### APPEAL TO YOUNG MEN

Let Them Weigh Well and Carefully Consider the Great Questions Before Casting their First Vote.

For the first time you are about to go to the ballot box and there register your convictions upon public questions of national import. Before casting that vote allow me to call your attentions to the record of Mr. McKinley's administration upon certain questions at issue.

THE ARMY CANTEEN BILL.

This was a law enacted in good faith, after careful consideration and ample opportunity for discussion by a republican congress. Whether good or bad, wise or unwise, right or wrong, from the moral point of view is not, primarfly, for you to decide. But upon that higher question, a question of transcendant importance, viz. "Nullification of a national statute," by the president and cabinet official you will by your vote render a verdict.

Are you prepared to support for the highest office in the nation a man, who, sworn to conserve the best interests and maintain the dignity of his country, arbitrarily sets aside his country's laws. A man who arrogates to himself the right to defy the deliberate wisdom of the law-making power. To say that the attorney general, o nly, is responsible for this outrage upon statute law is begging the question. If the president, as chief of the executive department, is to be a lawbreaker, who knows where we shall stop? Shall it be when anarchy is realized? Then to soothe his Christian (?) conscience, offers the sop of \$2,000,000 for the island's relief. as if that could atone for the violation of a neighbor's principle.

Do you ask in whose interest this was accomplished? I answer, probably in the sugar and tobacco interest, but be that as it may, the principle involved is legislation in the interest of some class

In the name of human liberty and with the constitution blazing the way through the forests of difficulty, let me plead with you and urge you not to cast your first vote for that which stands in direct violation of our national constitution, and which, if persistently followed, must logically lead to the overthrow of American institutions, the subversion of republican forms of government, the relinquishthe exclusive right to issue money into the hands of bankers and bondholders | be held in Chicago some time during

# McKinley Prosperity

Times are relatively much better in Nebraska than they were four years ago. Four years ago we had not emerged from the effects of crop failures and burst booms. Times have been better all over the country for several years on account of good crops at home and abroad, and gold from Klondike and South Africa. Is this 'McKinley prosperity," and can he guarantee its continuance? Would he continue to give us good crops at better prices on account of famine and war, and has he a patent on Klondike and South African gold?

Men who labor, what business have you in a party of millionaires, bankers, bondholders, corporations and trusts? The republican party will give you your rights and place you above the dollar when selfish and lofty greed becomes an angel.

Republican prosperity in these days is prosperity for millionaires, bankers, bondholders, corporations and trusts. When some special divine providence favors the common people the republican party stands up with a brass brow and claims the credit. Belshazzer played the part of a god. # A Few More Pointers About Gregg Shorthand Institute, Brace Block, Lincoln. Neb.

ROHRBOUGH BROS., PROP'S. Pointer No. 1-Gregg Shorthand Institute is recognized by well-known leading business firms of Lincoln. Several applications for stenographers have been made. The positions offered pay salaries from \$50 to \$75 per month. On Monday we placed a six months Gregg writer and touch operator in one of the most difficult positions in Lincoln. The manager was heard to remark that he had never known of a six months' student direct from the school room to be able to do so much work in so short a time. Touch typewriting as he uses it is a success. All students of Gregg Shorthand Institute will be certain of reaching a similar speed, both in shorthand and touch typewriting in six months and thereby earn for themselves a similar compliment from some appreciative employer.

Pointer No. 2-The fall term opened September 3. New classes in Gregg shorthand and touch typewriting will be organized Monday morning. It will pay you to investigate this new institution and register ready to begin your studies at once. Call any time at the office, third floor, Brace block,

It will pay you to learn Gregg shorthand and the Mosher sys-
