The United States,

83

[Special Washington Letter.]

MIAT the result of the Hanna- becoming top heavy and will fall of Senator Marcus A. Hanna a capitalization is getting in its deadly strong candidate for the Repub- work. The copper trust and the aslican presidential nomination phalt trust are fine illustrations of this. there can be no question. Indeed, at Copper shares dropped from \$130 to this writing it looks as though Senator | \$60 and asphalt shares from \$90 to \$28 Hanna and President Roosevelt would with a suddenness that made holders' be the chief wrestlers for the incom- teeth rattle, took away their breath And he ought to have a tablet in the parable prize. They may render the and brought the bankruping court into fight so bitter and so fierce that some view. This asphalt concern was a huge of Illinois, may walk away with the caught. It's busted. baggage while Marcus and Theodore are engaged in the pleasant occupation of killing each other off, but the gladiators who will monopolize public attention until the nomination is actually made are unquestionably Hanna and It is to have created a new office, that Roosevelt.

president's shoes was ever elected president or even nominated by his party for that high office, but precedents cannot be relied on implicitly. President Roosevelt has been a precedent smasher all his life and may be able to break the one above referred to. He is young. vigorous, capable, courageous, learned will appeal strongly to young Republicans who are ex necessitate more active than their elders.

Senator Hanna has his great national machine somewhat weakened by Mc-Kinley's death, but still the most powerful in the land. President Roosevelt possible, and three years hence it may Riche should contemplate the back hair way the wind is blowing. be as potent as Hanna's. At any rate, it will be potent enough to put up a great fight, and it may be safely predieted that the Hanna-Roosevelt fight will be historic and-ruinous to the Republican party. As a consequence of that fight we stand to win, a consummation devoutly to be wished.

Hanna In a New Light.

One thing is absolutely certain, however, and that is that Senator Hanna is a much larger and more commanding figure than he was before he locked horns with Senator Foraker and headed, common sense Americans are got away with most of the spoils. I not ready for that, and the office will know that it is not partiality that influences my opinion. In that contest I was in the same frame of mind as was the estimable spouse of the man engaged in a life and death tussle with a bear when she shouted: "Go it, husband! Go it, bear!" But it is simple truth to say that that fight caused Senator Hanna to grow in public estimation. It had been so often asserted that Hanna shone by a reflected light from President McKinley and would now shrink and shrivel to very small proportions that most men had come to believe it. It is said that an open confession is good for the soul, and I believed it myself, but last month Senator Hanna, without any assistance from the national administration, entered into a fight with Senator Foraker-in the Foraker year-and more than held his own. Henceforth it must be admitted that Hanna had strength of his own, and all Republican statesmen who are nursing presidential booms and boomlets may as well take due notice of the fact and govern themselves accordingly.

Rushing Things.

The manner in which the Republicans rush things through the house is an outrage on common sense and ordinary decency and has a direct tendency to degrade the house, to minimize its influence and to exalt the senate. As a fair example of the unseemly haste with which things are railroaded through the house let it not be forgotten that the Philippine tariff bill was debated only six hours, a bill directly affecting the happiness and prosperity of 8,000,600 or 10,000,000 Filipinos and indirectly the happiness and prosperity of 76,000,000 Americans. Even so distinguished a debater as Hon. Charles E. Littlefield of Maine was reduced to the necessity of speaking one minute and "extending his remarks in The Record." It may be truly said that no bill is adequately debated or considered in the house. Bill after bill full of crudities is rushed through and sent over to the senate "with a" its imperfections on its head." Of course the senate considers and debates these bills and sends them back to the house greatly disfigured by numerous amendments or entirely transmogrified by substitutes, and, as a rule, the house yields to the senate's wish. Every time that performance is repeated the senate gains in both influence and importance, while the bouse sinks lower and becomes of less consequence.

There is no excuse for such haste and recklessness. They have the quorum counting rule, which greatly expedites business when business needs expediting, and the previous question with which to close debate when debate ought to be closed. Therefore bills ought to be adequately debated and egislation perfected in the house of representatives fresh from the people. Top Heavy.

To those who observe the happenings on this mundane sphere signs are not German emperor, he is off his box, for
