

# BISHOP HANDY SAYS

"I take great pleasure in acknowledging the curative effects of Peruna. At the solicitation of a friend I used your remedy and cheerfully recommend your Peruna to all who want a good tonic and a safe cure for catarrh."—JAMES A. HANDY.

Prominent members of the clergy are giving Peruna their unequalled endorsement. These men find Peruna especially adapted to preserve them from catarrh of the vocal organs which has always been the bane of public speakers, and general catarrhal debility incident to the sedentary life of the clergyman. Among the recent utterances of noted clergymen on the curative virtues of Peruna is the above one from Bishop James A. Handy, D. D., of Baltimore.

## OTHER NOTABLE CURES.

### A Husband Escaped the Pangs of Catarrh of the Lungs.

Most Cases of Incipient Consumption are Catarrh.

Edward Stevens.

Mrs. Edward Stevens of Carthage, N. Y., writes as follows:

"I now take pleasure in notifying you that my husband has entirely recovered from catarrh. He is a well man today, thanks to you and Peruna. He took six bottles of your medicine as directed, and it proved to be just the thing for him. His appetite is good and every thing he eats seems to agree with him. His cough has left him and he is gaining in flesh, and seems to be well every way."—MRS. EDWARD STEVENS.

Any internal remedy that will cure catarrh in one location will cure it in

any other location. This is why Peruna has become so justly famous in the cure of catarrhal diseases. It cures catarrh wherever located. Its cures remain. Peruna does not palliate; it cures.

Mrs. Frederick Williams, President of the South Side Ladies' Aid Society of Chicago, Ill., writes the following words of praise for Peruna from 973 Cuyler avenue, Chicago, Ill.:

"My home is never without Peruna, for I have found during the past six years that there is no remedy that will at once alleviate suffering and actually cure, as Peruna does. Four bottles completely cured me of catarrh of the head of several years' standing, and if my husband feels badly, or either of us catch a cold, we at once take Peruna, and in a day or two it has thrown the sickness out of the system."—Mrs. Frederick Williams.

Mrs. W. A. Allison, of 759 Sheffield avenue, Chicago, Ill., is the Assistant Matron of the People's Hospital. She has the following to say about Peruna:

"I have had frequent opportunities to observe the wonderful curative effects of Peruna especially on persons suffering with a congested condition of the head, lungs, and stomach, generally called catarrh. It alleviates pain and soreness, increases the appetite and so tones up the entire system that the patient quickly regains strength and health."—Mrs. W. A. Allison.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

Mrs. W. A. Allison.

There is a steady increase in the number of suicides, and the horror of the thing is that a very large number of them are the result of extreme poverty. The official statistics show that the increase since 1890 was as follows: 1890, 2,049; 1891, 3,531; 1892, 3,860; 1893, 4,436; 1894, 4,912; 1895, 5,759; 1896, 6,530; 1897, 6,600; 1898, 5,920; 1899, 5,240; 1900, 6,755; 1901, 7,245. A record like that shows that there should be some sort of reform. What shall it be? Socialism, single tax or "let the tariff alone?"

Shortly after the announcement was made that Chancellor Andrews had obtained leave of absence to visit the Pacific coast a story was put in circulation to the effect that it was the first part of an arrangement by which he would permanently locate there. The chancellor authorizes The Independent to say that there is not a word of truth in the statement. He says that California is a good place for invalids, but for a strenuous, active man, Nebraska is the place to live and work.

While Madden is suppressing newspapers part of his time under the plea that he wants to reduce the expenses of his department, the remainder of his time is devoted to urging congress to reduce letter postage one-half. When he looks at a reform newspaper, he is just crazy with the idea that the deficit must be wiped out. When he takes a glance at the great business concerns who send out thousands of letters every week he is wild to increase that deficit. Such is Madden, the ex-locomotive fireman.

