have been mined in the United States to the amount of \$3,181,-749,000, which being increased by the \$250,000,000 on hand in 1861 makes \$3,-

And yet by the treasury report of September 1, 1899 it is shown that there was then only \$1,420,819,212 of gold and silver coin in the United States. and against this sum there is outstanding in the hands of foreigners, mostly British, coin bonds to amount of seven billion dollars, very nearly five dollars of

bonds to every dollar of coin. Our country is very prolific in gold and silver mining, but it does not own dollar of gold or silver money. We have some borrowed on which we pay interest to foreigners, mostly British, as also on five and a half billion more that we have not, never had, and under

republican rule can never get or pay. The coin in this country can easily be so drawn upon at any time by the British oligarchy under their bonds as to reduce our money circulation to any degree of panic or bankrupt purposes, and enable the oligarchs in the future, as acquirement of information by party during the course of the meeting: they have in the past, to proceed as fast leaders will satisfy those of the rank and sthey may deem prudent to take in file of republican voters who have so

American property at their own prices. This Philippine war is to keep the bond business growing. Republican leaders have no care for ways and means on these shifting statesmen as having to pay off the great foreign coin debt, but only to keep it growing. If the country is to continue under republican of which have not changed for generarule it is hopelessly bankrupted, and the tions. bankruptcy will grow fast and strong as long as the party is in power, as is verily proved by Money Chart.

DISGUSTING TOADYISM

Compared with the Scholars and Thinkers of England,

The Independent has a very great re-

gard for the common people of England. It is to their love of liberty and bravery on a thousand battle fields that the world owes much of its progress and freedom. It holds in the very highest estimation its scholars, its poets, its scientific writers. They have the courage to speak the truth when men in the same class in this country turn sycophact and fawn at the feet of wealth. There was an example of this in the professors has been going on for the last ten years to establish the gold standard. All they professors in this country repudiated the well-established truths of political economy and became abject slaves of the banks and Wall street, while every professor of political economy in England stood by his guns and refused to crinca to the power of gold. Every one of them wrote and spoke in favor of bimetallism.

Among the most distinguished men of England is Rt. Hon, James Bryce, member of parliament, author of Transcaucasia and Arrarat, The Holy Roman Emreef of rocks too far from the shore to pire, Impressions of South Africa, and the American Commonwealth. His reputation for accuracy of statement and young and old, whose cries for help truthfulness is such that his work on the could be heard, loud as was the voice of government of this country has become the storm. Their boats were gone like a standard and text book in all Amerithe shells of eggs. There was no wood can colleges.
