THE NEBRASKA INDEPENDENT

IMPERIALISM, TRUSTS, SILVER

Upon His Betarn from Indianopolis.

"Mr. Chairman, Ladies and Gentlemen: This immense audience tonight indicates an interest in the questions before the people which is very gratifying to me. I want to talk to you a littie while and try to convince some of you at least who have not agreed with us in the past that it is your duty to act with us now. I am going to assume that you understand that in a government like this we are all stockholders and it is the duty of the directors of the company to run the company in the interest of the stockholders. Now, if a man is a stockholder in a company, and the director does not do his duty. the stockholder votes to turn the director out. If you have a board of directors and you think that that board is not doing what it ought to do in the interest of the stockholders, you have no hesitation in voting to turn the board out, and you assert yourself with others who agree with you, in order to secure a board which will protect the interests of the stockholder. Every stockholder, no matter how small his share, watches the action of the directors, ready to express his opinion, either in commendation or in condemnation.

'Now why is is it we, as citizens of plause.) this great republic should not be as ready to voice our opinions and express a protest if we feel a protest.

"On election day we choose the directors of this great corporation that we call a republic. The time is drawing near when we must sit injudgment upon the action of those who have been in charge of this government, and our votes will be counted, either in approval or in disapproval of what has been done. In the four years which have passed many thing have been done. You may approve of some: you may disapprove of some: but when you come to vote there will be some question, or some two questions, or three questions which will influence your mind about ail the rest of the questions. The great trouble is that when people belong to parties they sometimes get so partisan that the party becomes the master instead of the servant. Why should a republican vote to approve of policies that he does not like merely because he is a republican? The platform which is in the form of an address to the voters, contains one paragraph that defines our imperialism in the best manner hitherto known. It says:

There is no liberty if the citizen has no right which the legislature may not invade, if he may be taxed by a legislature in which he is not represented, or if he is not protected by fundamental law against the arbitrary action of executive power. The proposition to indorse Bryan elicited a long drawn-out debate. All the "third ticket" men, members of the so-called National party, had been admitted as full-fledged members of the Liberty Congress. Nearly all of them spoke in behalf of striking out the paragraph advising voters to support Bryan. They were supported by some members of the congress, but they were not able to turn the tide. Fifteen votes was all the strength they could gather for their proposition.

Nevertheless the "third party" men left with the best feelings, thanks to the admirable work of Mr. Zeisler, who was in the chair during the debate on the platform. Every opponent of Bryan's indorsement was accorded a fair hearing, and Mr. Zeisler firmly callea down some over-zealous "Bryanites" who tried to howl down those men who were, according to republican newspapers, the only sincere antiimperialists in this gaunering.

The supporters of pryan have reason to rejoice over the accession of the anti-imperialists to their ranks. The members of the Liberty Congress were not many in numbers, but they are men who count.

The same men who have denounced Mr. Bryan as the greatest evil on earth in 1896, gave him an unqualified indorsement in 1900. There was very little talk of the "lesser evil"-the main argument of many McKinley men in 1896-but there was a general hearty tribute to Mr. Bryan's honesty and sincerity. B. HERMANN.