Mr. K. K. Krikorian, an Armenian student of the state university, delivered a lecture at All Souls church on the Turkish atrocities. He was there at the time and could speak from personal knowledge. After telling how great congregations of men, women and children were butchered in the places of worship and something of the character of the Kurds and other Mohammedan soldiers, some one asked if there were any Armenians in the Turkish army. He replied very ingeniously: "Oh, no! They are not allowed to carry arms. They pay the taxes."

In a private letter to the editor of The Independent a distinguished lawyer of New York city says: "Although our insular matters can be settled, yet there remains the two great issues of money and taxation, which can only be settled by an appeal to the people in a presidential election. Mr. Roosevelt will never be able (if he is so disposed) to give the people of the United States (to say nothing about the territories or insular possessions) an equitable system of money, or an equitable system of taxation." With that view the editor of The Independent heartily coincides.

The tea industry of South Carolina, which has been slowly developing for a number of years, is now assuming commercial proportions. Speaking of this, the secretary of agriculture says: "The production of several kinds of tea in the United States is now assured, and in addition to this, it is encouraging to note that experts who have examined the tea produced here, pronounce it equal in flavor and aroma to the best imported leaves. The profit in the crop raised last year averaged from \$30 to \$40 an acre. In 1900 about 4,500 pounds of high grade tea were produced, and a ready market was found for all of it in South Carolina."

**LITTLE THINKS.**  
Here's another. The Crude Rubber trust has gone into the hands of a receiver. There are more to follow.

We hear much about the endless chain running through the United States treasury. It is another term for the redemption of the greenbacks. The same chain runs through all the banks of issue or deposit. They are all liable to be called upon to redeem their bills and pay their depositors. Nothing has been said about making the bank depositors safe. Saving departments in the postoffice are not mentioned. Get the money of the common people and no matter if they do lose it.

A higher mountain has been found in Alaska than any other in North America. The height has been measured as accurately as possible and it is judged to be 20,000 feet high.

We are not quite ready to take much stock in wireless telegraphs, storage batteries or aerial ships. An electric vibration on the coast of Greenland must reach Cuba and California as effectively as England or Norway. The

submarine telegraph companies are in a stew about it.

Several cargoes of reindeer have been shipped from Siberia to Alaska for use as freight haulers, and also as food breeders for the natives to take the place of the caribou, which are being driven out into more secluded territory. The caribou are somewhat like the elk or moose. In 1857 a cargo of camels was brought to this country from Arabia to be used in transporting military supplies across the American desert country. They were tamed loose and are often seen in Mexico and Arizona.

Our new postmaster general, Henry C. Payne, favors the reduction of letter postage to one penny. This can be done without incurring much of a debt if he will make the railroads carry mail as cheaply as they carry express matter. The old postmaster general was kicked out because of his efforts to raise the rate of newspaper postage.

Why don't Bixby sing a little about the Joe Bartley specks on Governor Savage? Never was there seen a blacker hoginess or bigger cow spots on any set of men than on the leading party republicans for the last ten years in Nebraska. A black pig never sees any difference between white and black, neither do the spots show. Small specks in the eye cover large spaces in the distance.

Joe Bartley, the worthy and most noted republican of Nebraska, has been pulled out of his workshop and given freedom of the street. His friends are now worrying lest he may take his family to Europe and live on the three hundred thousand that his wife took there and put in safe keeping. It will be a hard blow to the party if he does it. According to the Bee the governor got a big pardon fee, bigger and better than a reelection, which he will have to abandon.

If the editor of the Bee had never soiled his fingers or pockets with corruption money we would have implicit faith in his berating the present editor. However, he has exposed republican corruption he has done it from personal motives. Had he been elected senator last winter everything would have been lovely at the state house now. There is no doubt that Mr. Rosewater handed thousands and tens of thousands of whisky money in fraudulently defeating the prohibitory amendment years ago.

What is the use of fussing about the large sum of money that Senator Millard and his bank helped Joe Bartley to steal. As sure as a judgment is obtained and the amount, with court costs and lawyers' fees paid, the next republican legislature will pay it all back. They did do it in a similar case back in the seventies. Dan State Governor Wampler got \$12,000 of school money into the First National bank of Nebraska City and then drew it out for saloon, gambling hell and prostitution purposes. The state sued the bank and collected the money and the next legislature paid it all back and let the governor go free. The leading republicans of this state are bound that not one cent of Joe's stealing should come back to the state. That amount of money, together with what other state officers have stolen, amounting to over a million, will serve as a tie to hold the party together.

