Success of a Mexican Road's Educational Propaganda.

"TRAIN BUTCHER" ABOLISHED.

The Burlington's New Plan For Providing Reading Matter—Another System of Railroad Telegraphing.

The Chihuahua and Pacific railroad has inaugurated an enterprise which, while expensive now, will soon be of great benefit to the country and indirectly to the road itself.

Several shiploads have been sold in the seaport cities of Australia and India, and the syndicate is making preparations to meet an enormous demand next season.

By the recent action of the Burlington road the "train butcher" is done away with, says a dispatch from Kansas City to the New York Times.

As a substitute and for the purpose of providing the passengers with reading material the company will have news agents pass through the trains at the terminals in Kansas City, St. Louis, Atchison, St. Joseph and Omaha with newspapers and other reading matter.

Pennsylvania railroad officials are experimenting with a new system of telegraphy on the lines between Philadelphia and Pittsburgh, says the New York Commercial Advertiser.

An experiment undertaken some two years ago in California by the Santa Fe company, says a writer in The Cosmopolitan Magazine, demonstrated that one ton of coal would carry a certain train 26.7 miles, while a little more than a ton of oil—2016 pounds—carried the same train over the same track 38.46 miles, a gain of 44 per cent.

Several new passenger stations of more than ordinary importance are to be constructed in the southern states this year, says the New York Commercial Advertiser.

LATEST THING IN FRUITS.

The Dumbbell Which Tastes Like a Peach Flavored With Pineapple. Most New Yorkers at least have heard of "dumbbell tomatoes," but probably no one in America has yet seen the newest product of scientific gardening, the dumbbell fruit.

There is a romance connected with the story of its cultivation, and, although the fruit comes from an island in the Indian ocean, the hero of the story was an American.

Here he remained, living a Robinson Crusoe life, until his death in 1898, occupying himself with scientific studies and the cultivation of fruit trees.

JAPAN'S NEW ARMY.

Lieutenant Colonel Wantanabe, the first representative of the Japanese army to be accredited to Washington as military attaché, arrived there the other day, says the Philadelphia Times, and reported to the Japanese legation.

"The present military system of Japan is thoroughly modern," said he, "and is similar to the best European systems, those of Germany being followed to a considerable extent.

"The Japanese troops are armed and equipped with the latest rapid fire inventions. Our rifle is distinctively a Japanese weapon, made in our own arsenal and combining the best features of the most effective weapons.

THE WAY TO BE IN IT

Bartley has been paroled. He stole half a million of the people's money and was sentenced to the pen for twenty years and served five. He was a republican and a republican governor paroled him. Bartley says he has suffered; so are other criminals with a lesser charge and will never be recognized.

John Allen laugh that is always just ahead of a story. "You see, it was this-a-way: Cassells took me over to the Scots-Irish dinner at Philadelphia and I was asked to make a speech. What I said ran about like this: 'My apology for being here is that Cassells brought me. If you do not already know it, Cassells spends most of his time loafing about Washington stirring up prejudice against the Pennsylvania Railroad company. You see how it works. Mr. Barthold, a very earnest, industrious and devoted German member of the house from Missouri, made a convincing speech in behalf of a bill to reduce the tax on beer. When it came to a vote he had not sufficient support to get that very righteous bill through. Next day a bill came up to give about a fourth of the city of Washington to the Pennsylvania Railroad company with a couple of millions to induce them to take the property. In spite of Cassells' efforts it went through a-humming. Mr. Barthold stood at the door of the house after the bill had passed with the perspiration streaming off his hair. 'Mein Gott, Allen,' he said, 'if the brewers could only issue passes.'"

UTAH AN IDEAL CLIMATE.

The first white man to set foot on Utah soil, Father Silvestre Velez de Escalante, who reached the GREAT SALT LAKE on the 23rd day of September, 1776, in his diary: "Here the climate is so delicious, the air so balmy, that it is a pleasure to breathe by day and by night." INDEPENDENT'S PREDICTION FULFILLED.

The Following Cartoon and Accompanying Matter Appeared in The Independent May 9, 1901.

BARTLEY & MILLARD, BROKERS AND DEALERS IN STATE WARRANTS

THE SENATOR: Yes, Joe, it's true that you endorsed the state warrant, and that I endorsed it, too, and cashed it at my bank. Yes, it's true that Attorney-General Smyth prosecuted you for the crime and succeeded in having you sent to the penitentiary for twenty years. But don't get discouraged or disheartened for a while yet. Never tell the people how the money was divided. Keep "mum" a little longer. Remember that Henry Bolln, the Omaha city treasurer who defaulted for \$108,000.00, was pardoned by Governor Dietrich. Your turn will come soon. If we republicans can carry one more election it will be safe to grant your pardon. Perhaps, then, the next republican legislature would name you a senator, too.
