later arrivals were left unsold." Several more trusts have been organized and dressed meats have raised from 1 to 5 cents a pound. In a town in Ohio there came near being a riot when the retailers announced the raise in meat. Crowds gathered at the meat markets and the proprietors had to make speeches to them to explain things. They said to the crowd: "We can't help it. It is to our interest to sell meat cheap. We are as much opposed to the raise as you are. But the trust has raised the price to us and we must raise the price to you or quit business."