Philadelphia is but the only city in this country where pure capitalism held its own in the late city elections. The republicans, by fusing with the honest democrats and pops, carried New York. In San Francisco the laboring voters carried a labor ticket independent of the old parties. That shows what they may do if they want to. In Bridgeport, Conn., the labor voters also elected their man; he was a coal shoveler and had been for twenty years. The honest republicans united with the democrats and carried the day. Bridgeport is a city of 75,000. In Rochester, N. Y., they elected a man who was in favor of a non-partisan school board. He is a republican, but not of full party color. If the voters of Chicago had any sense or honor they would elect Miss Haley and Miss Goggin members of the school board or to a higher office. No two men have done the good for the taxpayers in the last forty years that they have. They found \$200,000,000 of valuable property in the city not taxed, and the matter was carried to the supreme court and the tax shirkers were held.

The following is the table of statistics issued by the census bureau on the trusts of the United States for the year 1900 and ten years previous:

Botha and De Wet's base of supplies are the English supply trains. They are always in connection with them.

Rosewater don't like the condition that forces him to go away back and sit down while Bartley bosses the machine.

Corbin and canned beef still make their presence known in the army. Eighty more soldiers were poisoned with it the other day.

Dr. Bixby should state the fact that Bartley didn't "put it back." But perhaps Bixby thinks that he has already worn that phrase to rags.

Congress might as well stop wasting time passing postal laws. The imperialists in the postoffice department prefer to make their own laws.

It was a silly thing for Dewey to get married three times in one day. His divorce bills will be 300 per cent greater than they otherwise would be.

Senator Millard is the most careless of millionaire bankers. According to his own sworn statement he is in the habit of endorsing \$200,000 warrants without looking at them.

Dewey should now proceed to incorporate his triple marriage in the state of New Jersey, issued \$3,000,000 of stock, half preferred and half common, and proceed to do business after the modern fashion.

The papers say that a committee of the great dailies, have come to this country to study trusts. They should call on Attorney General Knox. He knows more about trusts and how not to prosecute them than any other ten men in the United States.

Some of the great dailies deserve credit for printing their exhaustive reports of prize fights and horse races on different colored paper from the rest of the edition. A decent man can immediately put that part in the stove before his family sees it.

Prof. Heron's socialistic village in New Jersey did not evolve into the sort of thing that he expected, so he has gone to Brussels and will make that his permanent abiding place. Socialistic colonies always seem to have the same ending in the United States.

According to the official statistics of the output of coal during the last year, the advance of \$1 a ton on anthracite, has put \$60,000,000 of unearned money in the coffers of the American coal trust. But Attorney General Knox knows nothing about such a trust being in existence.

The editor of The Independent is surprised at the very large number of letters that he has lately received in which the writers declare that they were old soldiers and voted for Lincoln, but for the last ten years have regarded the republican party as a dangerous foe to our form of government.

The Nebraska Mercantile Mutual and the Farmers Mutual, both of this city, have, ever since the Richards Block fire, which burned them out, been occupying offices on the second floor of the Miller & Paine building, but recently they were able to make very satisfactory contracts for the ground floor at 130 North 13th street, and during the last week have been moving to their new quarters. They have a good, large vault and many advantages arising from being on the ground floor.

We recently called at their new offices and while in an unsettled condition the change seems to be very satisfactory. Don't forget the new address—130 North 13th Street.

