HARDY'S COLUMN

Crime of Crimes-New Words-Two Agree-Hanna Governors-Don't Says-Military Schools-Citizen Soiciers-Three Wars-War Churches.

The most henious crimes a nation was every guilty of committing is that of buying or selling people, either as nations or individuals. Where the United States of America is drifting to is hard to tell, but it seems they are rushing on a full canter to the hell of nations.

We don't like the new fangled words just brought into use. "Semester," not one men or woman in a hundred would know what it meant if they should meet it in the woods. Then "function" for party or dance. A few more such words will bust any big head.

In the two messages, of the two outgoing and incoming governors, we find but one recommendation that would lessen the state expenses, that was to reduce the number of district judges. We would say, do away with the labor bureau, the pure food bureau, the oil inspection and give us a board of state control who shall spend their entire time in the state service, watching over and directing matters. Roosevelt's prodigality has met a rebuff in the new governor of New York.

We can't agree with our new governor, that his house, his home or his family should be run as a state institution. About half of the governors we have had would demand that a barrel of Liquor should be on tap in the front room. Furnishing a house for him to live in and a salary ten times what he could earn on a farm is

Hanna says we must pass the ship subsidy bil! for the republicans will need at least five millions more next time to carry the presidential election and he will so arrange it that the subsidized ship-owners will furnish it. Stand up for Hanna or you are not a republican. Bryan is not dead yet, and is good for at least two more bat-

The only way to make life and limb safe at West Point is to keep the classes entirely separate. Establish three or four schools not less than ten or a hundred miles apart, then as a class finishes a year's study and drill, let them pass to the next school all together. Let the builys, with big heads, exercise their murder inclinations upon their classmates. Our military and naval schools should be reduced at least half. Our young men are learning war too much. They are seldom good for anything else after graduating at war schools.

The difference between a standing army and an army of volunteer citizens is the fact that regular soldiers will never work after being discharged while the citizen soldier will take up his work where he laid it down when

Neither of the three wars are yet ended. The election of McKinley has not stopped the war in the Philippine islands as it was prophesied. The English have not annibilated the native army of Africa. The billion of Chinamen are not all killed yet.

The statement is confirmed that Mc-Kinley has purchased the Danish West Indies, which include St. Croix, St. Thomas and St. John. Nothing remains only for congress to appropriate five millions to pay. Three more armies will be needed to keep those islands under control. What rext? We must We must have a chunk of Africa. We serve. Gloom, thicker than their hismust buy a chunk of India. England toric fogs, hangs over London. If the Central America: then Mexico to connect. Mexican prosperity with silver money is a menace to our millionaires.

It is quite certain that a majority of the church members, including bishops, priests and preachers, are in favor

they might be Christianized and fitted were branded as infidels.

Senate Committees

The senate committee on standing committees of which Lieutenant Governor Savage is chairman, has agreed upon the following report and the majority side has approved it: Judiciary committee-Baldridge,
