THE BEST WAY

It is quite well understood that merchant tailored clothing is meant to be something finer than ready-made-a little greater effort after the elegant and perfect. The best way we can describe our ready-to-put-on-clothing to you, therefore, is to say that they are as perfect in every respect as merchant

Taking merchant tailoring on the average, we think they are a little more so. They are mostly made from imported cloths. There is a difference in the quality and a difference in the price. If you want to dress with distinguished taste you can do so by buying your clothing of this store. A catalogue will reach you if you can't come in person, and satisfaction is guaranteed in every respect.

A Filipino general, Malbar, when sur rounded by the American army, replying to a demand from American officers that he surrender without resistance, declined to do so. He wrote an interesting letter in reply-one that showed his loyalty and devotion to the Filipino republic. He admitted the superiority of the American army with its equipment of artillery. In closing the Filipino general says:

"I must also signify to you that till the moment when our scarce bullets shall meet for the last time the overwhelming numbers of those of your powerful army, our shots demand not the death of any American, but the freedom of a people who for three hundred years have dragged the chain of slavery. They fought side by side with the American during the late Spanish-American war, and have hope that the descendants of Washington will give to us the independence which has been announced since the first coming of the powerful fleet for the honor and glory of the American people."