**All Agreed**  
The opinion of the American people concerning the Sampson-Schley controversy comes nearer being a unit than on any other question that has ever attracted the attention of the public. In another article the opinion of the press, republican and democratic has been given. The following comes from the literary guild. Frank H. Spearman, the author, says:  
"The truth is that to call the court as constituted by Lemly and Benjamin, judicial is really an abuse of language. It was a prosecution, not an inquiry. The man behind the assassin gun trained on Admiral Schley all his time, is the secretary of the navy, Long. Hard as it is to say it, the smaller dogs from Crowninshield to the cur that fattens on government pay in the Brooklyn navy yard—Maclay—merely bark at Long's bidding."  
"It is said that Schley disobeyed orders. Men of such stuff as Schley is made of are big enough to disobey orders. The man that disobeys orders and wins is the man the world crowns. Nelson won the battle of Copenhagen by disobeying orders. Nelson was pursued his whole life by a naval cabal. Grant was dogged by a Washington clique when he was doing the work that made him Grant. It is the penalty of success. Winfield Scott Schley does not lack precedent for taking the bit in his teeth and winning. Clark of the Oregon, steaming around a world and wiring Washington, 'Don't tie me up with red tape;' Stonewall Jackson in the Valley, saying, savagely, to Richmond, 'Send me fewer orders and more men;' Sickles, at Gettysburg; Nelson on the North Sea can each reach a hand to Admiral Schley. They did as he did—the best—and won."

**A Missing Report**  
"I herewith transmit to the senate," wrote President Roosevelt the other day, "the report of the isthmian canal commission." The president's letter was read and then the officials began to search for the report. There were rumors that an immense dray had been started from somewhere uptown loaded with maps and diagrams and typewritten volumes. Probably the stuff, when it reached the capitol, was dumped into the cellar. At any rate, up to the hour of going to press, it was still reported missing. When it is found it will be printed. There is said to be so much of it, however, that it will take a life-time to read it through.  
But it is not expected that anybody will ever "read it through." It will be stacked away along with the eighteen thousand-page volumes of the industrial commission's report, where it will rest undisturbed forever more. And the people will pay the bill.  
**Take England's Example**  
Republicans tell you that Dewey could not get away from Manila after he sank the Spanish fleet. Say he had no place to go. Why was that? England had closed her ports and said we could not procure coal, food, arms and ammunition to be used in fighting Spain. England enforced the

# STALLIONS

FRANK IAMS returned from France October 10, 1901, with the largest importation of stallions to Nebraska in 1901—only man in the United States that imported all black Stallions. He imported 40 BLACK PERCHERONS—40—

They are the "town talk." The people through their barns and bibles over with these sayings: "The most select and largest black stallions I ever saw." "Every one a winner and as wide as a wagon." "The choicest lot I ever imported." "But Iams always has the best horses." "Has many prize winners at leading horse shows of America." "Won't have culis." "His horses won \$1,300 at Omaha exposition." "In fact, they always win." He has on hand—

100 Black Percherons, Clydes, Shires, etc., etc. They are 2 to 5 years old, weigh 1,600 to 2,400 lbs. Iams has MORE black stallions, MORE ton and thick stallions, MORE money makers and TOPS, more government approved and royal bred stallions than ALL importers of Nebraska. Iams speaks French and German and needs no interpreter, knows the breeders in La FERE, etc. This with twenty-five years' experience saves \$300 on each stallion and gets the best horses.

Irrespective of their cost. He has no salesman, saves you the middleman's profit uses no gold brick talk, guarantees to show you more black ton stallions than all importers of Nebraska or pay fare and \$20. Don't be a clam—write Iams. He pays freight and fare of buyers. Beras in town.

**Right Kind or None**  
Editor Independent: I send you one dollar for your paper for one year. There are very few of the reorganizing traitors in this county, but if our state committee with its John P. Hopkins and such assistant republicans as he has with him on the committee succeed in getting control of the party in this state and nominating such men as they like, we will not vote for one of them. We want a clean democratic people's party or none.

Harrisburg (Ill.) Register: Up in Minnesota the state courts are trying to prevent the consolidation of competing lines of railroad by enjoining the transfer of their stock, and the United States courts are aiding the trusts by dissolving the injunctions. This shows the difference between judges elected by the vote of the people and the judges appointed by a servant of the monopolists. It also indicates that the federal courts are packed not only against union labor, but against all labor.
