But a few days after Cheadle was nominated he turned up at Mr. Hanna's farm dressed like a New York dude. He wanted Mr. Hanna, as populist chairman of the district, to call another convention and nominate a man to run nothing in return. It is rather amusing against Cheadle in the middle of the road. When Chairman Hanna refused, he went from house to house over the district, always having plenty of money, working up a middle-of-the-road convention which he at last succeeded in

> A democrat who takes the Independent once asked the editor how he managed to get news that was not published in the associated press dispatches. We didn't tell him, but we propose to tell it of course confidentially, to our subscribers. The editor has a large personal acquaintance with some newspaper men in Washington who write for gold bug papers. One or two of these have a notion that they are under obligations for some little favors that the editor, many years ago, granted them when he was a Washington correspondent and they were green at the business. These bright newspaper men, while they work on plutocratic papers, hate plutocracy with an undying hatred. They know what it is better than any one else. When they get hold of secrets-that their papers want suppressed, these newspaper men sometimes write to the edi-

tor of the Independent. The men who are so unselfishly working to get up clubs for the Independent can assure all new subscribers that they will get their money's worth. They will not only get all the news that decent, intelligent men are interested in, but they will get a defense of the doctrines of Lincoln such as they will find in no other paper. The editor fought along with old John Brown in Kansas when the outlook was much darker than it is now. He won out then and he believes he will win out this time.

GOLD BUG WRITING.

Gold bug Washington correspondents are crazier and have more wheels in their heads than they ever accused the populists of having in all the tirades that they have ever made. Here is a sample from W. E. Curtis:

"At the same time it is a curious fact as one of the most prominent members of the democratic committee and one of the most loyal supporters of Mr. Bryan remarked While collectively the committee is almost solid for Mr. Bryan, individually three fourths of the members are against

"Although the conservative element of the committee was overborne by the numbers and impetuosity of the Bryan men, it succeeded in gaining perhaps the most import point in the politics of the meeting in that it prevented an open alliance with the populists. It was arranged between Bryan, Jones, Stone and John son on the one side and Senators Allen and Butler on the other that both the special feature in the great New York democratic and populist conventions should be held beyond the Mississippi river, at Kansas City, and Lincoln, Neb. on June 6, and there was to be a joint ratification and an arm-in-arm parade at some neighboring city, perhaps Omaha or St. Louis, after Bryan and Caldwell were nominated, and a free-silver, antiexpansion, "agin the administration." government control of corporations, so-
