UNANSWERED QUESTIONS In 1878 the republican party stopped the coinage of silver. For five years this country, filled with hard-working. energetic, intelligent men and womn, was swept with the besom of destruction. Disaster and distress inreased until the coinage of silver was resumed in 1878. Twenty years afterward in 1893 the republican party, assisted by a minority of the democratic party, again stopped the coinage of silver. Five years more of such distress as the world never before saw followed and there was no let-up to it intil McKinley bogen to coin silver and coin it in larger quantities than ever poured out of the mints since the mints were established. Then times suddenly changed. Prosperity came back to the desolate homes of toiling American citizens. These are facts nown of all men. Yet there are millions of mer so partisanly insane that they would walk up to the polls tomorrow and east a ballot to stop the coinage of silver again if the republican party should put such a demand in its platform and ask them to do it. election it shall be filled thereat." Mr. Yeiser's citations are all correct, but lawyerlike, he stopped when the way from Quincy, Mass., occupied sane or honest man will deny these he might have made a further citation that would have put an entirely different look upon the affair. Section 16 of article 5 of the state constitution reads this way: "In the case of the death, impeachment and notice thereof to the accused, failure to qualify, resignation, absence from the state, or other disability of the governor, the powers, duties, and emoluments of the office FOR THE RESIDUE OF THE TERM, or until the disability shall be removed, shall devolve on the lieutenant-governor."

How anybody can work out a necessity for the election of a governor this fall under that section of the constitution is somewhat puzzling.
